CLERK'S NOTE

This committee print provides a compilation of the enacted text and applicable explanatory material for the Consolidated Appropriations Act, 2023 (H.R. 2617, P.L. 117–328).

The Act consists of 12 divisions related to regular annual appropriations Acts for fiscal year 2023 (divisions A through L), and two supplemental appropriations Acts (division M, which contains the Additional Ukraine Supplemental Appropriations Act, 2023, and division N, which contains the Disaster Relief Supplemental Appropriations Act, 2023), which provide supplemental appropriations for fiscal year 2023. The Act also includes 25 additional divisions largely unrelated to appropriations matters (divisions O through MM). This compilation includes only the 14 divisions related to regular and supplemental appropriations matters (A–N). It also includes the front matter of the Act, which contains provisions applicable to the entire consolidated Act.

Divisions A through L are the products of negotiations between the House and Senate Appropriations Committees on final fiscal year 2023 appropriations for all 12 annual appropriations bills.

The legislative text of the consolidated Act was submitted by Senator Patrick J. Leahy, Chairman of the Senate Committee on Appropriations, as an amendment (Senate Amendment 6552) to the House amendment to the Senate amendment to an unrelated bill pending in the Senate, H.R. 2617. The Senate agreed to that amendment on December 22, 2022, after adopting 8 additional amendments to Senate Amendment 6552. The House agreed to the measure on December 23, 2022. The President signed the legislation on December 29, 2022, and it became Public Law 117–328.

Because an “amendments-between-the-Houses” process was used instead of a conference committee, there is no conference report and no “Joint Explanatory Statement of the Managers” for H.R. 2617. An explanatory statement relating to Senate Amendment 6552 was filed by Senator Leahy in the Congressional Record on December 20, 2022.¹ Section 4 of the front matter of the consolidated Act provides that this explanatory statement “shall have the same effect with respect to the allocation of funds and implementation of divisions A through L of this Act as if it were a joint explanatory statement of a committee of conference.”

For the convenience of users, the legislative text of each of divisions A through L is paired with the applicable division of the explanatory statement. Divisions M and N do not have associated explanatory material.

¹ The explanatory statement appears in Books I, II, and III of the December 20, 2022, Congressional Record. (See pages S7819–S9590.)

LAND AND WATER CONSERVATION FUND

With enactment of the Great American Outdoors Act (GAOA) (Public Law 116–152), Congress provided a permanent appropriation of \$900,000,000 per year from the Land and Water Conservation Fund (LWCF). Along with other mandatory appropriations, LWCF programs are subject to a 5.7% sequestration, with those sequestered amounts becoming available in the subsequent fiscal year. GAOA also mandated that account allocations and detailed project information be proposed by the administration each year through the President's annual budget submission, and that such

allocations, following review by the Committees on Appropriations, may be modified through an alternate allocation.

A detailed table accompanying this explanatory statement shows the LWCF allocation for fiscal year 2023 by agency, account, activity, and project, including lists of specific Federal land acquisition projects and Forest Legacy Program projects, including congressionally directed spending. Additional tables provide the sequestration adjustments and details for the reallocation of unobligated balances appropriated in previous years to projects that have been completed, deferred, or terminated and are being transferred to currently viable projects. The agencies are expected to continue to follow the directions included in the explanatory statement accompanying the Consolidated Appropriations Act, 2021 (Public Law 116–260) under General Implementation. Specific additional directions follow.

AVSO should incentivize recruitment, invest in retention and apprenticeship, improve process efficiency, and improve collaboration with its client bureaus. Requesting bureaus may release unredacted appraisal reports to intended users after a report has been reviewed and approved for agency use after consultation with AVSO. In addition to the reporting requirement in House Report 117–400, the Department is directed to report to the Committees on process improvements within 90 days of enactment of this Act.

Bureau of Land Management.—The Bureau should prioritize recreational access funds to acquire conservation easements or right of way acquisitions for high priority access parcels identified as part of the Department's conformance with Section 4105 of the John D. Dingell, Jr. Conservation, Management, and Recreation Act (Public Law 116–9) in order to reduce areas of public lands that have significantly restricted public access.

Fish and Wildlife Service.—The Service is expected to provide outreach to all units of the National Wildlife Refuge System, including Clarks, Edwards, Green River, Loxahatchee, McKinney, and Ottawa, to ensure these refuges are accessing all available funding tools, including recreational access and inholdings. The Service is strongly encouraged to begin due diligence work on the accumulating backlog of parcels available at Clarks River National Wildlife Refuge. The Committees encourage the Service to consider habitat conservation plan land acquisition applications that enhance efforts to establish state research forests through the Cooperative Endangered Species Conservation program.

National Park Service.—The bill provides \$336,028,000 for the state assistance program. In addition, the Service has \$59,900,000 in unobligated funds from Fiscal Year 2019 and prior years not associated with any State's allocation. The bill also provides authority

for the Service to use up to seven percent of the funds provided for State Conservation Grants to support States in covering their administrative costs, which will allow the program to improve its ability to obligate funds in a timely manner.

Forest Service.—The Forest Service is strongly encouraged to explore funding opportunities for tracts available for acquisition in the Talladega and Conecuh National Forests. The Service should examine ways to improve the appraisal process, including uniform Service-wide appraisal and real estate policies that provide consistency across regions and ensure delivery of timely appraisals, as well as effective, collaborative use of partners to improve efficiency and project success, allowing for third party contracting and other engagement where appropriate. The Service is directed to report to the Committees on appraisal program improvements within 90 days of enactment of this Act.

Within 45 days of enactment of this Act, the Service shall submit a reprogramming request in accordance with the Committees' established reprogramming guidelines for additional unobligated balances to be used for Forest Legacy Program projects included in the supplemental list submitted to the Committees pursuant to Public Law 116–220.

REPROGRAMMING GUIDELINES

The following are the procedures governing reprogramming actions for programs and activities funded in the Department of the Interior, Environment, and Related Agencies Appropriations Act. The agencies funded in this Act are reminded that these reprogramming guidelines are in effect, and must be complied with, until such time as the Committees modify them through bill or report language.

Definitions.—“Reprogramming,” as defined in these procedures, includes the reallocation of funds from one budget activity, budget line-item, or program area to another within any appropriation funded in this Act. In cases where either the House or Senate Committee on Appropriations report displays an allocation of an appropriation below that level, the more detailed level shall be the basis for reprogramming.

For construction, land acquisition, and forest legacy accounts, a reprogramming constitutes the reallocation of funds, including unobligated balances, from one construction, land acquisition, or forest legacy project to another such project.

A reprogramming shall also consist of any significant departure from the program described in the agency's budget justifications. This includes all proposed reorganizations or other workforce actions detailed below which affect a total of 10 staff members or 10 percent of the staffing of an affected program or office, whichever is less, even without a change in funding. Any change to the organization table presented in the budget justification shall also be subject to this requirement.

Agencies are reminded that this agreement continues long-standing General Guidelines for Reprogramming that require agencies funded by this Act to submit reorganization proposals for the Committees' review prior to their implementation. It is noted that such reprogramming guidelines apply to proposed reorganizations,

workforce restructure, reshaping, transfer of functions, or bureau-wide downsizing and include closures, consolidations, and relocations of offices, facilities, and laboratories. In addition, no agency shall implement any part of a reorganization that modifies regional or State boundaries for agencies or bureaus that were in effect as of the date of enactment of this Act unless approved consistent with the General Guidelines for Reprogramming procedures specified herein. Any such reprogramming request submitted to the Committees on Appropriations shall include a description of anticipated benefits, including anticipated efficiencies and cost-savings, as well as a description of anticipated personnel impacts and funding changes anticipated to implement the proposal.

General Guidelines for Reprogramming.—

(a) A reprogramming should be made only when an unforeseen situation arises, and then only if postponement of the project or the activity until the next appropriation year would result in actual loss or damage.

(b) Any project or activity, which may be deferred through reprogramming, shall not later be accomplished by means of further reprogramming, but instead, funds should again be sought for the deferred project or activity through the regular appropriations process.

(c) Except under the most urgent situations, reprogramming should not be employed to initiate new programs or increase allocations specifically denied or limited by Congress, or to decrease allocations specifically increased by the Congress.

(d) Reprogramming proposals submitted to the House and Senate Committees on Appropriations for approval will be considered as expeditiously as possible, and the Committees remind the agencies that in order to process reprogramming requests, adequate and timely information must be provided.

*Criteria and Exceptions.—*A reprogramming must be submitted to the Committees in writing prior to implementation if it exceeds \$1,000,000 annually or results in an increase or decrease of more than 10 percent annually in affected programs or projects, whichever amount is less, with the following exceptions:

(a) With regard to the Tribal priority allocations of the Bureau of Indian Affairs (BIA) and Bureau of Indian Education (BIE), there is no restriction on reprogrammings among these programs. However, the Bureaus shall report on all reprogrammings made during a given fiscal year no later than 60 days after the end of the fiscal year.

(b) With regard to the EPA, the Committees do not require reprogramming requests associated with the States and Tribes Partnership Grants or up to a cumulative total of \$5,000,000 from carryover balances among the individual program areas delineated in the Environmental Programs and Management account, with no more than \$1,000,000 coming from any individual program area. No funds, however, shall be reallocated from individual Geographic Programs.

(c) With regard to the National Park Service, the Committees do not require reprogramming requests associated with the park base within the Park Management activity in the Operation of the National Park System Account. The Service is required to brief the

House and Senate Committees on Appropriations on spending trends for the park base within 60 days of enactment of this Act.

Assessments.—“Assessment” as defined in these procedures shall refer to any charges, reserves, or holdbacks applied to a budget activity or budget line item for costs associated with general agency administrative costs, overhead costs, working capital expenses, or contingencies.

(a) No assessment shall be levied against any program, budget activity, subactivity, budget line item, or project funded by the Interior, Environment, and Related Agencies Appropriations Act unless such assessment and the basis therefor are presented to the Committees in the budget justifications and are subsequently approved by the Committees. The explanation for any assessment in the budget justification shall show the amount of the assessment, the activities assessed, and the purpose of the funds.

(b) Proposed changes to estimated assessments, as such estimates were presented in annual budget justifications, shall be submitted through the reprogramming process and shall be subject to the same dollar and reporting criteria as any other reprogramming.

(c) Each agency or bureau which utilizes assessments shall submit an annual report to the Committees, which provides details on the use of all funds assessed from any other budget activity, line item, subactivity, or project.

(d) In no case shall contingency funds or assessments be used to finance projects and activities disapproved or limited by Congress or to finance programs or activities that could be foreseen and included in the normal budget review process.

(e) New programs requested in the budget should not be initiated before enactment of the bill without notification to, and the approval of, the Committees. This restriction applies to all such actions regardless of whether a formal reprogramming of funds is required to begin the program.

Quarterly Reports.—All reprogrammings between budget activities, budget line-items, program areas, or the more detailed activity levels shown in this agreement, including those below the monetary thresholds established above, shall be reported to the Committees within 60 days of the end of each quarter and shall include cumulative totals for each budget activity or budget line item, or construction, land acquisition, or forest legacy project.

Land Acquisitions, Easements, and Forest Legacy.—Lands shall not be acquired for more than the approved appraised value, as addressed in section 301(3) of Public Law 91–646, unless such acquisitions are submitted to the Committees on Appropriations for approval in compliance with these procedures.

Land Exchanges.—Land exchanges, wherein the estimated value of the Federal lands to be exchanged is greater than \$1,000,000, shall not be consummated until the Committees have had 30 days in which to examine the proposed exchange. In addition, the Committees shall be provided advance notification of exchanges valued between \$500,000 and \$1,000,000.

Budget Structure.—The budget activity or line item structure for any agency appropriation account shall not be altered without advance approval of the Committees.

TITLE I—DEPARTMENT OF THE INTERIOR

The Bureau is directed to provide a report within 180 days of enactment of this Act on a needs assessment and cost analysis of conservation actions to ensure the future sustainability of habitat identified in recent departmental work on ungulate migrations in the Western United States and improving habitat quality in western big game winter range and migration corridors. The Committees continue to focus on improving and restoring sage-grouse habitat and expect the Bureau to use the resources provided to increase capacity, implement the National Seed Strategy, and detect and remove invasive plants.

Legacy Wells.—The bill provides no less than \$28,900,000 for legacy well remediation to maintain program capacity and continue progress toward cleanup of the next cluster of legacy wells in need of remediation.

Resource Management Planning.—The bill provides \$69,029,000 which maintains \$10,000,000 for sage grouse. The Committees understand the Bureau is expected to finalize the resource management plan amendments currently underway for Greater sage-

grouse conservation and is encouraged to consider Area of Critical Environmental Concern designations where appropriate.

Abandoned Mine Lands and Hazardous Materials Management.—The agreement provides \$57,166,000 which includes program increases and \$16,503,000 for remediation of abandoned mine land sites.

Administrative Support.—The agreement provides \$56,305,000 which includes the budget request for diversity, inclusion and compliance, Justice 40, HR support, and the Foundation for America's Public Lands. Bill language and direction as outlined in House Report 117–400 is maintained.

National Conservation Lands.—The agreement provides \$61,599,000 which includes \$11,000,000 in a new line for the National Scenic and Historic Trails.

The Committees expect the increase provided will create capacity to initiate or revise management plans for recently designated or expanded monuments, including Cascade-Siskiyou National Monument and Rio Grande del Norte National Monument, and address other high priority areas.

Off-Highway Vehicle Pilot Program.—In addition to the direction in House Report 117–400, the Committees strongly encourage the Bureau to dedicate two additional employees to support high-volume special recreation permit (SRP) offices and examine moving the threshold for recovering SRP processing costs from 50 to 100 hours.

OREGON AND CALIFORNIA GRANT LANDS

The bill provides \$120,334,000 for the Oregon and California Grant Lands appropriation. Specific allocations at the activity and subactivity level are contained in the table at the back of this explanatory statement. The Bureau will continue to follow and implement the directives included in the explanatory statement accompanying Public Law 117–103 under this heading.

RANGE IMPROVEMENTS

The bill provides \$10,000,000 to be derived from public lands receipts and Bankhead-Jones Farm Tenant Act lands grazing receipts.

SERVICE CHARGES, DEPOSITS, AND FORFEITURES

UNITED STATES FISH AND WILDLIFE SERVICE

RESOURCE MANAGEMENT

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$1,555,684,000 for Resource Management. All programs and activities are funded at the amounts enacted in fiscal

year 2022 unless otherwise specified below or in the table at the end of this division. Fixed costs are provided. The Service is expected to comply with the instructions and requirements at the beginning of this division and in House Report 117–400 unless otherwise specified below. While some language is repeated for emphasis, it is not intended to negate the language referred to above unless expressly provided herein.

The Service is expected to comply with language contained in the explanatory statement accompanying Public Law 117–103, the Consolidated Appropriations Act, 2022 regarding Traditional Knowledge, Subsistence Activities, Continued Funding Prohibitions, Sea Otters, Polar Bear Tourism, Conservation Banking Report, and Ozark Hellbender. The agreement reiterates the direction in House Report 117–83 and the explanatory statement accompanying Public Law 116–260 regarding American red wolves. In addition, language contained in Senate Report 116–123 subtitled Native Handicrafts, Central Everglades Planning Project, Loxahatchee National Wildlife Refuge, is restated. The agreement reiterates that the Service’s 2016 regulation does not apply to Alaska Native handicrafts made from walrus ivory and mammoth ivory.

Ecological Services.—The agreement provides \$296,033,000 for programs and activities within Ecological Services, including \$23,398,000 for listing.

Planning and Consultation.—The agreement provides \$120,858,000 which maintains \$4,000,000 for Gulf Coast restoration activities and provides \$96,373,000 for general program activities for building staff capacity. The Committees understand concerns exist regarding the timing of processing of Endangered Species Act Section 7 consultation requests, such as in West Virginia. While the Committees recognize the Service is working to clear the backlog, the Service is directed to report to the Committees within 90 days of enactment of this Act on a review of the process and provide recommendations on ways to improve and expedite the process.

Conservation and Restoration.—The agreement provides \$37,653,000 for conservation and restoration activities which includes \$7,220,000 for marine mammals with the increase directed toward manatees; \$500,000 for the Alaska Nannut Co-Management Council (ANCC); \$250,000 for the Eskimo Walrus Commission (EWC); and \$15,037,000 for candidate conservation. The Service is expected to complete the survey and stock assessment of northern sea otters in Southeast Alaska and assess this population relative to the optimum sustainable level, improve management strategies, and document ecological impacts of sea otters. Upon finalization of this report, the Service shall transmit the report to the Committees.

Collaboration between Federal Agencies and Private Forest Owners.—The Committees recognize that many at-risk species inhabit private lands, and that the Service must consider non-regulatory and voluntary collaborative conservation efforts with private landowners to accomplish its mission. The Service is directed to continue to utilize its grant and other programs to pursue collaborative species conservation to the maximum extent practicable, specifically for the Northern Long-Eared Bat and the Wood Turtle.

Overall, these ongoing collaborative efforts with private landowners through programs such as the Wildlife Conservation Initiative will play a vital role in conserving at-risk and listed species, allow for cooperation, and ultimately help achieve important wildlife conservation outcomes.

Recovery.—The agreement provides \$114,124,000 for activities in support of the recovery and delisting of threatened and endangered species which includes \$4,750,000 for the State of the Birds to respond to the urgent needs of critically endangered birds that, due to climate change, now face imminent extinction from non-native mosquitoes that carry avian malaria and other pathogens lethal to these birds; \$2,300,000 for the Prescott Grant program; \$1,000,000 for the wolf-livestock demonstration program; and \$87,192,000 for general program activities with a particular focus on building staff capacity.

The agreement provides \$10,500,000 for Recovery Challenge matching grants. Recovery Challenge grants are to be used to implement high priority recovery actions as prescribed in recovery plans to recover federally listed species. Actions should include, but are not limited to, genetically-sound breeding, rearing, and reintroduction programs. Project partners must provide contributions at least 50% of the project cost, with the remaining funding coming from Recovery Challenge funds. Partner contribution calculations may include in-kind services. Unless an affected State is a partner on the project, no funds may be awarded to a project until the project partners have consulted with such State.

State Research Forests.—The Service is encouraged to support cooperative research, monitoring, and recovery efforts for the protection and recovery of spotted owl and marbled murrelet species on state research forests.

Florida Grasshopper Sparrow.—The Service is directed to continue to support the Florida grasshopper sparrow recovery efforts and the captive breeding program as managed by its conservation partners as referenced in Senate Report 116–123 and the agreement provides \$350,000.

Western Monarchs and Other Pollinators.—The Service is directed to utilize Service-managed lands to the maximum extent practicable to serve as habitat corridors for migrating monarchs, in particular the western monarch. The Committees recognize the Service provides resources for monarchs and other pollinators across multiple accounts, and this agreement provides no less than \$7,000,000 for the western monarch butterfly and other pollinators which includes \$4,000,000 within National Wildlife Refuge System, Inventory and Monitoring and \$3,000,000 in Science Support. The Service is encouraged to work alongside Federal agencies, State, Tribal, and non-governmental organizations on a comprehensive strategy to increase habitat and monitoring of critical pollinator species. The Service is expected to continue to work with the National Fish and Wildlife Foundation to expand and leverage monarch recovery efforts.

Western Yellow Rail.—The Service is encouraged to contribute to regional cooperative efforts in the study, conservation, and management of the western Yellow Rail in the Pacific Northwest.

Habitat Conservation.—The agreement provides \$74,224,000 for habitat conservation programs, of which \$60,267,000 is for the Partners for Fish and Wildlife program and \$13,957,000 is for the Coastal Program. The agreement provides \$3,200,000 for nutria eradication project and notes additional funding is provided in the National Wildlife Refuge System.

Klamath Restoration.—The Service is directed to consider additional activities that could be undertaken to recover endangered and threatened species, restore habitat, and improve the health of the Klamath Basin National Wildlife Refuges with the funds provided in fiscal year 2023 and during the fiscal year 2024 budget formulation. The Service is also encouraged to continue to coordinate with the Bureau of Reclamation where appropriate and consult with Tribes.

National Wildlife Refuge System.—The agreement provides \$541,555,000 for the National Wildlife Refuge System.

Wildlife and Habitat Management.—The agreement provides \$16,925,000 for invasive species to focus on high priority invasive species including nutria, buffelgrass, and cheatgrass; \$3,000,000 for nutria eradication; \$500,000 to help refuges improve water efficiency in order to maintain, improve, replace and upgrade refuge infrastructure on areas such as the Quivira National Wildlife Refuge; \$2,500,000 for Marine National Monuments and maintains the direction in House Report 117–400 on the Northeast Canyons and Seamounts Marine National Monument; \$25,924,000 for inventory and monitoring including no less than \$4,000,000 for western monarchs and pollinators and \$1,000,000 for chronic wasting disease.

Staffing of the National Wildlife Refuge System.—Over the past 10 years, the Refuge System's full-time equivalent (FTE) staffing has decreased while the Refuge System has continued to grow. Funding increases have been provided so the Service can prioritize hiring FTEs to the maximum extent practicable, particularly to fill longstanding vacancies in the refuge system such as at the Northern Maine Wildlife Refuge Complex and Chesapeake Marshlands National Wildlife Refuge Complex.

Visitor Services.—The agreement includes \$80,859,000 which includes \$7,000,000 for the Urban Wildlife Refuge Partnership program and \$500,000 for Arctic Youth.

Refuge Management Plans.—The agreement includes \$3,684,000 for Conservation Planning and notes the increase over the fiscal year 2022 enacted level is for the Service to prioritize updating refuge management plans that predate the National Wildlife Refuge Improvement Act of 1997, to improve the management of refuges in a manner consistent with the strategic vision of the National Wildlife Refuge System.

Alaska Maritime National Wildlife Refuge.—The Service is directed to continue to follow the directive from previous fiscal years that prohibits a caribou hunt on Kagalaska Island and efforts to remove cattle on Chirikof and Wosnesenski Islands in the State of Alaska.

John H. Chafee National Wildlife Refuge.—The Committees support the salt marsh restoration work in the John H. Chafee National Wildlife Refuge to enhance salt marsh resiliency with native

plantings, tidal flushing, and other drainage work. The Service is encouraged to prioritize these ongoing efforts.

Kenai National Wildlife Refuge.—The Committees are aware the Kenai National Wildlife Refuge has identified 2,500 acres of forested habitat impacted by spruce bark beetles that is currently ready for treatment, several acres of which are adjacent to existing roads, facilities, campgrounds, trails, and other high use recreation sites. To protect the Refuge and surrounding communities, the Committees encourage the Service to treat the 2,500 high priority acres ready for treatment within the funds provided. These treatments would meet multiple objectives by removing beetle-killed trees and reducing risk to the public, employees, and infrastructure, while reducing accumulations of hazardous fuels.

Good Neighbor Agreements.—The Committees note that forest ecosystems in the National Wildlife Refuge System are susceptible to elevated wildfire risk, drought, and insect and disease infestation. The Committees recognize that the environmental stewardship of national wildlife refuges and adjacent non-Federal lands would benefit if the Service offered cross-boundary fuels reduction projects to neighboring State, local, and Tribal governments similar to those issued by other land management agencies under Good Neighbor Agreements [GNA]. Therefore, the Department of the Interior is encouraged to develop a legislative proposal that would provide GNA authority to the Service.

Refuge Maintenance.—The agreement includes \$25,850,000 for annual maintenance; \$46,579,000 for deferred maintenance; \$12,201,000 for equipment and vehicles; and \$65,581,000 for maintenance support.

Conservation and Enforcement.—The agreement provides \$175,038,000 for other conservation and enforcement programs as described below.

Migratory Bird Management.—The agreement provides \$53,860,000 which includes \$30,935,000 for Conservation and Monitoring of which \$600,000 is to manage bird-livestock conflicts, \$333,000 is for urban bird treaties, and \$800,000 is for clean energy; \$5,513,000 is for Permits; \$591,000 is for the Federal Duck Stamp program; and \$16,821,000 is for the North American Waterfowl Management Plan/Joint Ventures program.

Law Enforcement.—The agreement provides \$92,099,000 for law enforcement activities, including the requested internal transfer of \$144,000 to General Operations, and \$3,500,000 to continue the Service's work with the Indian Arts and Crafts Board to combat international trafficking of counterfeit arts and crafts and to conduct criminal investigations of alleged violations of the Indian Arts and Crafts Act (Public Law 101–644).

Within 120 days of enactment of this Act, the Committees direct the Service to develop a report outlining the challenges associated with combatting wildlife trafficking, including those challenges associated with hiring and retraining law enforcement personnel and payments made to informants to gather intelligence.

International Affairs.—The agreement provides \$29,079,000 including \$10,098,000 for International Conservation and \$18,981,000 for International Wildlife Trade. Funds requested to continue progress on the electronic permit application and proc-

essing system are provided. The Theodore Roosevelt Genius Prizes for technological innovation to help conserve and manage wildlife is maintained at the fiscal year 2022 enacted level.

The Committees are aware of proposed import revisions and direct the Service to continue to apprise the Committees of any additional actions regarding protecting lions and other iconic species that are hunted for trophies to ensure the conservation and survival of those species.

Fish and Aquatic Conservation.—The agreement provides \$241,571,000 for fish and aquatic conservation programs.

National Fish Hatchery System Operations.—The agreement provides \$76,356,000 which includes: \$3,750,000 for Klamath Basin restoration activities and directs the Service to work with the affected Tribes on fish restoration activities; \$4,700,000 for mitigation of the Pacific Salmon Treaty and directs the Service to work in cooperation with State fish and game agencies and which includes \$1,556,000 for implementation of the Yukon River Salmon Agreement and funding for anadromous salmonids. The Service is directed to continue to work in cooperation with State fish and game agencies on marking of anadromous fish and the agreement maintains funding for mass marking at the fiscal year 2022 enacted level. None of the funds provided under this subactivity may be used to terminate operations or to close any facility of the National Fish Hatchery System. None of the production programs listed in the March 2013 National Fish Hatchery System Strategic Hatchery and Workforce Planning Report may be reduced or terminated without advance, informal consultation with affected States and Tribes. The Service is encouraged to include adequate support for mitigation activities at National Fish Hatcheries in future budget submissions.

The bill provides \$8,000,000 for the Warm Springs Fish Health Center (FHC) which provides disease diagnosis, biosecurity and disease management, disease treatment and prevention, fish health inspection services for Federal, State, and Tribal hatcheries responsible for production of salmonids and warm water species for recovery, restoration, and recreational fisheries, and inspection and certificates for the National Triploid Grass Carp Protection. Additional funding is provided to develop environmental DNA tools to forecast and detect aquatic invasive species, aquatic nuisance species, aquatic pathogens, and rare species for Federal, State, and Tribal hatcheries.

Habitat Assessment and Restoration.—The agreement provides \$51,826,000, which includes \$11,500,000 to implement the Delaware River Basin Conservation Act; \$200,000 for the Truckee River Operating Agreement; \$268,000 for the Chehalis Fisheries Restoration Program; \$18,598,000 for the National Fish Passage Program which includes \$5,000,000 to implement the Fisheries Restoration and Irrigation Mitigation Act (Public Law 106–502) for fish passage devices, fish screens and other related features to mitigate the impacts on fisheries in the Pacific Ocean drainage of Oregon, Washington, Montana, Idaho, and California; and \$9,750,000 to implement Klamath Basin restoration activities.

Population Assessment and Cooperative Management.—The agreement provides \$36,932,000 which includes \$3,000,000 for

Great Lakes Fish and Wildlife Restoration Act grants; \$1,000,000 for Great Lakes Consent Decree; \$818,000 for the Lake Champlain Sea lamprey program; and \$1,000,000 in General Program Activities for snakehead eradication. The agreement also provides \$500,000 in General Program Activities for American Shad and in addition to direction in House Report 117–400, the Service is encouraged to collaborate with academic research institutions, and State, Tribal, and local governments.

Within one year of enactment of this Act, the Committees direct the Service to work with the State of Alaska to develop a joint strategy with management recommendations on subsistence hunting and fishing that will help increase food security in rural areas in the State. This joint strategy should include public input from Alaska's rural residents, document and apply local and traditional knowledge, and identify any needed regulatory flexibilities to respond to the timing and changing distributions of fish and wildlife populations.

Connecticut River Atlantic Salmon Commission.—The agreement provides \$700,000 for the Connecticut River Atlantic Salmon Compact, as authorized in Public Law 98–138, for research, monitoring, conservation, and habitat restoration work related to this high-priority watershed. The Committees direct that the Secretary undertake a special resource study of the national significance of, and the suitability and feasibility of carrying out a basin-scale, non-regulatory program of conservation, stewardship, and enhancement of habitat for fish and wildlife in the Connecticut River basin.

Aquatic Invasive Species.—The agreement includes \$50,143,000 for aquatic invasive species programs, of which \$2,749,000 is for Prevention; \$5,038,000 is to implement subsection 5(d)(2) of the Lake Tahoe Restoration Act which is supplemented by funding provided in Public Law 117–58 for fiscal year 2023; \$31,000,000 is for invasive carp as outlined in House Report 117–400 and Senate Report 116–123 including not less than \$4,000,000 for contract fishing; \$2,834,000 for NISA State Plans and \$1,566,000 for NISA implementation which help control the spread of invasive carp; \$3,500,000 is to prevent the spread of quagga and zebra mussels; \$1,500,000 is for research on hydrilla, eel, and milfoil invasive grasses; and \$1,011,000 is for Great Lakes Sea Lamprey administration costs. Direction to the Office of the Secretary contained in House Report 117–400 is maintained. The Committees urge the Secretary to provide the necessary resources for National Early Detection and Rapid Response Framework and Rapid Response Fund.

Invasive Carp.—The Committees recognize the importance of the work conducted by the Service to combat the serious threat of invasive carp and the bill provides \$27,000,000 for invasive carp activities, as directed in House Report 117–400 including the direction for contract fishing. The Service should consider the utility of creating a dedicated funding source to increase the intensity and geographic scope of efforts to prevent entry into the Great Lakes and control in areas where invasive carp are currently located. The Committees encourage the Service to work with those States with existing cooperative agreements, including nonprofits, to develop and implement innovative solutions to reduce invasive carp populations in the Ohio River basin, with emphasis on Kentucky Lake

and Lake Barkley. Additionally, while the Committees recognize the importance of studying and understanding invasive carp patterns, the Service is encouraged to take action on a strategy that increases the focus on biomass removal and restricts carp progression by coordinating with other Federal partners on constructing invasive carp barriers. The Committees direct the Service to report back within 60 days of enactment of this Act detailing how fiscal year 2021 and fiscal year 2022 funds have been expended, along with a strategy for targeting and removing increased tonnage of invasive carp in the Ohio, Tennessee, and Cumberland River basins.

European Green Crab.—Over the last three years, the population of invasive European Green Crab in the Salish Sea has grown exponentially. This invasive species is resilient to rising water temperatures caused by climate change. This crab species preys on native vegetation which is important habitat for endangered salmon and other species that are critical to uphold Tribal treaty rights, and Puget Sound recovery. The Committees are aware the Service is working with the National Oceanic and Atmospheric Administration on eradication efforts and direct the Service to report back within 90 days of enactment of this Act outlining these collaborative efforts.

The Service is expected to continue to pursue methods for invasive species control that do not result in the addition of chemical agents to the ecosystem and harmful secondary by-products such as algal blooms, as directed in House Report 117–400.

Cooperative Landscape Conservation.—The agreement maintains the merging of this activity into Science Support and creates a new subactivity Science Partnerships as outlined in House Report 117–400.

Science Support.—The agreement provides \$35,372,000 for Science Support which includes \$26,400,000 for Science Partnerships and \$8,972,000 for Service Science. The bill provides \$3,500,000 for white nose syndrome; the fiscal year 2022 enacted level for Gulf Coast ecosystem restoration; \$8,000,000 for Chesapeake WILD; and \$3,000,000 for research on western monarch butterflies and other pollinators. Best practices developed in response to white nose syndrome are directed to be applied in response to other new and emerging high-risk wildlife diseases. The Service should also continue, along with the U.S. Geological Survey, to lead and implement the North American Bat Monitoring Program in association with other Federal natural resource management agencies and offices, States, Tribes, and non-governmental partners.

General Operations.—The agreement provides \$166,250,000 for general operations which includes the internal transfer of \$144,000 from Law Enforcement.

Stewardship Priorities.—The agreement provides \$25,641,000 in congressionally directed spending for stewardship projects to further conservation goals. Further detail on these projects is provided in the table titled “Interior and Environment Incorporation of Community Project Funding Items/Congressionally Directed Spending Items” accompanying this explanatory statement.

The agreement continues support for the Everglades at not less than the fiscal year 2022 enacted level.

INDIAN AFFAIRS

BUREAU OF INDIAN AFFAIRS

OPERATION OF INDIAN PROGRAMS

(INCLUDING TRANSFERS OF FUNDS)

The bill provides \$1,906,998,000 for Operation of Indian Programs. All programs, projects, and activities are maintained at fiscal year 2022 enacted levels, except fixed costs and internal transfers as recast, or unless otherwise specified below. Additional increases are general program increases unless otherwise specified. For this and all other Bureau accounts funded in this bill, Indian Affairs is expected to comply with the instructions and requirements at the beginning of this division and in House Report 117–400, unless otherwise specified below. Language contained in the explanatory statement accompanying the Consolidated Appropriations Act, 2022 (Public Law 117–103) regarding Missing and Murdered Indigenous Women (MMIW), advanced training for public safety and justice training needs, Indian Police Academy, the Tiwahe expansion plan, pre-fire detection technology, Osage Nation records, law enforcement training needs, Alaska Native housing mortgage assistance, tribal land trash assessment, and MMIW Initiative comprehensive review is restated. Additional details, instructions, and requirements are included below and in the table at the end of this division. Indian Affairs is reminded of the impor-

tance of meeting reporting requirement deadlines so that the Committees can properly evaluate programs. Failure to do so could negatively impact future budgets.

Tiwahe.—The bill includes additional funds, as noted below, under Human Services to expand the Tiwahe Initiative to more Tribes for human services-related Tiwahe activities. As part of the expansion, the Bureau may consider including Tribal consortiums as eligible entities. Further, the Committees expect funding to existing Tiwahe pilot programs to continue in the same amounts to the same recipients, including funding to support women and children's shelters.

Tribal Government.—The agreement provides \$368,988,000 for Tribal Government programs. The Committees encourage the Bureau to provide technical assistance to the maximum extent practicable to recently federally recognized Tribes on how best to leverage funding through existing programs. Indian Affairs is directed to brief the Committees on the status of pending requests by Alaska Natives seeking organization under the Alaska amendment to the Indian Reorganization Act and how Indian Affairs plans to bring these pending cases to a resolution.

The Committees have consistently included funding and directives regarding the Small and Needy Tribes supplement and continue to be concerned about the overall administration of this important program. Within 60 days of enactment of this Act, the Committees direct the Bureau to prepare a report for the current and prior two fiscal years identifying which Tribes qualify for the small and needy supplement, explaining in detail the methodology used to calculate each Tribe's revenue to determine eligibility for the small and needy supplement (listing the programs that are counted against the cap), and provide a chart showing how those calculations were made for each eligible Tribe each year. Upon completion of the report, the Committees expect the Bureau to post this data online for at least 60 days to enable Tribes time to review it and confirm the correct data is used before funds are distributed. Further, the Committees understand the Bureau is undergoing

Tribal consultation to determine if changes should be made to the program and directs the agency to notify the Committees within 30 days before adopting or finalizing any changes to the current formula.

The agreement also includes \$39,190,000 for the Road Maintenance program, which continues funding at fiscal year 2022 levels for school bus roads and the NATIVE Act (Public Law 114–22). The Committees direct the Bureau to report back within 60 days of enactment of this Act on funds provided to implement the NATIVE Act that have not been utilized for roads along with a strategy outlining how to meet the increased demand to address tourism needs across Indian Country. The BIA Road Maintenance and Repair program faces significant backlogs with some roads in need of repair for decades, including BIA Routes 3, 7, 8, and 12, which require regraveling and improvements to address safety concerns. The Committees encourage BIA to fund these repair projects and make the necessary safety improvements to the roads, within funding limitations. Further, the Committees direct the Bureau to report on implementation of the GAO–17–423 recommendations and provide an

allocation and obligation plan for fiscal year 2023 funding within 60 days of enactment of this Act.

Human Services.—The bill provides \$166,985,000 for Human Services programs. The Committees provide \$54,934,000 for Social Services (TPA), which includes an additional \$1,000,000 to expand the Tiwahe Initiative to new sites, as noted above, and an additional \$1,000,000 to implement the Indian Child Protection and Family Violence Prevention Act (Public Law 101–630). For the Indian Child Welfare Act program, \$17,848,000 is provided, which includes an additional \$1,000,000 to expand the Tiwahe Initiative to new sites, as noted above, and an additional \$500,000 is included to implement section 202 of the Indian Child Welfare Act (25 U.S.C. § 1932). The agreement includes \$12,219,000 for the Housing Improvement Act. The Bureau is further directed to provide to the Committees within 120 days of enactment of this Act an analysis of Alaska Natives' eligibility for both Housing Improvement Program mortgage assistance grants and mortgages, as well as any barriers to affording new, energy-efficient homes in western Alaskan villages off-road system.

Trust—Natural Resources Management.—The bill provides \$333,119,000 for Natural Resources Management programs, which continues funding at the fiscal year 2022 enacted level for the Everglades. For Natural Resources (TPA), the agreement provides \$16,903,000, which includes an additional \$1,000,000 for the Indian Youth Service Corps and maintains funding for land acquisitions for newly recognized or landless Tribes at the authorized level. The Bureau is encouraged to work with the committees of jurisdiction to evaluate whether a change in authorization for land acquisition is warranted. The agreement includes an additional \$1,000,000 to replace the National Indian Irrigation Management System in Irrigation Operations and Maintenance programs for a total funding level of \$15,269,000. The agreement provides \$49,200,000 for Rights Protection Implementation (RPI), which maintains funding for law enforcement needs, operations and maintenance needs, and includes \$1,300,000 for construction, all as required to implement the Columbia River In-Lieu and Treaty Fishing Access Sites Improvement Act (Public Law 116–99). Within the general program increase for RPI, the Committees expect funding to be distributed to all those who receive distributions, including funding for tribes who must implement terms of the Pacific Salmon Treaty.

The bill provides \$18,544,000 for Tribal Management/Development programs (TMDP), which includes a general program increase of \$3,000,000 to be distributed to all the lines within the funding allocation table and an additional \$1,000,000 to implement Public Law 116–260 with respect to the return of the National Bison Range to the Confederated Salish and Kootenai Tribe as outlined in the budget request. The Committees are aware the Bureau entered into cooperative agreements with Ahtna Inter-Tribal Resource Commission and the Kuskokwim River Inter-Tribal Fisheries Commission and has initiated similar agreements with other organizations. Therefore, the Committees expect these pilot projects and programs to continue, and the Bureau is expected to report to the Committees within 60 days of enactment of this Act on a distribution plan for these funds. An additional \$1,000,000 is

included for Endangered Species programs for uses as proposed in the request for a total of \$6,243,000.

For Tribal Climate Resilience, the agreement provides \$34,991,000, which includes an additional \$750,000 for Tribal climate adaptation grants to be used by the Bureau to report to the Committees within one year of enactment of this Act information on the estimated unmet need of coastal Tribes in the lower 48 states that are facing relocation due to climate impacts. An additional \$1,500,000 is provided for Tribal relocation grants, for which all Tribes shall be eligible, and \$750,000 is to implement the Pathways Internship Program. The Committees remind the Bureau that the Denali Commission was designated as the lead coordinating agency for Alaska Native village relocation in 2015, and the Commission has been leading the efforts since then. The Committees recommend the Bureau work closely with the Commission to avoid duplication of work and to take advantage of the Commission's expertise in the area when considering relocation grants.

The bill provides \$39,438,000 for Agriculture and Range programs, which includes an additional \$500,000 for the invasive species program. For Forestry Programs, the agreement provides \$66,017,000, which provides a \$2,500,000 general program increase for Forestry Program (TPA) and an additional \$1,000,000 in Forestry Projects for uses as requested.

For Water Resources programs, the agreement provides \$18,426,000, which includes \$500,000 to install water filtration systems, an additional \$1,500,000 general program increase for Water Resources (TPA), and an additional \$500,000 for the Water Resources Technician training program in Water Management, Planning and Pre-development. For Fish, Wildlife and Parks programs, the agreement provides \$23,699,000, which includes a \$2,000,000 general program increase for Wildlife and Parks (TPA) and an additional \$1,000,000 in Fish, Wildlife, and Parks Projects for operation of fish hatcheries. As requested, the Committees rename the Mineral and Mining program to Energy and Minerals to encompass the full array of existing activities and provide an additional \$1,000,000 for uses as outlined in the budget request.

The Committees understand the investigation in the Chaco Canyon region of the Southwest is complete. Funding provided in previous years for this purpose are repurposed as a general program increase in Resource Management Program Oversight.

Trust—Real Estate Services.—The bill provides \$159,003,000 for Trust—Real Estate Services, of which \$500,000 within Trust Services (TPA) is to implement the Gila River Indian Community Federal Rights-of-Way, Easements and Boundary Clarification Act (Public Law 115–350), an additional \$2,000,000 is to continue remediating open dumps and prepare for other environmental quality challenges, and an additional \$1,000,000 is to complete demolition and abatement of the vacant BIA buildings at Shiprock as detailed in the budget request, both within Environmental Quality Projects. Funding is continued at fiscal year 2022 enacted levels with fixed costs for the Alaska Native Claims Settlement Act historical places. An additional \$1,374,000 is included for additional realty staff as requested in Trust—Real Estate Services Oversight.

Public Safety and Justice.—The bill provides \$579,725,000 for Public Safety and Justice programs. For Criminal Investigations and Police Services, the agreement includes \$7,000,000 for Tribes not receiving law enforcement services or funding, as detailed below. The agreement maintains \$62,000,000 to implement public safety changes resulting from the *McGirt v. Oklahoma* Supreme Court decision, however funding is redistributed based on a reprogramming request by the Bureau after consultation with impacted Tribes. As a result, the amount for Criminal Investigations and Police Services reflects a \$15,546,000 transfer to Detentions/Corrections, and a \$23,341,000 transfer to Tribal Courts (TPA). Further, funds provided in fiscal year 2022 for bodyworn cameras is repurposed as a general program increase, as requested. Funding for MMIW cold cases, background checks to hire more law enforcement officers, and law enforcement to implement the Native American Graves Protection and Repatriation Act (NAGPRA) is continued at fiscal year 2022 enacted levels. The Committees remain concerned about theft, looting, and trafficking of sacred objects and items of cultural patrimony, and note the importance of enforcing NAGPRA and related laws. The bill continues funding for opioids grants and maintains flexibility for use of the funds against other illicit drugs.

The Committees understand there are over 30 Tribes, including some in Oregon, Wisconsin, and elsewhere, for which BIA is responsible for providing law enforcement services, but which are not receiving either direct services or funding from BIA to provide the services on their own. The agreement includes \$7,000,000 for law enforcement services for these Tribes. Within 30 days of enactment of this Act, the Committees direct the Bureau to provide a report of all Tribes that meet this requirement and the amount of additional funding required to provide them parity in funding with other Tribes. In addition, the Committees expect the Bureau to consult with the Tribes regarding the allocation of funds and to submit a subsequent reprogramming request to allocate portions of the funding to other public safety and justice functions as necessary.

Within 90 days of enactment of this Act, the Bureau shall brief the Committees on the status of law enforcement vacancies in each Bureau region, as well as the number of law enforcement background checks pending as of the date of enactment.

The agreement includes \$136,324,000 for Detention/Corrections, which maintains previously provided increases for Indian Country detention facilities and background checks, and includes the previously mentioned transfer because of the *McGirt* reprogramming. Due to reports of high numbers of deaths in BIA-funded detention facilities, the Committees direct the Office of the Inspector General (OIG) to follow-up on closed OIG recommendations to determine whether changes made by BIA in response to prior recommendations are being implemented correctly. As part of the review, the Committees expect the OIG to examine appropriations provided for Detention/Corrections in prior years to determine how the funds were spent and whether they were spent correctly. This review should begin no later than 60 days after enactment of this Act.

The agreement includes \$25,094,000 for Law Enforcement Special Initiatives, which continues funding at enacted levels for the MMIW Tribal Public Safety initiative, Tiwahe recidivism initiative, equipment to collect and preserve evidence at crime scenes, and victim witness specialists.

For Tribal Justice Support, \$34,836,000 is provided, which maintains \$3,000,000 to implement and ensure compliance with the Violence Against Women Act and provides an additional \$2,000,000 to address the needs of Tribes affected by Public Law 93–280 as outlined in the Senate Report 116–123. Landfill Emissions Research.—The Committees encourage the Agency to prioritize efforts to refine greenhouse gas and air pollutant measurement. In particular, municipal solid waste landfills continue to be a significant source of greenhouse gas and hazardous air pollutant emissions. The Committees direct that at least \$2,000,000 be used by the Office of Research and Development to support research to quantify emissions of methane and hazardous air pollutants from landfills using the most effective technologies, including near-infrared imaging from satellites as appropriate, and, during the times the emissions are measured, measurement of any quantity of methane captured by the landfill gas collection system.

ENVIRONMENTAL PROGRAMS AND MANAGEMENT

For Environmental Programs and Management, the bill provides \$3,286,330,000. The agreement provides the following specific funding levels and direction:

Clean Air.—The Committees recognize the value of and continue to support the EnergySTAR program and other programs where EPA works collaboratively with non-governmental entities to identify beneficial methods to reduce emissions, reduce pollution, or increase efficiency.

The agreement provides up to \$3,000,000 for the Agency to study and prototype capabilities for a greenhouse gas monitoring and information system that will integrate data from a variety of sources. The goal of such a system should be to make data more accessible and usable to Federal, State, Tribal, and local governments, researchers, the public, and other users. The Committees encourage the Agency to work with current and new partners to utilize commercial assets to monitor emissions.

The Committees commend the Agency for its efforts through the AirNow Fire and Smoke Map to better forecast and communicate the impact of wildfire smoke on communities. The Committees are concerned that air quality monitors are not currently distributed equitably across impacted communities. The Committees encourage the Agency to expand its support for wildfire smoke monitoring, including improving instrumentation, technical assistance, and outreach, using the resources provided in this bill with a focus on traditionally underserved or under-monitored communities. The bill includes an increase of \$3,000,000 in accordance with the request for wildfire smoke-related activities.

The agreement provides a \$1,000,000 increase to the fiscal year enacted level for the Agency's wood stove certification and testing standards work. The Agency is directed to use the additional \$1,000,000 to increase its staffing and other required efforts to support the wood stove certification and testing program. The Agency is also directed to provide \$3,450,000 for grants to qualified not-for-profit organizations for technical assist-

ance for individual private well owners, with priority given to organizations that currently provide technical and educational assistance to individual private well owners. The Agency is directed to provide on a national and multi-State regional basis, \$1,250,000 for grants to qualified organizations for the sole purpose of providing on-site training and technical assistance for wastewater systems. The Agency shall require each grantee to provide a minimum 10 percent match, including in-kind contributions. The Agency is directed to allocate funds to grantees within 180 days of enactment of this Act.

Geographic Programs.—The agreement provides \$681,726,000 as described in the table at the end of this division, and includes the following direction:

Gulf of Mexico.—The Committees note that hypoxia continues to be a growing cause for concern. The Committees direct the Agency to coordinate with the Department of Agriculture, the Gulf States, and other State, local, and private partners to leverage greater resources toward conservation projects on working-lands within the Gulf Region and Mississippi River Basin. The Agency is directed to distribute funds in the same manner as fiscal year 2022.

Lake Champlain.—These funds shall be allocated through the Lake Champlain Basin Program, other than \$8,000,000 which shall be directed to support significant, impactful projects identified in

the State implementation plan that will make measurable progress towards meeting the phosphorus reduction targets of the EPA's 2016 Phosphorus Total Maximum Daily Load Plan for Lake Champlain.

Southern New England Estuaries.—The Agency is directed to follow the guidance in House Report 117–83.

Lake Pontchartrain.—The Lake Pontchartrain Restoration Program has been administered through the active participation of stakeholders within the sixteen-parish basin since the program's inception and the Committees expects local stakeholder consensus to continue to play an integral role in the approval of recommended projects. The Committees are concerned regarding changes the Agency is proposing to the program in light of Public Law 117–58. The Agency is directed to brief the Committees within 60 days of enactment of this Act on these potential changes.

Great Lakes and Lake Champlain Invasive Species Program.—The Committees appreciate the ongoing research to combat aquatic nuisance species transported by commercial shipping and ballast water operations in order to implement the Great Lakes and Lake Champlain Invasive Species Program as authorized by the Vessel Incident Discharge Act (Public Law 115–282). The Committees direct the Agency to use funds from the appropriate Geographic Program to build on these implementation efforts to reduce the risk of introduction of invasive species into the Great Lakes and Lake Champlain. The Agency is directed to include details of these amounts as part of the Agency's operating plan.

Indoor Air and Radiation.—The Agency is directed to continue to operate the Radon program as in fiscal year 2022. Additionally, the Committees note the need to ensure access to the U.S. primary radon reference and calibration program by states and industry as the national benchmark for radon measurement devices and encourages the Agency to support efforts by states and the Centers for Disease Control to collect and disseminate available radon test data.

Information Exchange/Outreach.—Environmental Education is funded at not less than \$9,500,000. The Committees are concerned that the smart skin cancer education program has recently received insufficient attention from the Agency; therefore, the Agency is directed to use Environmental Education funds for the smart skin cancer education program, similar to prior years.

Resource Conservation and Recovery Act (RCRA).—Of the funds provided under this program area, \$9,000,000 is for implementation of a Federal permit program for coal combustion residuals in non-participating states, as authorized under section 4005(d)(2)(B) of the Solid Waste Disposal Act (42 U.S.C. 6945(d)(2)(B)), or to provide technical assistance to states establishing their own permitting program under section 4005(d) of the Solid Waste Disposal Act (42 U.S.C. 6945(d)).

(including recycling fees paid directly by residents) and related policy recommendations. The Agency is directed to follow the guidance regarding improving markets for recycled materials included in the joint explanatory statement accompanying Public Law 117–103.

Alaska Contaminated Sites.—The Committees recognize the injustice done to Alaska Natives when in return for settling their aboriginal rights to land under the Alaska Native Claims Settlement Act, the Federal Government conveyed to them thousands of contaminated sites which to-date largely remain contaminated because of Federal inaction. This enduring environmental injustice poses a significant threat to human health and the environment, including to drinking water sources, homes, schools, and more. The agreement provides \$20,000,000 for the inventory, verification, assessment, and remediation of these contaminated sites, as well as related community outreach and involvement. The Committees recognize that neither the State of Alaska nor the Agency are responsible for the contamination. The Committees thank Agency leadership for its recent attention and work on this issue and look forward to continuing their close working relationship with the Agency in finding solutions to this longstanding environmental injustice.

Toxics Risk Review and Prevention.—The Agency is directed to follow the guidance regarding the Service Fees Rule included in the joint explanatory statement accompanying Public Law 117–103.

The Committees support the Safer Choice program and direct that the program be funded at no lower than the enacted level and operated consistent with prior years.

Ensure Clean Water: National Estuary Program/Coastal Waterways.—The agreement provides \$40,000,000 for National Estuary Program (NEP) grants as authorized by section 320 of the Clean Water Act, and other activities. This amount is sufficient to provide each of the 28 national estuaries in the program with a grant of at least \$850,000. Further, in the Administrative Provisions section, the bill directs that \$2,500,000 in competitive grants be made available for additional projects.

The Committees encourage the swift completion of the 2022 Drinking Water Infrastructure Needs Survey Assessment, in particular the assessment of the costs of replacing all lead service lines.

The agreement provides an additional \$3,000,000 for the Agency to implement the needs assessment for nationwide rural and urban low-income community water assistance authorized in section 50108 of the Infrastructure Investment and Jobs Act (Public Law 117–58).

To the extent there are eligible permit and primacy applications for review, the agreement provides \$5,000,000 for the Agency's continued work within the Underground Injection Control program related to Class VI wells for geologic sequestration to help develop expertise and capacity at the Agency. In addition, the agreement provides \$1,200,000 to support Class VI regulator education and

training programs in conjunction with States, or other eligible entities such as an association of States. The Committees direct the Agency to brief the Committees within 120 days of enactment of this Act on efforts to enhance permitting tools, public engagement, and outreach and on current and anticipated Full-Time Employee levels within the UIC program working on Class VI permitting.

The agreement provides an increase of \$5,300,000 to support administration, management, and oversight of water infrastructure grants.

Ensure Clean Water.—The Agency is directed to follow the guidance regarding infrastructure solutions in the joint explanatory statement accompanying Public Law 117–103.

The agreement provides up to \$2,000,000 for integrated planning activities consistent with Section 402(s) of the Federal Water Pollution Control Act (33 U.S.C. 1342(s)).

The Committees support the WaterSense program and appreciate the Agency's work to advance water recycling through the National Water Reuse Action Plan (WRAP). The Committees note the establishment of the Water Reuse Interagency Working Group in May of this year and encourage the working group to analyze the public benefit of a Federal investment tax incentive that will encourage and leverage private investment in water reuse and recycling infrastructure.

The agreement provides an increase of \$8,000,000 to support administration, management, and oversight of water infrastructure grants.

Additional Guidance.—The following additional guidance is included:

Administrator Priorities.—The Agency is directed to submit a report within 90 days of enactment of this Act that identifies how any fiscal year 2020, 2021, and 2022 funding was used, by account, program area, and program project. Each activity funded should include a justification for the effort and any anticipated results.

Biointermediates.—The Committees appreciate the work of the Agency to finalize the rule permitting the production, transfer, and use of biointermediates. The Agency is directed to brief the Committees within 90 days of enactment of this Act on its implementation efforts.

Chemical Reviews.—To help ensure that unreasonable risks from chemicals are addressed in a timely manner, the Committees encourage the Office of Chemical Safety and Pollution Prevention to develop improved outreach and guidance so that submitters understand information needs, processes, and requirements prior to and during submission of pre-manufacturing notices. In addition, the Committees urge the Agency, as resources allow, to enhance existing submitter engagement procedures to facilitate timely communication and resolution of any issues that may arise during the review period while continuing to protect public health.

The Committees recommend that as the Agency continues to expand the Recommendations of Specifications, Standards and Ecolabels for Federal Purchasing, the Agency should examine ways to reduce plastic and other waste.

Output-Based Regulations.—The Agency is directed to follow the guidance included in the joint explanatory statement accompanying Public Law 117–103.

Outreach to Farm Workers.—The Committees direct the Agency to extend its Spanish-language outreach program educating farm-workers and pesticide handlers about improving workers safety when applying pesticides in agriculture operations through radio and other media. The Committees note support from outside parties of the radio outreach effort as having materially improved farm workers' knowledge and ability to reduce exposure risks for themselves and their families, and that research indicates the importance of message repetition over an extended period. The Committees encourage the Agency to continue its Spanish-language outreach program educating farm workers and pesticide handlers about improving workers safety when applying pesticides in agriculture operations through media such as radio.

Pre-Commercial Thinning.—The Agency is directed to follow the guidance included in the joint explanatory statement accompanying Public Law 117–103.

Categorical Grant: Tribal General Assistance Program.—For fiscal year 2023, the Agency is directed to allocate funds for this program using the same formula as fiscal year 2022.

Additional Guidance.—The following additional guidance is included:

Innovative Technologies for Water Infrastructure.—The Committees are aware that capital investment in innovative technologies, including but not limited to, distribution network leak detection, pressure monitoring, water chemistry, sanitary and combined sewer monitoring, enhanced nutrient removal, and membrane treatment during upgrades to water and wastewater systems, is essential to optimize water delivery performance, reduce energy usage, limit water waste in distribution systems, protect public health, and enhance the modeling and operation of sewer collection networks and wastewater treatment facilities. Such technologies will help to improve operations, maintenance, and capital expenditures in planning and budgeting and increase spatial and temporal monitoring data available on U.S. water quality and quantity. The Committees also are aware that these technologies may be funded by both the Drinking Water and Clean Water State Revolving Funds, as well as various other water infrastructure grant programs, and may be funded separately or as part of an overall project to upgrade water infrastructure. As such, the Committees direct the Agency to make it clear through guidance or other means that, where eligible, funding may be used for such innovative technologies and that the Agency encourages applicants to State Revolving Fund programs to utilize technology to optimize water delivery performance, reduce energy consumption, and limit water waste in distribution systems.

Use of Iron and Steel.—The bill includes language in title IV general provisions that stipulates requirements for the use of iron and steel in State Revolving Fund projects, and the agreement includes only the following guidance: the Committees acknowledge that the Agency may issue a waiver of said requirements for de minimis amounts of iron and steel building materials. The Committees emphasize that any coating processes that are applied to the external surface of iron and steel components that otherwise qualify under the procurement preference shall not render such products ineligible for the procurement preference regardless of where the coating processes occur, provided that final assembly of the products occurs in the United States.

FOREST SERVICE OPERATIONS

(INCLUDING TRANSFERS OF FUNDS)

The bill provides \$1,152,744,000 for Forest Service Operations. The detailed allocation of funding by activity is included in the table accompanying this explanatory statement.

FOREST AND RANGELAND RESEARCH

The bill provides \$307,273,000 for Forest and Rangeland Research. The detailed allocation of funding by activity is included in the table accompanying this explanatory statement.

Funding Directives.—The agreement provides for the following research priorities, for which funding of geographically-based items is in addition to funds otherwise provided to individual research units and therefore is not to be factored into base allocations:

—\$4,500,000 to the Joint Fire Science program, which combined with funding in the Department of Interior provides \$9,000,000 in total.

—\$2,000,000 for collaborative research to determine the quantity and spatial distribution of forest biomass and carbon at multiple spatial scales and analyze the financial impact of this determination to provide forest carbon program participants with greater opportunities for income generation.

—\$3,000,000 to conduct collaborative research to determine the distribution and movement of needle pathogens, understand the disease cycle and the environmental factors that drive the emergence and distribution of the needle pathogens, and determine if the appearance is due to more aggressive strains of the pathogens and the origins of the pathogens.

The bill provides \$337,758,000 for State and Private Forestry. The detailed allocation of funding by activity is included in the table accompanying this explanatory statement. All funding for specific programs, directives, or congressionally directed spending identified herein is in addition to funds otherwise provided to States and regions through the formula and competitive grant process and therefore is not to be factored into those allocations.

Cooperative Forestry.—The Committees remain concerned about the high rate of tree mortality on National Forests due to bark beetle infestations, which can increase the risk and severity of wildfires for communities and adjacent lands. The Service is directed to work with States and Tribes to prioritize insect prevention, suppression, and mitigation projects on non-Federal land that support community wildfire protection and State forest action plans.

Forest Ecosystem Monitoring Cooperative.—Within the funds provided, \$1,000,000 is for the Forest Ecosystem Monitoring Cooperative to support existing academic partnerships in the Northern Forest Region. A reduced non-Federal cost share shall be negotiated with the host agencies to enable full implementation of the program. The Committees direct the Service to continue to utilize existing partnerships with research institutions and States to fund research to establish methods, tools, and standard protocols that help quantify forest ecosystem services, particularly carbon, in natural forested regions as a resource that can be managed by forest landowners for ecological and economic benefit.

Forest Resource Information and Analysis.—The bill provides \$30,167,000 for congressionally directed spending in this program. A detailed list of projects is included in the “Interior and Environment Incorporation of Community Project Funding Items/Congressionally Directed Spending Items” table accompanying this statement. In order to align with new guidance related to matching re-

quirements announced by the Service on July 22, 2022, the Committees direct that no match shall be required for these projects. The Committees intend that this clarification, in addition to the projects' funding coming from a separate line within State and Private Forestry, should simplify the process for recipients and the Service.

NATIONAL FOREST SYSTEM

The bill provides \$1,974,388,000 for the National Forest System. The detailed allocation of funding by activity is included in the table accompanying this explanatory statement.

The Service will continue to follow the directive on Tariffs on Timber Exports contained in Senate Report 116–123.

The Service is encouraged to prioritize management of active allotments that are not meeting or are inconsistent with current forest plan standards or do not have current assessments, and reducing the backlog of active allotments requiring analysis and new management decisions under the National Environmental Policy Act, according to the priorities established in the Forest Service Handbook. The Service is directed to brief the Committees within 90 days of enactment of this Act on its progress to relieve the backlog of fully processed permits. Further, the Service shall evaluate the condition of permitted lands with Greater sage-grouse habitat and is expected to consider modifying usage to assure achievement of sage-grouse habitat requirements, taking into account drought, climate change, and its multiple use mandate.

Fuels Management.—The bill provides \$207,000,000 for fuels management activities and does not transfer the program to Wildland Fire Management, as proposed in the budget. This program was transferred to National Forest System in fiscal year 2018 to align hazardous fuels work with other forest management activities. The Committees will consider moving this budget line item once the Service has provided an analysis of how relocation of the program aligns with the long-term workforce planning effort currently underway. Of the funds made available for fuels management, \$15,000,000 is for the Community Wood Energy Program; \$30,000,000 is for Wood Innovation Grants; \$6,600,000 is provided for the Southwest Ecological Restoration Institutes; and no less than the enacted level is to implement section 5 of the Lake Tahoe Restoration Act (Public Law 106–506).

Wildlife and Fish Habitat Management.—The bill provides \$24,000,000 for Wildlife and Fish Habitat Management. The Service should create a system for integrating both comprehensive and discrete projects to meet fish and wildlife habitat conservation goals into its spending plans. Consequently, the bill provides no

less than an increase of \$2,000,000 above the enacted level of funding for threatened and endangered species activities to contribute to significant recovery actions. The agreement directs NIA, working with NINDS, to enter into an agreement with NASEM within 60 days of enactment of this Act to identify research priorities for preventing and treating AD/ADRД. An ad hoc committee of NASEM will conduct a study and recommend research priorities to advance the prevention and treatment of AD/ADRД. In conducting its study, the committee will: (1) examine and assess the current state of biomedical research aimed at preventing and effectively treating AD/ADRД, along the R&D pipeline from basic to translational to clinical research; (2) assess the evidence on nonpharmacological interventions aimed at preventing and treating AD/ADRД; (3) identify key barriers to advancing AD/ADRД prevention and treatment (e.g., infrastructure challenges that impede large scale precision medicine approaches, inadequate biomarkers for assessing response to treatment, lack of diversity in biobanks and clinical trials), and opportunities to address these key barriers and catalyze advances across the field; and (4) explore the most promising areas of research into preventing and treating AD/ADRД. The committee's study will include dementia caused by Alzheimer's disease as well as related conditions such as frontotemporal disorders, Lewy body dementia, vascular dementias, and multiple etiology dementias. Dementias with a clear etiology (e.g., incident stroke, AIDS, traumatic brain injury) will be excluded from the analysis. Based on its review of the literature, consultations, and other expert input, the committee will develop a report with its findings, conclusions, and specific recommendations on research priorities for preventing and treating

AD/ADRD, including identifying specific near and medium-term scientific questions (i.e., in . . . o 10 year period) that may be addressed through NIH funding. The report will also include strategies for addressing major barriers to progress on these scientific questions. The agreement includes \$1,500,000 within the total funding for NIA for AD/ADRD research to cover the costs of this study.

Brain Health and Exposome Studies.—The agreement encourages NIA to address the research gaps and opportunities identified in the 2021 Alzheimer's Disease Research Summit as NIA works to establish Centers on Exposome Studies in ADRD as directed in the Consolidated Appropriations Act, 2022 (P.L. 117–103), especially those gaps and opportunities focused on understanding healthy brain aging and applying this understanding to disease prevention.

Clinical Trials.—Although Alzheimer's disease and other dementias disproportionately affect Black Americans, Hispanic Americans, Asian American and Pacific Islanders, and Native Americans, they continue to be underrepresented in AD/ADRD clinical trials. The agreement directs NIA to work with ADRCs and other organizations to promote participation in clinical trials within underrepresented populations and, to the maximum scientifically-feasible extent, reduce the burden of participating. These efforts should include expanding community engagement and outreach to these populations, incentivizing trial locations in areas of unmet need, encouraging the diversity of clinical trial staff, allowing appropriate flexibility in trial design and inclusion and exclusion criteria, and utilizing technology like remote patient monitoring, where appropriate, to facilitate clinical trial participation and retention. Further, the agreement urges NIA to provide an assessment of the data and metrics it collects related to the planning, recruitment, and retention of clinical trial participants from underrepresented communities and, when possible, how those data have been or plan to be used in grant-making decisions. The assessment should also address how NIA plans to provide more timely data to the Committees and greater transparency to the public about the planning, engagement, and recruitment efforts of its extramural grantees, including a focus on addressing barriers to inclusive and representative enrollment such as eligibility criteria, language accessibility, and adequate planning for diverse enrollment among grantees. The agreement requests that NIA provide this assessment within 180 days of enactment of this Act. In addition, with various treatments for Alzheimer's disease in the pipeline, the agreement encourages NIA to support a wide range of trials, including those with a patient-based national registry of regulatory grade, longitudinal evidence for patients receiving any FDA-approved disease modifying therapies for Alzheimer's disease in real-world clinical practice.

Health Disparities in Aging.—The agreement encourages NIH to support and develop long-term studies of healthy individuals that seek to identify structural drivers of health inequities. These may complement ongoing longitudinal studies of aging—such as the Health and Retirement Study, the National Health and Aging Trends Study, and others—to guide efforts to maximize health and enhance quality of life at older ages. These studies should integrate biological, behavioral, sociocultural, and environmental perspectives as outlined in the NIA Health Disparities Framework.

NATIONAL INSTITUTE OF ARTHRITIS AND MUSCULOSKELETAL AND SKIN DISEASES (NIAMS)

Opioids and Pain Management Research.—The agreement includes an increase of \$5,000,000 for NIAMS to support additional research in this area as described in the fiscal year 2023 budget request.

NATIONAL INSTITUTE OF NURSING RESEARCH (NINR)

Health Disparities Research.—The agreement includes an increase of \$10,000,000 for NINR to support research related to identifying and reducing health disparities.

NATIONAL INSTITUTE ON DRUG ABUSE (NIDA)

Opioids, Stimulants, and Pain Management.—The agreement includes no less than \$355,295,000 in NIDA for the HEAL Initiative. The agreement encourages NIDA to continue its efforts through the HEAL initiative in fiscal year 2023, with a focus on grant opportunities to support research and education to improve outcomes for people with both chronic pain and addiction in diverse settings across the United States, particularly those located in areas with high incidence of people living with chronic pain. The agreement also includes an additional \$10,000,000 to support related research on pain and pain management, as described in the fiscal year 2023 budget request.

Reducing Opioid Disparities.—The agreement supports efforts to address the disproportionate effects of the opioid overdose epidemic on Black/African Americans. NIDA, in coordination with NIMHD, is encouraged to support collaborations between qualified educational institutions and treatment partners with demonstrated excellence in addiction science and community-based research to lead several large multi-year research efforts. Funding calls should highlight the need for research to reduce barriers to care at the levels of State funding bodies, treatment agencies, individual clinicians, and among patients and community members. Specific areas of focus may include research that examines and mitigates stigma toward medications for opioid use disorder, evaluates reimbursement structures to incentivize improved patient outcomes, implements and evaluates effective environmental supports like crisis and respite housing and transportation assistance, and integrates treatment and recovery support services into non-medical, community-based settings (e.g., interventions delivered by peer and community health workers).

NATIONAL INSTITUTE OF MENTAL HEALTH (NIMH)

Cost of Serious Mental Illness (SMI).—Despite increased spending on mental health services, the prevalence of SMI has grown by more than fifty percent since 2008, from 3.7 percent to 5.6 percent of Americans in 2020. While some progress has been made at identifying effective treatments for early SMI, many patients and families struggle to access appropriate services. To better understand what is needed to advance more effective, accessible treatments, the agreement directs NIMH to deliver with the fiscal year 2024 Congressional Justification a “professional judgment” budget. This budget should estimate the additional funding needed to support opportunities to accelerate SMI research during fiscal year 2024, including efforts to expand existing scientific programs focused on improving early identification, accurate diagnosis, biomarker assessment, intervention development, and implementation of effective services, among individuals in the early stages of SMI. In this document, NIMH will include specific scientific questions and areas it would use the funding identified in the professional judgement budget to address. These should be time-limited, goal-driven investments that accelerate emerging science and support high-risk/high-reward research.

Impact of COVID–19 on Mental Health.—The agreement includes an increase of \$5,000,000 for NIMH to expand research on the impact of the COVID–19 pandemic on mental health.

Mental Health Treatment Research.—The agreement provides an increase of \$5,000,000 to support research to inform mental health treatment approaches, service delivery, and system transformation, consistent with the fiscal year 2023 budget request.

NATIONAL HUMAN GENOME RESEARCH INSTITUTE (NHGRI)

Community Engagement.—The agreement recognizes the critical role that community engagement plays in enabling researchers to build authentic partnerships that enhance diversity and inclusion in research cohorts. The CEAL program, created to help address the disparate impacts of the COVID–19 pandemic on communities historically underrepresented in biomedical research, has been successful in building such partnerships. Community engagement is also key when there is public hesitancy to participate in research, such as with human genetics and genomics research. The agreement is encouraged by the success of the CEAL program and urges NHGRI, in consultation with NHLBI and NIMHD, to establish and coordinate a community engagement program modeled after CEAL that will support efforts to increase the participation of individuals historically underrepresented and hesitant to participate in human genetics and genomics research.

Data Sharing.—The agreement urges NIH to convene a working group to develop and disseminate best practices on genomic data sharing for use by entities engaged in biomedical research and international collaboration. That working group should review potential risks involved in sharing genomic data between NIH-supported research studies with private, public, and academic institutions that partake in science and technology research and their research partners, with a focus on international partners. The review

should also include recommendations regarding areas where Federal agencies can strengthen coordination to increase education to such private and academic research institutions to ensure the institutions can better protect themselves from national security threats with a strengthened understanding of intellectual property rights, research ethics, data misuse, as well as education on how to recognize and report such threats.

NATIONAL CENTER FOR COMPLEMENTARY AND INTEGRATIVE HEALTH
(NCCIH)

Pain Management.—The agreement includes an additional \$5,000,000 to support research into non-pharmacological treatments for pain management and urges NCCIH, along with DOD and VA, to continue to support research, including comorbidities such as opioid misuse, abuse, and disorder among military personnel, veterans, and their families. The agreement urges NIH, VA, and DOD to expand research on non-pharmacological treatments for veterans and service members.

NATIONAL INSTITUTE ON MINORITY HEALTH AND HEALTH DISPARITIES
(NIMHD)

Chronic Disease Centers.—In fiscal year 2021, NIMHD undertook an initiative to support regional comprehensive research and co-ordinating centers on the prevention, treatment, and management of multiple chronic diseases associated with health disparities. The agreement includes an additional \$11,000,000 for NIMHD to provide supplemental grants to the 11 Centers, with a focus on developing and delivering emerging therapeutic interventions addressing the disproportionate burden of disease.

Health Disparities Research.—The agreement includes an increase of \$25,000,000 for NIMHD to support research related to identifying and reducing health disparities.

Research Centers in Minority Institutions.—The agreement provides \$88,765,000 for this activity.

Research Endowment Program.—The agreement notes the recent passage of the John Lewis NIMHD Research Endowment Revitalization Act to reinvigorate the Research Endowment Program. The agreement has provided \$12,000,000 to implement the revitalized program and urges NIMHD to work swiftly on its implementation. The agreement further notes that the statutory goal of the program is to assist eligible institutions in achieving a research endowment that is comparable to the mean endowment of health professions schools in their health professions discipline. The agreement requests a report no later than 60 days after enactment of this Act on implementation plans and engagement with key stakeholders.

FOGARTY INTERNATIONAL CENTER (FIC)

Health Disparities Research.—The agreement includes an increase of \$5,000,000 for FIC to support research related to identifying and reducing health disparities.

NATIONAL CENTER FOR ADVANCING TRANSLATIONAL SCIENCES (NCATS)

Clinical and Translational Science Awards (CTSAs).—The agreement provides \$629,560,000, an increase of \$22,914,000 above the fiscal year 2022 enacted level. The agreement maintains its strong support for the CTSA program and reaffirms previous language preserving the size, scope, and historic mission of the CTSA program, including the direction that no hub shall receive less than 95 percent of the resources that were provided prior to fiscal year 2022. Last year, the agreement expressed concerns with a new Funding Opportunity Announcement and its potential to divert appropriated resources away from CTSA hubs. The agreement is concerned that NCATS continues to push to disaggregate CTSA activities, which makes the application process burdensome on investigators and resulted in nearly all institutions submitting partial applications. No later than 30 days after enactment of this Act, NCATS is directed to brief the Committees on options to reverse disaggregation, preserve historic CTSA activities and institutional support, including training as many young investigators as possible, and ensure that any hub funded receive not less than 95 percent of the resources that were previously provided. Finally, the agreement reiterates previous direction that NCATS inform the Committees prior to any planned changes to the size of hub awards, scope of the program, or strategic changes to the program, specifically noting that the Committees shall be consulted prior to any new CTSA initiatives being implemented.

Collaboration with Business Incubators.—The agreement urges NCATS to redouble its efforts to leverage its mission by exploring opportunities or potential collaborations with business incubators that host small to midsize science, research and pharmaceutical companies that use service-based approaches to nurture and guide their member companies to success.

Cures Acceleration Network (CAN).—The agreement includes up to \$70,000,000 for the CAN to reduce barriers between research discovery and clinical trials. This increase will allow NCATS to address or expand existing CAN cure concepts focused on diagnostic technologies, gene therapy vectors, artificial intelligence/machine learning (AI/ML)-enabled chemistry for drug development, and the next phase of dissemination of tissue chip technology. Further, the agreement urges NCATS to consider supporting activities within CAN and other NCATS' offices or divisions that focus on precision medicine—from precision prevention, to precision diagnosis, to precision therapeutics. Activities should also include the ability to generate the data to demonstrate the efficacy and cost effectiveness of precision medicine.

Full Spectrum of Medical Research.—The agreement applauds NIH efforts to support and advance the full spectrum of medical research, which ensures breakthroughs in basic science are translated into therapies and diagnostic tools that benefit patient care while disseminating cutting-edge information to the professional community. The agreement notes the importance of flagship initiatives, including the CTSA program, to these important efforts.

OFFICE OF THE DIRECTOR (OD)

Administrative Offices.—For fiscal year 2023, the agreement provides the Budget Office \$4,550,000 and directs it to recruit and hire a new GS15 staff member or higher to serve as the Committees' primary liaison with NIH. The Budget Office is urged to recruit internally from within NIH to fill this position within 120 days of enactment of this Act.

Adoption of Dogs, Cats, and Rabbits Used in Research.—The agreement requests NIH to provide a report to the Committees no later than 180 days after enactment of this Act on the feasibility and/or challenges of post-research adoption.

ALS Research, Treatments, and Expanded Access.—The agreement recognizes it is critically important that NIH continue to grow its investment in ALS research to capitalize on the momentum to find new treatments for ALS and a cure for the disease. The agreement recognizes that each year, only a small portion of research funds are spent on new research projects. The agreement strongly urges NIH to maintain the ALS drug ecosystem with additional grant funding for extramural research through NINDS. In addition, the agreement urges NIH to continue to increase support and momentum for ALS research that can lead to new treatments and better care as quickly as possible, as well as support expanded access research for ALS investigational drugs.

In addition, the agreement directs NIH to handle funding of expanded access grants as authorized in the ACT for ALS (P.L. 117–79) as separate, not competitive with, funding for other research on ALS and includes \$75,000,000 for this purpose, an increase of \$50,000,000 above the fiscal year 2022 enacted level.

The agreement urges NINDS and OD to strengthen the expanded access grant application process. This should include allowing applicants 60 days from the official publication date of the Funding Opportunity Announcement (FOA) to solicit applications to conduct scientific research utilizing data from expanded access to investigational drugs or biological products to allow potential applicants sufficient time to develop meaningful collaborations and responsive projects. NINDS and OD are also directed to offer technical assistance to interested applicants during the grant process and prior to the submission due date of the FOA. Further, the agreement directs NINDS and OD to host webinars for potential applicants to prepare grant applications and also to offer forums for stakeholder engagement throughout the grant process.

The agreement directs NINDS and OD to brief the Committees prior to any execution of expanded access grants or programmatic funding. Further, once awards are announced, the agreement directs NINDS and OD to provide the Committees with an explanation of the funded grants, including a clear breakdown of what the funding is to be used for. The agreement directs NINDS and OD to fund as many applications as possible and to fund them for one year increments as is common with other NINDS grants.

Furthermore, if after NINDS completes its review of expanded access research grant applications and awards grants to eligible applications for expanded access programs under Section 2 and there

are additional funds, those funds shall be used to fund Section 3 public-private research partnerships under the Act for ALS.

Finally, if sufficient eligible applications are not received, or NINDS and OD have any reason to believe any funding should lapse for any reason, the ICs are directed to notify the Committees prior to the notifications of awards. This notification shall include: (1) a detailed explanation as to why applications cannot be funded; (2) the technical assistance provided to applicants to assist them in submitting eligible grant applications; and (3) a proposed plan to award funding for other ALS research prior to the end of the fiscal year.

Analyzing Differences in COVID-19 Study Outcomes.—The agreement recognizes that the COVID–19 pandemic has exposed an array of related health disparities, including a difference in acute disease severity and outcomes between female and male patients. To better understand how sex, race, and other variables impact study outcomes, the agreement directs the ICs, in coordination with OD and the Office of Research on Women’s Health, to support research to assess whether sex, race, and other differences play a role in study outcomes.

Artificial Intelligence/Machine Learning (AI/ML).—The agreement provides \$135,000,000 to support NIH’s efforts to build capacity to leverage machine learning to accelerate the pace of biomedical innovation. This includes \$50,000,000 for AI/ML-focused investments and other ML-focused initiatives and \$85,000,000, an increase of \$15,000,000, for the Office of Data Science Strategy (ODSS). ODSS is encouraged to launch a pilot with the Department of Energy to study the potential for quantum computing for biomedical sciences. The agreement directs ODSS and the Chief Information Officer to provide biannual updates to the Committees on their efforts. In addition, the agreement includes an increase of \$3,000,000 for the Office of Portfolio Analysis

(OPA) under the Division of Program Coordination, Planning, and Strategic Initiatives. The agreement strongly supports NIH’s efforts to build AI-based analytical tools to help NIH optimize investments in biomedical research by identifying emerging topics and predicting which ones will produce transformative breakthroughs. These tools—which themselves could be transformative—will also help NIH assess the return on investment of past investments, providing insight that has largely been absent in biomedical research. The agreement expects OPA to use the additional funding to expedite the development and adoption of the tools by NIH. The agreement directs OPA to provide the Committees an update on its efforts within 60 days of enactment of this Act, including the percentage of NIH program staff in each IC that use OPA’s tools.

Autoimmune Diseases.—Since many autoimmune diseases affect women predominantly, the agreement includes \$10,000,000 to implement the recommendations of a recent NASEM report to establish an Office of Autoimmune Disease Research (OADR) within the Office of Research on Women’s Health (ORWH). The agreement directs OADR to: (1) coordinate the development of a multi-IC strategic research plan with concrete, meaningful milestones to set priorities; (2) as part of the internal and external outreach for the strategic plan, identify emerging areas of innovation and research

opportunity; (3) coordinate and foster collaborative research across ICs; (4) annually evaluate the autoimmune research portfolio to determine progress made across NIH; (5) provide resources to support planning, collaboration, and innovation; and (6) develop and oversee a publicly accessible central repository for autoimmune disease research. The agreement directs ORWH and OADR to brief the Committees within 150 days of enactment of this Act on NIH's efforts to stand up OADR and the status of the aforementioned directives.

Biomedical Research Facilities.—The agreement provides \$80,000,000 for grants to public and nonprofit entities to expand, remodel, renovate, or alter existing research facilities or construct new research facilities as authorized under 42 U.S.C. section 283k. Further, the agreement urges NIH to consider recommendations made by the NIH Working Group on Construction of Research Facilities, including making awards that support a significant number of newly constructed or renovated facilities. Finally, the agreement encourages NIH to prioritize projects focused on specialized imaging capacities.

Brain Research through Advancing Innovative Neurotechnologies (BRAIN) Initiative.—The agreement includes \$680,000,000 for the BRAIN Initiative, including \$450,000,000 authorized in the Cures Act. The overall funding level includes \$95,000,000 for the Human Brain Cell Atlas; \$10,000,000 for the Armamentarium for Brain Cell Access; and \$30,000,000 for the Brain Connectivity Map. The agreement directs NIH to brief the Committees on the progress and achievements of key projects, as well as mid-term objectives and anticipated/actual outcomes, within 90 days of enactment of this Act.

Childhood Post-infectious Neuroimmune Disorders/PANS/PANDAS.—The agreement encourages NIH to prioritize research in this area, and include an update in the fiscal year 2024 Congressional Justification on the progress being made on the understanding of the costs, causes, diagnostic criteria, and treatment of these conditions.

Chimera Research.—The agreement supports NIH's funding limitation regarding the introduction of human pluripotent cells into non-human vertebrate animal pre-gastrulation stage embryos. The agreement takes seriously the bio-ethical considerations regarding the creation of human-animal chimeras and the continuation of research using these cells.

Chimpanzee Maintenance, Care, and Transportation.—The agreement directs NIH to provide a report to the Committees quarterly, beginning no later than February 1, 2023, that shall include: (1) the number of chimpanzees transported to the national sanctuary over the last quarter; (2) a census of all government-owned and supported chimpanzees, remaining, if any, at the Alamogordo Primate Facility (APF), the Keeling Center for Comparative Medicine and Research (KCCMR), or the Southwest National Primate Research Center (SNPRC); and (3) a list of any chimpanzee deaths, including details on the cause of death and the specific rationale behind any euthanasia decisions, that have occurred at any time after January 1, 2020, at APF, KCCMR, SNPRC, and the national sanctuary system.

Collection and Reporting of Animal Research Numbers and Agency Funding.—The Joint Explanatory Statement accompanying the Consolidated Appropriations Act, 2022 requested a plan to improve the accuracy and transparency of collected data on the use of animals in NIH-funded research. The agreement further encourages NIH to develop and include a draft form for collecting this information annually and to include details on how the agency will address any incomplete reporting of NIH-funded research with animals and encourage prospective documentation of study design and analysis plans.

Common Data Elements (CDEs).—The agreement recognizes the increasing importance of CDEs that enable standardized and consistent use of data in research, especially translational and clinical research, and that facilitate efforts to replicate and validate findings, for a disease area. The NIH encourages use of CDEs including use of the NIH's CDE repository. To encourage development and use of CDEs in disease areas where they currently do not exist, the agreement directs ODSS to work with ICs to support efforts to develop CDEs, including through collaborations with research stakeholders. The agreement also directs ODSS to provide a list of diseases and disease areas actively under development, such as autoimmune and immune-mediated conditions, to inform further NIH efforts to support development of such elements.

Common Fund.—The Common Fund supports cross-cutting, trans-NIH programs that require participation by multiple ICs, strategic planning, coordination, and have the potential for extraordinary impact. The agreement provides a \$65,000,000 increase to the Common Fund with the expectation that it will focus on time limited, goal-driven investments that accelerate emerging science and support high-risk/high-reward research. The agreement directs NIH to brief the Committees about its plans for these funds and other notable Common Fund initiatives within 120 days of enactment. Further, this briefing should include detailed plans on how to support any Common Fund programs within two years of graduation from the program.

Cybersecurity.—The agreement provides \$265,000,000, an increase of \$40,000,000 above the fiscal year 2022 enacted level, to strengthen cybersecurity at NIH.

Developmental Delays.—The agreement includes an increase of \$10,000,000 for research on developmental delays, including speech and language delays in infants and toddlers, characterizing speech and language development and outcomes in infants and toddlers through early adolescence. Such research shall include studies, including longitudinal studies.

Diversity in NIH Kidney Disease Research Populations.—The agreement directs NIH to include an update in the fiscal year 2024 Congressional Justification regarding the NIH kidney disease research program, including research on health disparities in the prevention, diagnosis, and treatment of kidney disease among racial and ethnic minority populations.

Dual Purpose/Dual Benefit Research.—The agreement encourages a partnership between NIH, the National Institute of Food and Agriculture, and the other relevant 115 Federal research and development agencies to develop a next generation interagency pro-

gram using agriculturally important large animal species. The agreement expects NIH to continue this important cooperative partnership program to further strengthen ties between human medicine, veterinary medicine, and animal sciences, with the goal to improve animal and human health and provide enhanced applicability and return on investment in research.

Early-career Pediatric Researchers.—The agreement encourages NIH, through the Trans-NIH Pediatric Research Consortium, to explore an NIH-wide early career development award that is focused on early-career researchers in the field of pediatrics that includes efforts to recruit researchers from diverse backgrounds, including those that are from groups underrepresented in the biomedical workforce. The agreement requests an update on progress in the fiscal year 2024 Congressional Justification.

Environmental Influences on Child Health Outcomes (ECHO).—The agreement includes \$180,000,000, the same level as fiscal year 2022, for the ECHO program. ECHO currently funds the Navajo Birth Cohort Study. The agreement encourages OD to consider expanding the study to include a larger representation of indigenous children in the national cohort to allow for a better understanding of the impacts of environmental exposure in these unique populations.

Firearm Injury and Mortality Prevention Research.—The agreement includes \$12,500,000, the same level as fiscal year 2022, to conduct research on firearm injury and mortality prevention. Given violence and suicide have a number of causes, the agreement recommends NIH take a comprehensive approach to studying these underlying causes and evidence-based methods of prevention of injury, including crime prevention. All grantees under this section will be required to fulfill requirements around open data, open code, pre-registration of research projects, and open access to research articles consistent with the National Science Foundation's open science principles. The Director is to report to the Committees within 30 days of enactment of this Act on implementation schedules and procedures for grant awards, which strive to ensure that such awards support ideologically and politically unbiased research projects.

Foreign Influence.—To support NIH's efforts to expeditiously complete grant compliance reviews, the agreement continues to include \$2,500,000 for this activity within the Office of Extramural Research.

Harassment Policies.—The agreement directs NIH to establish a strategic plan and timeline to implement the recommendations of the 2020 NIH Workplace Climate and Harassment Survey, and to continue to regularly conduct similar surveys and make the findings public to facilitate progress tracking and accountability.

Heritable Genetic Information Study.—The agreement directs NIH to enter into an agreement with NASEM within 60 days of enactment of this Act to identify the biological basis of health risks relevant to the regulation of heritable genetic information in food animals. NASEM will conduct a study to identify genetic and other molecular mechanisms that could present risks to human health based on heritable genetic information (natural, induced, intended, or designed) in food animal species. In conducting this study,

NASEM will: (1) identify biological mechanisms that may present novel hazards associated with animal food species that harbor intended, induced, or designed heritable genetic information that would not be presented by standard breeding or reproductive technologies practiced in animal agriculture; (2) assess the absolute and relative likelihood of animal agricultural presenting such hazards; and (3) identify experimental strategies and methodologies to evaluate the human safety of animals (or the derived agricultural products) that harbor intended, induced, or designed heritable genetic information for agricultural applications. Based on its review of the literature, consultations with the Departments of Health and Human Services and Agriculture, and other expert input, NASEM will report its findings, conclusions, and recommendations, including identification of specific near- and medium-term scientific questions (i.e., in . . . o 10 year period) that may be addressed through NIH or HHS funding. The report will also include strategies for addressing major scientific or technical barriers to progress on these scientific questions. The agreement provides \$1,300,000 to cover the costs of this study.

Humane Research Alternatives.—The agreement recognizes that non-human primate research models make significant contributions to advancing science's understanding of diseases and disorders afflicting humans and animals, including in the discovery and evaluation of new therapeutics before they go to clinical trials in human and animal patients. However, recognizing that humane, cost-effective, and scientifically suitable non-animal methods are available for certain research models, but underutilized, the agreement directs NIH to report to the Committees no later than 180 days after enactment of this Act on the feasibility of establishing incentives to encourage investigators to utilize non-animal methods whenever appropriate for the research question and how to establish standardized guidelines for peer review evaluation of the justification for research with animals.

HIV/AIDS Research.—The agreement includes an increase of \$100,000,000 above the fiscal year 2022 level for research related to HIV/AIDS across NIH.

Corps.—The agreement encourages NIH to expand access to healthcare commercialization programs such as I-Corps@NIH and the Concept to Clinic: Commercializing Innovation (C3i) programs for their Small Business Innovation Research and Small Business Technology Transfer Programs recipients.

INCLUDE Initiative.—The agreement includes no less than \$90,000,000 for this activity and requests an updated plan as described in House Report 117–403.

Lyme Disease and Related Tick-Borne Illnesses.—The agreement urges NIH to develop new tools that can more effectively prevent, diagnose, and treat Lyme disease, including its long-term effects, and other tick-borne diseases. The agreement encourages NIH to evaluate the effectiveness of laboratory tests associated with the detection of *Borrelia burgdorfi* to diagnose the disease early, as well as the promotion and development of potential vaccine candidates for Lyme disease and other tick-borne diseases. The agreement urges NIH to conduct research to better understand modes of transmission for Lyme and other tick-borne diseases, including

vertical transmission. The agreement encourages NIH to incentivize new investigators to enter the field of tick-borne disease research. The agreement directs NIH to coordinate with CDC on publishing reports that assess diagnostic advancements, methods for prevention, the state of treatment, and links between tick-borne disease and psychiatric illnesses.

National Security.—The agreement believes that NIH should consider relevant national security issues when developing and executing the NIH-wide Strategic Plan.

Native Hawaiians (NH).—The agreement directs NIH to provide the Committees a report within 90 days after enactment of this Act describing how it currently coordinates NH health research-related activities across the agency and with the NH community. The agreement encourages NIMHD to partner with entities with a proven track record of working closely with NH communities and NH-serving organizations to support the development of NH investigators.

Office of Nutrition Research.—The agreement continues to fund the Office of Nutrition at the fiscal year 2022 level.

Office of Research on Women's Health (ORWH).—The agreement includes \$76,480,000 for ORWH. Within the total for ORWH, the agreement provides \$5,000,000, an increase of \$1,000,000 above the fiscal year 2022 enacted level, for the Building Interdisciplinary Research Careers in Women's Health (BIRCWH) program to fund additional BIRCWH fellows at existing sites. To address the persistent gaps that remain in the knowledge of women's health, the agreement includes \$2,000,000 within ORWH to contract with NASEM to conduct a study on the gaps present in women's health research across all NIH ICs. Specifically, the study should be designed to explore the proportion of research on conditions that are more common or unique to women, establish how these conditions are defined and ensure that it captures conditions across the life-span, evaluates sex differences and racial health disparities, and determine the appropriate level of funding that is needed to address gaps in women's health research at NIH. The agreement requests NASEM, not later than 18 months after the date on which the agreement is entered, to submit to Congress a report containing the findings of the study and the recommendations to address research gaps in women's health research, including measurable metrics to ensure that this research is accurately tracked to meet the continuing health needs of women. As mentioned above, the agreement also includes \$10,000,000 within ORWH to establish the Office of Autoimmune Disease Research.

Office of the Chief Officer for Scientific Workforce Diversity.—The agreement includes no less than \$22,415,000 for this office.

Palliative Care.—The agreement reiterates the need for NIH to develop and implement a trans-Institute strategy to expand and intensify national research programs in palliative care. The agreement urges NIH to ensure that palliative care is integrated into all areas of research across NIH and requests an update on plans to realize this coordination in the fiscal year 2024 Congressional Justification.

Postural Orthostatic Tachycardia Syndrome (POTS).—POTS is one of the most common forms of dysautonomia, estimated to im-

pact up to 3,000,000 Americans prior to the COVID–19 pandemic. Recent research suggests that 67 percent of individuals experiencing post-acute sequelae of SARS–COV–2 (PASC), also known as Long COVID, are developing moderate to severe dysautonomia, most commonly presenting as POTS. Due to the sudden increase in the patient population affected by this debilitating disorder, the agreement strongly encourages NIH to support new research on POTS, to address the gaps in current knowledge identified during the NIH's July 2019 workshop, Postural Orthostatic Tachycardia Syndrome (POTS): State of the Science, Clinical Care, and Research. The agreement strongly encourages NIH to establish a multi-Institute Notice of Special Interest to spur additional needed research addressing the identified gaps in knowledge.

Prenatal Opioid Use Disorders and Neonatal Abstinence Syndrome (NAS).—The agreement encourages NIH to coordinate with other agencies at HHS to support additional research on prevention, identification, and treatment of prenatal opioid exposure and NAS, including the best methods for screening and treating pregnant women for opioid use disorder and the best methods for screening for NAS. Additionally, the agreement encourages NIH to support research through the ACT NOW and HBCD studies to enhance understanding of the impact of pharmacological and non-pharmacological treatments for NAS on costs and outcomes in the short-term and longitudinally. The agreement further encourages NIH to coordinate with other agencies at HHS to support research on innovative care models to optimize care and long-term outcomes for families.

Sexual Orientation and Gender Identity Research Center.—The agreement does not provide funding to establish the Center.

BUILDINGS AND FACILITIES

The agreement includes \$350,000,000 for Buildings and Facilities. For the third time in as many years, the agreement does not include authority for NIH to transfer up to 1 percent of its research funding to Buildings and Facilities. This is highly unusual authority for a Federal agency and NIH has once again provided no explanation for why this mechanism would be appropriate for NIH, but not other Federal agencies. Should NIH request this authority in its fiscal year 2024 budget request, it is directed to provide to the Committees an RCDC report at the same time the Congressional Justification is delivered detailing estimated expenditures by disease category before and after the 1 percent authority is used in fiscal year 2024. At the same time, NIH is directed to provide a list of the projects it would fund using this transfer authority.

The agreement directs NIH to continue to provide quarterly updates of its efforts to develop best practices and its maintenance and construction plans for projects whose cost exceeds \$3,500,000, including any changes to those plans and the original baseline estimates for individual projects. It also directs NIH to describe in its fiscal year 2024 and future Congressional Justifications how the projects requested in its budgets tie to its capital planning process, including the RFAC's role in determining which projects are selected for inclusion in the budget.

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION
 (SAMHSA) MENTAL HEALTH

Certified Community Behavioral Health Clinics (CCBHC).—The agreement continues to encourage SAMHSA to work with CMS to review and update the Department's approach to CCBHC certification activities. SAMHSA and CMS are directed to provide an update on the review and implementation of the CCBHC expansion included in the Bipartisan Safer Communities Act within 90 days of enactment of this Act. Within the increase, the agreement includes \$3,000,000 for the expansion and operation of the CCBHC—Expansion National Training and Technical Assistance Center to assist stakeholders on the application of certification criteria, data reporting requirements, financing questions, and best practices related to the expansion of the demonstration program included in the Bipartisan Safer Communities Act (P.L. 117–159).

Children's Mental Health Services.—The agreement includes an increase to expand efforts, including reaching more children and training more people in mental health activities and practices.

Mental Health Block Grant.—The agreement continues to include a five percent set-aside of the total for evidence-based crisis care programs that address the needs of individuals with serious mental illnesses, children with serious emotional disturbances, or individuals experiencing a mental health crisis.

National Child Traumatic Stress Initiative.—The agreement includes an increase and directs SAMHSA to ensure the network maintains its focus on collaboration, data collection, and the provision of direct services, and that new grant opportunities should not be limited to training only.

Behavioral Health Crisis Services and 988 Program (988).—The agreement reflects a one-time appropriation provided in section 145 of P.L. 117–180 and provides an increase in funding to support local crisis center capacity and centralized network functions in order to respond to the increase in contacts as the National Suicide Prevention Lifeline (Lifeline) continues its transition to 988. The agreement encourages SAMHSA to expand existing intervention and suicide prevention hotline and web services and focus outreach on youth. The agreement also encourages SAMHSA to partner with academic institutions and organizations in areas with high concentrations of veterans and active duty military personnel to ensure access to 988 and crisis lifeline resources. The agreement requests a briefing within 90 days of enactment of this Act on the implementation of the 988 program, which shall include a spend plan for the resources allocated through 988. Within the increase for 988, the agreement provides \$7,000,000 for the Behavioral Health Crisis and 988 Coordinating Office. In addition, within the increase for 988, the agreement provides \$10,000,000 to provide services for Spanish speakers seeking access to the Lifeline through texts or chats. SAMHSA shall make this funding available to one or more organizations with the capacity and experience to offer culturally competent, Spanish language text and chat services for mental health support and crisis intervention. Furthermore, within the increase for 988, the agreement provides \$29,700,000 and directs the activities included in House Report 117–403, including making funding competitively available to provide the capacity and infrastructure to handle vulnerable youth callers, chats, and texts through interactive voice response technology and other technology solutions where appropriate.

COVID-19 Impact.—The agreement does not include directives for the reports described in House Report 117–403.

Depression.—The agreement encourages a national Depression Center of Excellence to help translate academic treatment advances into clinical care. This Center would help address the need for earlier clinical detection of depression and new strategies to prevent recurrences of depressive illnesses, as well as ways of reducing their length and severity.

Mental Health Awareness Training.—The agreement includes an increase for Mental Health Awareness Training and directs SAMHSA to continue to include as eligible grantees local law enforcement agencies, fire departments, and emergency medical units with a special emphasis on training for crisis de-escalation tech-

niques. SAMHSA is also encouraged to allow training for college students, veterans and armed services personnel and their family members and to broaden applicable settings to include non-educational and non-healthcare settings where appropriate.

Mental Health Centers of Excellence.—The agreement urges SAMHSA to continue supporting centers of excellence focused on the development, evaluation, and distribution of evidence-based resources regarding comprehensive treatment recommendations for mental health patients. These recommendations may include supportive services, wraparound services, and social determinants of care where applicable. The centers will also work to disseminate treatment recommendations to the broader network of mental health clinicians.

Mental Health Crisis Response Grants.—The agreement includes an increase for the activities directed in House Report 117–403.

Project AWARE.—The agreement includes an increase for school- and campus-based mental health services and support. Of the amount provided, the agreement directs \$17,500,000 for grants to support efforts in high-crime, high-poverty areas and, in particular, communities that are seeking to address relevant impacts and root causes of civil unrest, community violence, and collective trauma. Additionally, within this increase, the agreement provides \$12,000,000 to increase student access to evidence-based, culturally relevant, trauma support services and mental health care through established partnerships with community organizations as authorized by section 7134 of the SUPPORT Act (P.L. 115–271).

SUBSTANCE ABUSE TREATMENT

State Opioid Response (SOR) Grants.—The agreement provides an increase and notes that large swings in funding between grant cycles can pose a significant challenge for States seeking to maintain programs that were instrumental in reducing drug overdose fatalities. The agreement directs SAMHSA to avoid significant cliffs between States with similar opioid mortality data, and to prevent unusually large changes in a State's SOR allocation when compared to the prior year's allocation. In ensuring the formula avoids such cliffs, the Assistant Secretary may consider options including, but not limited to, expanding the number of States that are eligible for the 15 percent set aside. The agreement continues to direct SAMHSA to conduct a yearly evaluation of the program to be transmitted to the Committees no later than 180 days after enactment of this Act and make such an evaluation publicly available on SAMHSA's website.

SOR Overdose Data Report.—The agreement recognizes that drug overdose mortality data collection and reporting is complex, often with multi-substance use contributing to mortality. The agreement encourages SAMHSA to evaluate the data used to calculate SOR allocations, including whether accurate, State-level data exists for mortality rates for opioid use disorders and whether such data should be used to calculate the 15 percent set-aside within SOR.

Substance Abuse Prevention and Treatment Block Grant (SABG).—The agreement does not include a new set-aside within the SABG for recovery services, but urges SAMHSA to strongly en-

courage States to use a portion of their SABG funding for recovery support services.

Within the total provided for Substance Abuse Treatment Programs of Regional and National Significance, the agreement includes the following amounts:

Budget Activity	FY 2023 Agreement
Capacity:	
Opioid Treatment Programs and Regulatory Activities	\$10,724,000

Building Communities of Recovery.—The agreement provides an increase for enhanced long-term recovery support principally governed by people in recovery from substance use disorders. The agreement encourages SAMHSA to continue supporting recovery support programs principally governed by people in recovery from substance use disorders, including peer support networks.

First Responder Training.—The agreement urges SAMHSA to take steps to encourage and support the use of First Responder Training funds for opioid safety education and training, including initiatives that improve access for licensed health care professionals, including paramedics, to emergency devices used to rapidly reverse the effects of opioid overdoses. Within the increase, the agreement provides \$10,500,000 to make awards to rural public and non-profit fire and EMS agencies as authorized in the Supporting and Improving Rural Emergency Medical Service's Needs (SIREN) Act (P.L. 115–334). The agreement again encourages SAMHSA to allow the purchase of equipment, including naloxone and to continue to fund grants with award amounts lower than the maximum amount allowable.

Medication-Assisted Treatment for Prescription Drug and Opioid Addiction.—The agreement directs SAMHSA to ensure that these grants include as an allowable use the support of medication-assisted treatment and other clinically appropriate services to achieve and maintain abstinence from all opioids, including programs that offer low-barrier or same day treatment options. Within

the amount provided, the agreement includes \$14,500,000 for grants to Indian Tribes and Tribal Organizations.

Opioid Use in Rural Communities.—The agreement encourages SAMHSA to support initiatives to advance opioid use prevention, treatment, and recovery objectives, including by improving access through telehealth. SAMHSA is encouraged to focus on addressing the needs of individuals with substance use disorders in rural and medically underserved areas. In addition, the agreement encourages SAMHSA to consider early interventions, such as co-prescription of overdose medications with opioids, as a way to reduce overdose deaths in rural areas.

Opioid Use Disorder Relapse.—The agreement recognizes SAMHSA's efforts to address opioid use disorder relapse within Federal grant programs by emphasizing that opioid detoxification should be followed by medication to prevent relapse to opioid dependence. The agreement encourages SAMHSA to continue these efforts.

Pregnant and Postpartum Women.—The agreement provides an increase and again encourages SAMHSA to fund an additional cohort of States under the pilot program authorized by the Comprehensive Addiction and Recovery Act (P.L. 114–198).

Recovery Housing.—In order to increase the availability of high-quality recovery housing, the agreement encourages SAMHSA to examine opportunities to provide direct technical assistance to communities in multiple states and promote the development of recovery ecosystems that incorporate evidence-based recovery housing for substance use disorder intervention. SAMHSA is encouraged to explore the establishment of a Center of Excellence with a non-profit, in collaboration with a college of public health, which has expertise and experience in providing technical assistance and research in recovery housing and focuses on homeless and justice-involved individuals utilizing blended funding and an intervention model with demonstrated outcomes.

Treatment Assistance for Localities.—The agreement again recognizes the use of peer recovery specialists and mutual aid recovery programs that support Medication-Assisted Treatment. The agreement directs SAMHSA to support evidence-based, self-empowering, mutual aid recovery support programs that expressly support Medication-Assisted Treatment in its grant programs.

Youth Prevention and Recovery Initiative.—The agreement includes funding for activities outlined in House Report 117–403.

SUBSTANCE ABUSE PREVENTION

Within the total provided for Substance Abuse Prevention Programs of Regional and National Significance, the agreement includes the following amounts:

Budget Activity	FY 2023 Agreement

Center for the Application of Prevention Technologies	9,493,000
Science and Service Program Coordination	4,072,000
Minority Fellowship Program	1,321,000

At-Home Prescription Drug Disposal.—The agreement supports efforts to encourage at-home prescription drug deactivation and disposal, and urges SAMHSA to support these types of programs.

Office of Prevention Innovation (OPI).—The agreement notes concern with the manner in which SAMHSA established OPI, without providing notice to the public for comment and failure to include the office in the fiscal year 2023 budget request. Further, the agreement is concerned that the work conducted by the OPI may be outside of the authorized scope for the Center for Substance Abuse Prevention. The agreement requests an update from SAMHSA on OPI and its activities within 120 days of enactment of this Act.

Strategic Prevention Framework-Partnerships for Success Program.—The agreement encourages the program to support comprehensive, multi-sector substance use prevention strategies to stop or delay the age of initiation of each State's top three substance use issues for 12 to 18 year old youth as determined by the State's epidemiological data. The agreement directs SAMHSA to ensure that State alcohol and drug agencies remain eligible to apply along with community-based organizations and coalitions.

Substance Misuse Prevention.—The agreement remains supportive of efforts to reduce the risks associated with drug use, including efforts to avoid drug overdose deaths and the spread of diseases such as HIV and hepatitis. However, these programs primarily serve individuals already struggling with substance misuse and should not be considered primary prevention programs. As such, the agreement strongly encourages SAMHSA to ensure this funding is administered through the Center for Substance Abuse Treatment and not through the Center for Substance Abuse Prevention.

HEALTH SURVEILLANCE AND PROGRAM SUPPORT

Within the total provided for health surveillance and program support, the agreement includes the following amounts:

Budget Activity	FY 2023 Agreement
Health Surveillance	\$50,623,000
PHS Evaluation Funds	30,428,000
Program Support	84,500,000
Public Awareness and Support	13,260,000

Drug Abuse Warning Network	13,000,000
Behavioral Health Workforce Data..	1,000,000
PHS Evaluation Funds	1,000,000

Community Project Funding/Congressionally Directed Spending.—The agreement includes \$160,777,000 for the projects, and in the amounts, specified in the table titled “Community Project Funding/Congressionally Directed Spending” included in this explanatory statement accompanying this division.

Data on Substance Use Disorder Treatment.—The agreement recognizes the challenges associated with treatment and recovery data collection and again encourages SAMHSA to request that States submit data on quality metrics for the evidenced-based treatment and recovery programs that enable individuals to achieve long-term recovery funded through the SABG, SOR, and State Targeted Response to the Opioid Crisis grant programs.

AGENCY FOR HEALTHCARE RESEARCH AND QUALITY (AHRQ)

The agreement includes \$373,500,000 for AHRQ. Within the total, the agreement includes the following amounts:

Budget Activity	FY 2023 Agreement
Health Costs, Quality, and Outcomes:	
Prevention/Care Management	\$11,542,000
Health Information Technology (IT)	16,349,000
Patient Safety Research	89,615,000
Health Services Research, Data, and Dissemination	101,103,000
Long COVID	10,000,000
Medical Expenditure Panel Survey	71,791,000
Program Management	73,100,000

Antimicrobial Resistance (AMR).—The agreement directs AHRQ to work with other HHS agencies to provide the annual briefing described under the section of the explanatory statement dealing with the Office of the Secretary within 30 days of enactment of this Act and every succeeding annual appropriations act.

Center for Primary Care Research.—The agreement continues \$2,000,000 for this activity.

Diagnostic Errors.—The agreement includes \$20,000,000 to fund research, testing, and solutions to avoid diagnostic error and to support Diagnostic Safety Centers of Excellence to disseminate related findings. Funding provided will support eight centers, with each center focusing on specific conditions, populations, or settings of diagnostic safety as noted in the fiscal year 2023 budget request.

Grief and Bereavement Care.—The agreement notes that more Americans are experiencing grief and loss as a result of the COVID-19 pandemic. The agreement includes \$1,000,000 to fund an evidence review and technical expert panel to assess the feasibility of developing consensus-based quality standards for high quality bereavement and grief care. AHRQ is directed, in consultation with stakeholders including the National Quality Forum (NQF), the Patient-Centered Outcomes Research Institute (PCORI), and community-based providers including hospice programs, to establish an evidence-base on what constitutes high-quality grief and bereavement care.

Heart Disease Research.—Heart disease is the leading cause of death for Americans. Understanding how to reduce the rate of cardiac events and to control the metabolic processes that lead to such events is needed. The agreement supports AHRQ studying and as-

sessing the current evidence for lipid control and cardiovascular event reduction. In addition, the agreement directs AHRQ to assess the current evidence on the costs and benefits—including the costs to the Federal Treasury—of angioplasties conducted in non-emergency situations and make recommendations based on its findings within 180 days of enactment of this Act.

Improving Maternal Health.—The agreement urges AHRQ to fund research to understand the complex challenges of ensuring safe and healthy pregnancies and childbirth, particularly for underserved women who are at substantially higher risk of complication and death.

Long COVID Research.—The agreement includes \$10,000,000 for health-systems research on how best to deliver patient-centered, coordinated care to those living with Long COVID, including the development and implementation of new models of care to help treat the complexity of symptoms those with Long COVID experience.

Organ Availability.—The agreement urges AHRQ to evaluate innovative approaches to enhance the availability of organs, otherwise encourage donation, and further improve the organ transplantation process, including through consultation with other Federal agencies.

People with Disabilities.—The agreement includes \$750,000 for AHRQ to work with stakeholders to develop a research agenda and report for dissemination on health promotion, disease prevention, and intervention strategies for people with disabilities.

Sepsis.—To better understand the disease burden of sepsis, the agreement includes \$750,000 and directs AHRQ to conduct a comprehensive set of studies that calculate the morbidity, readmissions, and mortality related to sepsis with respect to pediatrics, maternal sepsis, nursing home care, and rehabilitation, and the association of pandemic-related changes in the healthcare system on the burden of sepsis. The study should also examine the annual financial costs of sepsis in the United States.

CENTERS FOR MEDICARE & MEDICAID SERVICES (CMS)

PROGRAM MANAGEMENT

Alzheimer's Disease (AD) Diagnostics.—CMS' bundled payment policy for advance radiopharmaceuticals in the hospital outpatient setting can make these diagnostic imaging services cost prohibitive for many hospitals and doctors, especially those providing care to racial and ethnic minorities, and patients in rural areas. The agreement directs CMS to review the utilization of AD diagnostics and consider potential modifications that could make access to advanced imaging for AD more equitable.

Cardiac Computed Tomography (CT).—The agreement notes that unstable and low Medicare payments for cardiac CT services is contributing to significant disparity in access to services among minority populations and encourages CMS to address this inequity.

Certified Community Behavioral Health Clinics (CCBHC).—The agreement continues to encourage CMS to work with SAMHSA to review and update the Department's approach to CCBHC certification activities. The agreement directs CMS and SAMHSA to provide an update on the review and implementation of the CCBHC

expansion included in the Bipartisan Safer Communities Act within 90 days of the date of enactment of this Act.

Computed Tomography (CT) Colonography.—The agreement encourages CMS to consider existing evidence to determine whether CMS should cover CT Colonography as a Medicare-covered colorectal cancer screening test under section 1861(pp)(1) of the Social Security Act.

Diabetes Technology.—The agreement is concerned about access to new technologies to treat diabetes and notes that CMS and FDA have not coordinated their efforts regarding these technologies, leading to a lack of certainty and predictability regarding coverage and payment policies. The agreement expects the report on this issue as requested in Public Law 117–103.

Evaluation and Management Services (E/M).—The agreement requests an update in the fiscal year 2024 Congressional Justification on a process to evaluate E/M services more regularly and comprehensively.

Rural Hospital Closures.—The agreement notes that 135 rural hospitals have closed in the past decade and many others are vulnerable to closure. The agreement directs CMS to provide feedback to the Committees on Appropriations, the Senate Committee on Finance, and the House Committee on Energy and Commerce on providing appropriate relief for struggling hospitals in rural and under-served communities.

Sepsis.—The agreement directs CMS, in collaboration with CDC, to use the measure development process to develop new or identify existing hospital quality measures for adult and pediatric sepsis that could be implemented through notice and comment rulemaking. This process should take into account the adult and pediatric measures that were successfully adopted and implemented in New York State. CMS should consult with the CDC to determine if CDC's National Healthcare Safety Network (NHSN) could include Adult Sepsis Event surveillance and early identification of sepsis, perhaps leveraging new data interoperability standards. CMS, in coordination with the CDC, shall also develop new or identify existing processes to publicly report quantitative and qualitative information regarding sepsis care that may be reported through the NHSN and may track hospital implementation of quality improvement measures for adult and pediatric sepsis care.

Transitional Coverage for Emerging Technologies.—The agreement requests an update in the fiscal year 2024 Congressional Justification on this program and related CMS resources.

Whole Genome Sequencing.—The agreement notes a growing body of evidence that whole genome sequencing (WGS), whole exome sequencing, and gene panel testing can save lives and money when used to diagnose infants and children suspected of having a rare genetic disease. The agreement urges CMS to develop guidance for state health officials on best practices for incorporating these technologies into their Medicaid and CHIP programs as a first-line diagnostic for children who are suspected of having rare genetic diseases in the inpatient setting. This guidance should also include advice for States on how to encourage and incentivize managed care organizations to cover these diagnostic tools for this population. The agreement requests a report within 180 days of en-

actment on steps taken to develop such guidance. Additionally, the agreement understands that there are undiagnosed diseases that do not require hospital inpatient care and urges CMS to issue guidance on the Early and Periodic Screening, Diagnostic and Treatment Benefit on the usage of WGS, whole exome sequencing, and gene panel testing.

The agreement does not include directives for Contraceptive Access under the Affordable Care Act, as described in House Report 117–403.

The agreement does not include funding increases for new initiatives for the development of a patient advocate program or State All Payer Claims Databases, as described in House Report 117–403.

HEALTH CARE FRAUD AND ABUSE CONTROL

Senior Medicare Patrol.—Within the amount provided for CMS, the agreement includes \$35,000,000 for this program.

ADMINISTRATION FOR CHILDREN AND FAMILIES (ACF)

LOW INCOME HOME ENERGY ASSISTANCE (LIHEAP)

The agreement includes \$1,500,000,000 in this division, and \$2,500,000,000 under this heading in the Disaster Relief Supplemental Appropriations Act, 2023, to provide \$4,000,000,000 for the Low-Income Home Energy Assistance program, an increase of \$199,696,000 over the fiscal year 2022 enacted level. In addition to this funding, \$1,000,000,000 in supplemental funding is also provided in the Disaster Relief Supplemental Appropriations Act, 2023, to help lower-income families cover the costs of home heating and cooling.

The agreement includes \$1,700,000 in additional technical assistance funding for HHS to continue to develop a formula system to simplify the formulation process to enable ACF staff to provide estimates more readily when requested by the Committees. Once such a system is in place, the agreement instructs HHS to work collaboratively with the Committees to promptly respond to requests for estimates and to ensure no request shall be outstanding for longer than 10 calendar days.

The agreement continues bill language to reduce volatility in State allocations of LIHEAP funding in order to prevent States from experiencing significant reductions in funding between fiscal years.

REFUGEE AND ENTRANT ASSISTANCE

The agreement recognizes that funding for this account is highly dependent on estimates and that funding needs can fluctuate significantly based on factors largely outside of HHS' control. The agreement notes that there has been a significant increase in the number of Cuban entrants in fiscal year 2022 and through the first quarter of fiscal year 2023 who are categorically eligible for ORR-funded services. The agreement expects the Administration to provide timely estimates of funding needs along with the required monthly updates of such eligible populations.

Victims of Trafficking

Within the total for this program, the agreement includes no less than \$5,000,000 for the National Human Trafficking Hotline.

Unaccompanied Children

Confidentiality of Records.—The agreement recognizes that unaccompanied children often share extensive personal information to case managers, clinicians, or other adults while in Office of Refugee Resettlement (ORR) care, and expects ORR and its grantees and contractors to protect sensitive personal information, behavioral health records, and mental health records consistent with all applicable child welfare laws, regulations, and licensing requirements. The agreement expects ORR to ensure it is complying with its obligation to protect children's private and confidential information, including information in significant incident reports, from unauthorized disclosure.

Services for Children.—The agreement includes no less than \$750,000,000 for post-release services, legal services, and child advocates, pending the availability of funds due to recent uncertainties in referrals and funding needs. The agreement understands the supply of service providers may be constrained in some areas, and encourages ORR to allow grantees to use flexibilities in contracting expenses, to the extent practicable, to build the capacity to ensure the necessary legal requirements are met to provide expanded services to children.

Sibling Placement.—The agreement continues to direct ORR to place siblings in the same facility, or with the same sponsor, to the extent practicable, and so long as it is appropriate and in the best interest of the child.

Spend Plan.—The agreement directs ORR to submit a comprehensive spend plan to the Committees every 60 days, incorporating all funding provided in this Act, and previous Acts. The agreement expects the plan to contain a report on facilities per House Report 117–403.

State-Licensed Shelters.—The agreement continues to direct HHS to prioritize licensed, community-based shelters and programs (including foster care and small group homes) over large-scale shelters, and to notify the Committees prior to all new funding opportunity announcements, grants or contract awards, or plans to lease, rent, or acquire real property. Further, the agreement strongly encourages ORR to more consistently and predictably post funding opportunity announcements, and to provide training and technical assistance to potential new providers with the goal of increasing the percentage of HHS' capacity in such small, community-based programs.

Unlicensed Facilities.—The agreement notes significant concern with the continued reliance on influx care facilities. The agreement expects that such facilities will only be used as a matter of last resort and at times when there is not sufficient capacity in State-licensed shelters and programs. The placement of children in such facilities when not absolutely necessary is counter to established child welfare best-practices. Further, it drains resources that could otherwise be spent on other activities, including expanding services

available to children. Finally, it reduces funding available to help ensure that HHS can expand capacity when it is necessary.

The agreement expects any unlicensed facilities, when absolutely necessary to operate, to meet the statutory requirements included in this Act. In addition, the agreement includes the directives and reports required under this heading in House Report 117–403.

PAYMENTS TO STATES FOR THE CHILD CARE AND DEVELOPMENT BLOCK GRANT

The agreement directs ACF to include in future annual budget justifications amounts spent on Federal administrative expenses, including total FTE and non-personnel allocations, funded through this account.

CHILDREN AND FAMILIES SERVICES PROGRAMS

Head Start.—The agreement encourages ACF to consider the unique challenges faced by Head Start grantees in remote and frontier areas when reviewing such grantees' compliance with health and dental screening requirements as part of the Designation Renewal System.

The agreement also encourages ACF to ensure that all Head Start grantees are aware of any funding opportunities, or funding otherwise available, for making capital improvements to their facilities. Further, ACF is encouraged to standardize this process so all grantees have equal opportunity to apply and are aware of priorities and eligible uses of such funds.

Preschool Development Grants.—The agreement encourages ACF to support States that choose to develop high-quality and culturally competent dual immersion preschool programs and recommends a focus on training, professional development, and postsecondary education for all caregivers, teachers, and directors to meet the needs of Dual Language Learners through dual language acquisition, engaging culturally and linguistically diverse families, home language support, and culturally and linguistically appropriate assessment.

Child Abuse Prevention and Treatment Act Infant Plans of Safe Care.—The agreement continues \$60,000,000 to help States continue to develop and implement infant plans of safe care as required by section 106 of the Child Abuse Prevention and Treatment Act. The agreement also encourages HHS to provide technical assistance to States on best practices for developing notification systems that are distinct and separate from the system used in the State to report child abuse and neglect in order to promote a public health response to infants affected by substance use disorders.

Child Abuse Discretionary Activities.—The agreement includes \$2,000,000 for ongoing support for a national child abuse hotline to provide resources and intervention in all modalities, including chat, text, and call, to provide comprehensive capabilities to serve both youth and concerned adults facing child abuse and neglect.

The agreement includes \$2,000,000 for demonstration projects for serving children in foster care who have experienced severe trauma through trauma-informed interventions as directed in House Report 117–403.

Adoption Opportunities.—The agreement includes \$2,000,000 for the National Adoption Competency Mental Health Training Initiative.

Social Services Research and Demonstration.—The agreement continues funding for the Diaper Distribution Demonstration and Research Pilot and expects that \$10,000,000 of the funds made available for awards for direct services be made to approved but unfunded applicants of funding opportunity HHS–2022–ACF–OCS–EDA–0161, as well as technical assistance and evaluation activities for such grants. In addition, the agreement includes \$10,000,000 for a new competition, and directs ACF to prioritize awards to applicants with established partnerships with diaper distributing entities. The agreement further directs ACF to ensure that the grant application period is open for no less than 60 days.

The agreement includes \$2,000,000 for a Medical-Legal Partnership grant program as directed in House Report 117–403.

The agreement includes \$2,500,000 for a demonstration program to provide funding to owners of affordable housing properties to offer supportive services for their residents as directed in House Report 117–403.

The agreement includes \$3,000,000 to fund demonstrations of whole-family approaches to service delivery across benefit programs as described in the fiscal year 2023 budget request. ACF is encouraged to prioritize demonstration projects in States with large rural populations and with high rates of poverty.

Community Project Funding/Congressionally Directed Spending.—The agreement includes \$107,848,000 for the projects, and in the amounts, specified in the table titled “Community Project Funding/Congressionally Directed Spending” included in this explanatory statement accompanying this division.

Milestones should be developed in collaboration with a broad group of non-governmental stakeholders focused on each of the risk factors for Alzheimer's disease and related dementias.

Antimicrobial Resistance (AMR).—The agreement supports the Administration's proposal to combat antibiotic-resistant infections by encouraging the development of innovative antimicrobial drugs. The success of similar creative funding initiatives, such as Project BioShield, show the need for pursuing unique approaches to preparing for and countering serious threats to human health. The agreement directs the Department to brief the Committees within 60 days of enactment of this Act on the requirements for implementation of the proposal. The agreement also directs OASH, NIH, ASPR/BARDA, CDC, and AHRQ to jointly brief the Committees no later than 30 days after the enactment of this Act and each annual Appropriations Act thereafter detailing how HHS and its agencies are coordinating their AMR-related efforts, as well as domestic and international AMR trends. The briefing should include a comparison of actual performance for the most recent years available against the National targets established in the current National Action Plan for Combatting Antibiotic-Resistant Bacteria and whether those goals were achieved in the last fiscal year. Building on these results, agencies are directed to outline in briefings the focus of their plans for the next two fiscal years and how these are connected to longer-term objectives included in the current National Action Plan.

The program would adopt and field AI programs to shield the nation against current and future bio-threats of any origin. It would use AI to develop and deliver capabilities of high value in the areas of accelerated vaccines, rapid therapeutics, global bio-threat surveillance, and rapid fielding. ASPR is directed to collaborate with the OCIO Chief AI Office on feasibility plans to setup this program, to include a professional judgement budget for the first three years.

CBRN Threats.—The agreement urges ASPR to prioritize the development and stockpiling of critical CBRN vaccines, treatments, diagnostics, and personal protective equipment (PPE) to ensure there is no disruption in the availability of these life-saving medical countermeasures (MCMs) in the Strategic National Stockpile. The agreement encourages ASPR to engage more frequently with private sector partners in the Broad Agency Announcement process to speed the development of new MCMs and stockpiling of existing MCMs against CBRN threats.

Commercialization of COVID-19 Vaccines and Therapeutics.—The agreement directs ASPR to provide a briefing to the Committees on the Department's plan to transition COVID-19 vaccines and therapeutics with FDA approval to the commercial market. Such briefing shall include a timeline for each product, for products that have FDA approval and those that have emergency use authorization; possible costs associated with a transition from Federal purchasing to the private market; and details about how non-Federal purchasers will compete in the market. Such briefing shall be provided within 30 days of enactment of this Act and every 6

months thereafter until transition to the commercial market is complete.

Ensuring the Availability of Next Generation Masks and Respirators.—The agreement urges ASPR to assess its stockpile of reusable respirators and to conduct scenario-based modeling studies to determine the appropriate amount needed for the stockpile. ASPR is urged to consider creating Target Product Profiles (TPP) for respirators and masks and a process of recurring competitive bids for products meeting the increasingly stringent TPPs. ASPR is directed to submit a report to the Committees on these activities within 120 days of enactment of this Act.

Far-forward Patient Care.—The agreement notes that advancing and expanding far-forward patient care can significantly improve the delivery, cost, and outcomes for patients injured by natural or human-caused disasters. Conducting traditional medical care closer to the point of injury can also have positive downstream effects on routine medical operations. ASPR is encouraged to consider establishing a Federally Funded Research and Development Center (FFRDC) in partnership with an academic medical center to improve far-forward care, transportation and coordination, and advanced technology that can provide additional solutions to future patient care. Furthermore, ASPR is also encouraged to consider leveraging this FFRDC to support the National Disaster Medical System by utilizing the experience and innovations produced by the Center.

Insulin Domestic Supply Chain.—The agreement encourages ASPR to review the potential for establishing an Insulin Center of Excellence, in recognition of the importance of developing a domestic supply chain for insulin. Such a Center would promote lower prices in the U.S. by addressing the entire life cycle of insulin product and development, including research and development, clinical trials, production, and post-market studies.

Medical Distribution Supply Chain Task Force.—The agreement recognizes the importance of public-private partnerships in COVID-19 response efforts and recommends establishing a task force where government agencies and distribution experts can proactively prepare for the next public health emergency. The task force would allow pharmaceutical and medical distributors to participate in ongoing emergency preparedness planning and maintain relationships with government agencies, conduct tabletop exercises and emergency response planning, and report their work and findings to Congress.

Reporting.—In addition to the directives included in House Report 117–403, the agreement directs ASPR to include a summary of the details of its monthly obligations to the Committees in its monthly obligation report.

The agreement requests both a written report and a briefing, within 90 days of enactment of this Act, and annual reports and briefings

thereafter, on progress in establishing a robust NSPS and integrating NSPS with other health care delivery systems of care for emergencies, such as the trauma system.

Real-time Hospital Capacity Data.—The agreement continues to support ASPR's preparedness efforts and encourages increased support of real-time data tracking to improve overarching capacity issues experienced by hospitals and providers in all 50 States and the territories during community, State, regional, and national emergencies. The agreement urges ASPR to identify lessons learned and tools that have been developed for hospital data collection during the COVID-19 response for all-hazards hospital data collection and public health situational awareness.

Regional Disaster Health Response System.—The agreement includes \$7,000,000 for these cooperative agreements.

Biomedical Advanced Research and Development Authority (BARDA)

Antimicrobial and Antifungal Resistance.—The agreement continues to support advanced research and development of broad-spectrum antimicrobials and novel antifungal therapies, particularly for multi-drug resistant pathogens, and next-generation therapeutics that address the increasing incidence of antimicrobial resistance. The agreement requests the Department provide a briefing to the Committees within 60 days of enactment of this Act that details the budgetary requirements for implementation of the Administration's proposal to combat antibiotic-resistant infections. The agreement directs ASPR to work with other HHS agencies to provide the annual briefing described under the section of the explanatory statement dealing with the Office of the Secretary within 30 days of enactment of this Act.

Blood Supply.—The agreement encourages further development of freeze-dried hemostatic products, especially platelet-derived products, suitable for treatment of hemorrhagic disease, and use in general surgery, obstetrics, and trauma. The agreement further urges that, as a stopgap measure and pilot project, the Assistant Secretary, as soon as feasibly possible, support a pilot project to expand the manufacturing base for these products to develop adequate infrastructure to support a national inventory to accommodate predicted needs so that in the event of an overwhelming number of casualties, these research products could be used to fill the capability gap under the auspices of the Emergency Use Authorization Act.

Infectious Disease Outbreaks with Pandemic Potential.—The agreement encourages BARDA to engage in public-private partnerships to support advanced research and development of innovative platform technologies and MCM programs focused on, but not limited to, vaccines, therapeutics, and other MCMs for emerging infectious diseases, including novel pathogens and viral families with pandemic potential. The agreement encourages ASPR to collaborate with other appropriate Federal departments, agencies, and offices, the private sector, and other stakeholders to identify promising MCMs and platform technologies that can be leveraged to address a range of potential pathogens, including virus families with significant pandemic potential. The agreement directs BARDA to

prioritize expeditious development of such MCMs, innovative platform technologies, and novel multi-modal methods, and requests a briefing within 90 days of enactment of this Act to provide an update on the status of MCMs and platforms to address these threats.

Infectious Diseases.—The agreement supports robust funding for increased work to prepare for emerging infectious disease outbreaks and other naturally occurring threats to global health security. The agreement encourages BARDA to account for the constraints of different settings in its funding decisions to foster first-line tools that have wide applicability for many geographies, including low-resource settings in the U.S. and globally which may lack advanced health infrastructure. ASPR is encouraged to continue reporting and delineating its spending on emerging infectious diseases, pandemic influenza, and AR in its annual 5-year budget plan for MCM development. The agreement urges BARDA to publicly and regularly provide updated pathogen, product, and project-level data for all its funding, which it has done on its website for COVID-19 MCM investments, and to provide underlying data in tabular form. Such reporting helps clarify how ASPR is considering naturally occurring threats, including AR, in relation to other priority areas of MCM development, particularly given the inclusion of naturally occurring threats in the Strategic Initiatives section of the Pandemic and All-Hazards Preparedness and Advancing Innovation Act (P.L. 116–22).

Nasal COVID–19 Vaccines.—The agreement notes with concern that the nation is falling behind other countries in the development and approval of COVID–19 nasal vaccines. The agreement urges BARDA to accelerate clinical trial opportunities to achieve FDA approval for a nasal COVID–19 vaccine for which there is already existing clinical efficacy and safety data.

Trusted Domestic Vaccine Supplier Capability.—The agreement continues to recognize the need for domestic manufacturing of key biological starting materials (KSM), including plasmid DNA and mRNA, antibodies, and other medical countermeasures, to ensure timely response to unanticipated health emergencies. Therefore, the agreement encourages the Department to expand domestic manufacturing of KSMs and collaborate with U.S. companies that have pharmaceutical capabilities to ensure the development and stockpiling of synthesized medicines for future pandemics and bio-threats.

Policy and Planning

The agreement includes \$14,877,000 for Policy and Planning.

Project BioShield Special Reserve Fund

The agreement includes \$820,000,000 for Project BioShield.

Strategic National Stockpile (SNS)

The agreement includes \$965,000,000 for the SNS.

Acute Radiation Syndrome (ARS).—The agreement notes with concern that the SNS has not prioritized fully achieving the stockpiling requirement for FDA-approved MCMs for ARS. The agreement requests a report be provided to the Committees within 30 days of enactment of this Act that includes an update on: (i) exist-

ing procurements and stockpiled MCMs for ARS; (ii) ASPR's plans to ensure existing ARS products are maintained; and (iii) how ASPR intends to meet the Administration's goal of investing in U.S. jobs and infrastructure to ensure the continued availability of a diverse set of ARS countermeasures.

Distributor Interoperability for the SNS.—The agreement urges the SNS to work with all U.S.-based medical and pharmaceutical distributors on developing and maintaining IT connectivity. The agreement recognizes that distributors need to have and implement technology for IT interoperability so that their systems can connect with the SNS/HHS systems to participate in distribution efforts with the government.

Made in America Strategic National Stockpile.—The agreement notes concern about the nation's limited infrastructure to produce essential products such as medical devices, medical equipment, pharmaceuticals, and PPE, such as syringes. The agreement strongly urges the Secretary to develop a long-term sustainable procurement plan that gives preference to and results in purchases directly from domestic manufacturers of PPE or PPE raw materials to the maximum extent practicable.

Replenishing Influenza Antivirals.—The agreement strongly supports the Department's multi-year strategic initiative to supplement shelf-life extended flu antivirals in the stockpile with therapeutics that have not undergone extensions, in order to meet full stockpiling requirements. ASPR is urged to prioritize acquiring influenza antivirals to the full stockpiling requirements that can be safely used in children under 12 and people that are pregnant.

Shelf-life Extension Program (SLEP) for Antivirals.—The agreement notes with concern that efforts to achieve cost savings through SLEP could negatively impact distribution of, patient adherence to, and ultimately consumer confidence in certain products in the SNS, particularly aged antivirals. Not later than 180 days after enactment of this Act, the Assistant Secretary is directed to conduct an audit of the SLEP for antivirals in the SNS and provide recommendations to safeguard SNS's ability to effectively respond to future severe influenza outbreaks in the U.S.

Supply Chain Risk Assessment.—The agreement urges ASPR to prioritize the identification of upstream pharmaceutical supply chain risks to reduce medicine supply disruptions while also providing evidence to inform public investment and policy reforms that build more resilience in the medical supply chain. This includes the ability to leverage integrated data analytics from a range of data sources to identify key risk indicators and improve both demand forecasting and capacity management. The agreement directs ASPR to identify opportunities to support the development of capabilities to continually assess the global supply chain for essential medicines that covers source location, volume, and the number of facilities involved in the product of APIs, finished dosage forms, and other required components.

Medical Reserve Corps (MRCs)

The agreement provides \$6,240,000 for the Medical Reserve Corps Program. Funding for MRCs has historically been provided to local units quickly and effectively, thereby allowing for grants to

help build and sustain local communities' ability to prepare for and respond to emergencies. The agreement encourages ASPR to continue this locally driven approach and to allocate funding via established mechanisms that provide funds directly to local MRC unit, which are made up of representatives from their communities.

Preparedness and Response Innovation

The agreement provides \$3,080,000 for a bilateral cooperative program with the Government of Israel for the development of health technologies.

Cybersecurity

The agreement provides \$100,000,000 for information technology cybersecurity in the Office of the Chief Information Officer and HHS-wide to strengthen the Department's cybersecurity posture. These funds provide for continuous monitoring and security incident response coordination for the Department's computer systems and networks. The increase is expected to support the advancement of existing, and adoption of new, security technologies to protect the Department's information from the evolving number and complexity of cyber threats. The agreement directs the Department to identify ways to mitigate increasing cybersecurity threats that pose risks to HHS critical functions, services, and data, and provide a report with these recommendations to the Committees no later than 120 days after enactment of this Act.

In addition, the agreement provides \$21,900,000 for HHS Protect for the activities directed in House Report 117–403.

Office of National Security

The agreement provides \$8,983,000 for the Office of National Security.

Pandemic Influenza Preparedness

The agreement provides \$335,000,000 for the pandemic influenza preparedness program.

ADVANCED RESEARCH PROJECTS AGENCY FOR HEALTH

The agreement includes \$1,500,000,000 for ARPA–H. The agreement strongly encourages HHS to collaborate with the Defense Advanced Research Projects Agency (DARPA) to develop the foundational policies, procedures, and staff training for ARPA–H employees. The agreement believes ARPA–H will require a very different culture and mission than NIH's other 27 Institutes and Centers. To foster the development of an entrepreneurial culture, the agreement expects ARPA–H to be physically located away from the main NIH campus. The agreement directs NIH to brief the Committees no later than 30 days prior to conducting the location search on its criteria and the Committees should be notified of the decision no less than 5 days prior to a location being announced publicly. While the NIH workforce is composed of dedicated, talented, and frequently brilliant scientists, recruitment from the existing NIH workforce should be avoided. Instead, the agreement recommends that ARPA–H consider recruiting from industry, academia, and think tanks, as well as from proven advanced research

project organizations. The agreement directs ARPA–H to provide quarterly briefings to the Committees on its establishment process, hiring, and scientific priorities and progress. These briefings should specifically address how its activities may advance biomedical research and development and the mission to create breakthrough health technologies, as well as how to balance long-term scientific challenges with short-term research goals.

TITLE III

DEPARTMENT OF EDUCATION

EDUCATION FOR THE DISADVANTAGED

School Improvement.—The Department shall brief the Committees not later than 60 days after enactment of this Act on the Department's actions and plans for addressing the challenges identified in GAO's report on school improvement (GAO–21–199) and assisting state educational agencies (SEAs) and local educational agencies (LEAs) with implementing all of the school improvement requirements of the Elementary and Secondary Education Act (ESEA), including meaningful resource allocation reviews. The Department shall also increase transparency on the amount reserved by each State for the school improvement set-aside, method of distribution to eligible LEAs, uses of such funds and the Department's actions and plans for supporting SEA and LEA implementation of ESEA school improvement requirements, including resource equity requirements, in the fiscal year 2024 and future Congressional Justifications.

Title I-A-Funded Services for Students Experiencing Homelessness.—The Department shall provide technical assistance to state and local Title I directors on the requirements and uses of funds under section 1113(c)(3)(A) to assist LEAs in effectively using such funds to support students experiencing homelessness. In addition, the Department shall describe actions taken and planned to address these issues in the fiscal year 2024 and future Congressional Justifications and work with SEAs to increase transparency on amounts reserved by LEAs under section 1113(c)(3)(A).

SCHOOL IMPROVEMENT PROGRAMS

Alaska Native Education Equity.—The Department is directed to make every effort to ensure that grants are awarded well in advance of the school year, to maximize grantees' ability to hire the necessary staff and have their programs in place by the start of Alaska's school year in mid-August. The Department is directed to ensure that Alaska Native Tribes, Alaska Native regional non-profits, and Alaska Native corporations have the maximum opportunity to compete successfully for grants under this program by providing these entities multiple opportunities for technical assistance in developing successful applications for these funds, both in Alaska and through various forms of telecommunications. Finally, the Department is encouraged to include as many peer reviewers as possible who have experience with Alaska Native education and Alaska generally on each peer review panel.

Student Support and Academic Enrichment Grants Technical Assistance and Capacity Building.—The reservation for technical assistance (TA) and capacity building should be used to support SEAs and LEAs in carrying out authorized activities under this program identified by SEAs and LEAs, which may include support for fostering school diversity efforts across and within school districts. The agreement continues to direct the Department to prioritize its TA and capacity building support for SEAs and LEAs seeking to address such school diversity needs. In future Congressional Justifications, the Department shall continue to provide current and planned expenditures for this reservation and include a plan for how resources will be spent to provide TA and to build the capacity of SEAs and LEAs.

Education for Native Hawaiians.—The Department shall award not less than \$10,000,000 of the funds made available for the Education for Native Hawaiians program under authority continued from last year's bill for construction, renovation, and modernization of any public elementary school, secondary school, or structure related to a public elementary school or secondary school, that serves a predominantly Native Hawaiian student body. The Department shall make this funding competitively available to organizations in need of assistance with infrastructure improvement for increased capacity to serve a predominantly Native Hawaiian student body. The agreement also includes sufficient funding for the Native Hawaiian Education Council.

INDIAN EDUCATION

National Activities.—The increase for National Activities shall support new awards under the Native American Language Immersion competition and the State-Tribal Education Partnership program for up to five years.

Funds for the Native American Language Immersion program should continue to be allocated to all types of eligible entities, including both new and existing language immersion programs and schools, to support the most extensive possible geographical distribution and language diversity. In addition, the Department should continue to give the same consideration to applicants that propose to provide partial immersion schools and programs as to full immersion, as the local Tribes, schools, and other applicants know best what type of program will most effectively assist their youth to succeed. Further, the Department is directed to provide adequate notice, consultation, and technical assistance to support applications from and grants to a diverse range of language immersion schools and programs, including those serving Native Hawaiian and Alaska Native students.

Native American Language Resource Centers.—Within National Activities, the agreement includes \$1,500,000 for this activity described under this heading in House Report 117–403. Further, the Office of Indian Education is directed to consult with the Office of English Language Acquisition on the development, implementation and support for this program.

Special Programs for Indian Students.—The Department is directed to use no less than \$2,750,000 of funds available for the Demonstration Grants for Indian Children and Youth program for a teacher retention-initiative to help address the shortage of Native American educators and expand their impact on Native American students' education. The initiative should support teacher leadership models to increase the retention of effective, experienced Native American teachers.

INNOVATION AND IMPROVEMENT

Education Innovation and Research (EIR).— Within the total for EIR, and including continuation awards, the agreement includes \$87,000,000 to provide grants for social and emotional learning (SEL) and \$87,000,000 for Science, Technology, Education, and Math (STEM) and computer science education activities. Within the STEM and computer science set-aside, awards should expand opportunities for underrepresented students such as minorities, girls, and youth from families living at or below the poverty line to help reduce the enrollment and achievement gap. To fulfill both set-asides, the agreement supports the prioritization of high-quality SEL and STEM proposals for both the early- and mid-phase evidence tiers. The agreement encourages the Department to take steps necessary to ensure the statutory set-aside for rural areas is met and that EIR funds are awarded to diverse geographic areas. The agreement expects the remainder of EIR funds to continue to support diverse and field-initiated interventions, rather than a single nationwide program or award focused solely on one area of educational innovation.

No later than 30 days after enactment of this Act, the Department is directed to have an initial consultation briefing with the Committees on the fiscal year 2023 competitions for EIR. Not less than two weeks before the publication of a notice of proposed priorities or a notice inviting applications, the Department is directed to brief the Committees on plans for carrying out an EIR competition. In addition, the Department shall provide a briefing and notice of grant awards to the Committees at least seven days before grantees are announced.

Supporting Effective Educator Development (SEED).—Within SEED, the Department is directed to support professional development that helps educators incorporate SEL practices into teaching, and to support pathways into teaching that provide a strong foundation in child development and learning, including skills for implementing SEL strategies in the classroom through a competitive preference priority as included in the fiscal year 2020 and 2022 competitions.

In addition, the SEED program is an ideal vehicle for helping ensure that more highly trained school leaders are available to serve in traditionally underserved LEAs. Therefore, the Secretary shall continue to support an absolute priority to support the preparation of principals and other school leaders and disseminate best practices from such grants.

American History and Civics National Activities.—After providing continuation awards, the agreement directs the Department to allocate all remaining resources in this program to run a new grant competition supporting evidence-based practices as described under this heading in House Report 117–403; however, eligible entities shall be those defined in section 2233(e) of ESEA. The Department also is directed to include a priority for applicants that propose evidence-based approaches to improving teaching and learning about the history and principles of the Constitution of the United States in any new competition.

Charter School Program.—Not later than 90 days after enactment, the Department is directed to brief the Committees on its actions and plans to provide adequate staff for and oversight of the Charter School Program (CSP); offer flexibility by allowing State entities to reserve a greater share of anticipated funds available over the life of the grant for technical assistance (TA) in the early years of the grant when such assistance is particularly needed, and improve the use of and prepare additional reports on the use of such reserved funds, including disaggregated data as it relates to students with disabilities and English learners, that includes: a description of the State's objectives in providing TA to grantees and the activities identified to provide the required TA; and a description of the impact of State action(s), or if no known impact, an explanation as to why.

Not less than two weeks before the publication of a notice of proposed priorities or a notice inviting applications, the Department is directed to brief the Committees on plans for carrying out a CSP competition.

Statewide Family Engagement Centers.—The agreement directs the Department to use the increase provided to award grants for

high-quality applications that could not be funded during the prior year's grant competition.

Community Project Funding/Congressionally Directed Spending.—The agreement includes \$200,443,000 for the projects, and in the amounts, specified in the table “Community Project Funding/Congressionally Directed Spending” included in this explanatory statement accompanying this division.

The agreement includes \$216,000,000 for national activities, an increase of \$15,000,000, which shall be used by the Department for competitive grant competitions, technical assistance and capacity-building centers, or Project SERV.

Not less than two weeks before the publication of a notice of proposed priorities or a notice inviting applications, the Department is directed to brief the Committees on plans for carrying out any new competition funded within School Safety National Activities. In addition, the Department shall provide a briefing and notice of grant awards to the Committees at least seven days before grantees are announced.

Promise Neighborhoods

The agreement provides a portion of funds for the second year of two-year extension grants to high quality Promise Neighborhood programs that have demonstrated positive and promising results through their initial implementation grant to strengthen grantee community's abilities to scale city and regional reinvestment strategies and allow for direct pipeline services. Further, the Department is directed to brief the Committees, prior to the publication of proposed priorities or a notice inviting applications, on potential changes to future grant competitions that would provide expiring and recently expired extension grant recipients operating in a particular neighborhood or community the opportunity to compete for a new grant to strengthen and further expand services in the same neighborhood or community, provided they can demonstrate successful outcomes and justify the need for new funding. Such briefing shall also cover how to maximize the planning time grantees have before implementation begins, and other actions to strengthen the long-term success of communities and neighborhoods assisted with grant funds. The Department shall provide a briefing on implementation plans for the Promise Neighborhoods program not later than 14 days prior to issuing a notice inviting applications for new awards or extension grants.

SPECIAL EDUCATION

Technical Assistance and Dissemination.—The agreement includes an increase of \$1,000,000 for OSEP's State Deaf-Blind Projects and the National Center on Deaf-Blindness to strengthen support of the abilities and needs of children with deaf-blindness, including through intervener services. The Department is directed to provide an update on actions and plans to ensure that intervener services are available when recommended by the Individualized

Education Program team and parents and families are aware of such services as early as possible in the fiscal year 2024 Congressional Justification. The Department also is directed to provide technical assistance and support to any State considering how to remove barriers like family fees and associated administrative requirements that deter families from accessing needed Part C services.

Education Materials in Accessible Formats for Students with Visual Impairments.—The agreement includes additional funding to make a broader range of educational materials available to students and to meet the needs of all eligible students, including pre-K and postsecondary students.

REHABILITATION SERVICES

The agreement directs the Department to provide a briefing to the Committees no later than 90 days after enactment on the planned uses of funds that remain available for obligation subsequent to the reallocation of funds to States pursuant to section 110(b) of the Rehabilitation Act, and to provide semi-annual briefings thereafter.

Disability Innovation Fund (DIF).—The agreement directs the Department to use a portion of DIF funds for competitive grants, to be awarded in coordination with the Office of Disability Employment Policy, to non-governmental entities in partnership with State Vocational Rehabilitation (VR) agencies for innovative strategies that significantly increase employment of adults with disabilities. The agreement expects this will focus on adults with disabilities who are not currently in the workforce. Grants shall be awarded to partnerships that support disabled adults in obtaining competitive integrated employment and advance their career trajectories. Strategies for improving employment outcomes for adults with disabilities must have as their goal a significant effect on disability employment in the State or region. Funds should be used to develop new and innovative strategies for the recruitment, hiring, retention, and career advancement of disabled adults, spurring change in the State VR agency's strategies and ability to improve State disability employment outcomes.

Institute of Education Sciences (IES) Evaluation.—The agreement directs the Department to notify the Committees at least 15 days prior to transferring any funds to IES under the authority provided under this heading.

Randolph-Sheppard Program.—The agreement directs the Department to provide participants in the Randolph-Sheppard Program with technical assistance and support in applying for funding opportunities for innovative activities aimed at increasing competitive integrated employment. In addition, the agreement encourages the Department to use amounts available for evaluation and technical assistance to study the Randolph-Sheppard Program and innovative activities aimed at increasing competitive integrated employment.

Federal Work Study.—Within the total for Federal Work Study, the agreement includes \$11,053,000 for the Work Colleges program authorized under section 448 of the Higher Education Act (HEA).

Pell Grant Restoration and Prison Education Program.—The agreement expects that the Department will continue the Second Chance Pell Experiment as the Department implements Pell Grants for Prison Education Programs (PEP). Expertise and best practices from Second Chance Pell should be used to develop guidance and technical assistance for the new PEP. The agreement further directs the Department to work with Second Chance Pell sites as they transition to the requirements under the new PEP to ensure that incarcerated students do not experience a gap in their educational programming. The Department should also convey to institutions of higher education that they should work to ensure that every student who participates in the new PEP is able to reenter their communities successfully post-release.

STUDENT AID ADMINISTRATION

The agreement directs the Department to provide a detailed spend plan of the planned uses of funds under this heading by major activity, and quarterly updates on its implementation. This should include, but not be limited to, detailed breakouts by baseline operations and development efforts; and servicing, student aid core systems, IT activities, and other Federal Student Aid activities. Further, this should include a crosswalk to activities funded under administrative costs and servicing activities, and any reallocation of funds between those two activities should be treated

as a reprogramming of funds, and the Committees should be notified in advance of any such changes.

The agreement provides authority to extend current student loan servicing contracts in order to ensure an orderly transition to the Unified Servicing and Data Solution (USDS). The Department should notify the Committees at least 15 days prior to exercising that authority to extend current contracts. The agreement further directs the Department to provide quarterly briefings on progress related to implementation of USDS.

HIGHER EDUCATION

Minority Science and Engineering Improvement

Workforce Development.—The Department is encouraged to prioritize awards for projects that assist in workforce development programs in industrial engineering, emergency management, and emergency response. Further, programs that provide support for minority student internships with local industries, hospitals, and businesses should be encouraged to be prioritized.

Federal TRIO Programs

The agreement includes an increase of \$54,000,000 for TRIO which shall be used to provide increases to current TRIO grantees demonstrating substantial progress in meeting performance objectives and, to the extent practicable, to fund down the slates of unfunded, high-quality applications from prior-year competitions.

IES is further directed to describe actions and plans to support high-reward research on transformative solutions needed to significantly improve outcomes for all students in its current Operating Plan and in future Congressional Justifications, Operating Plans, and Biennial Reports.

The IES is directed to brief the Committees on plans for making new high-reward research awards not less than two weeks before the publication of a funding opportunity notice. In addition, the IES shall provide a briefing and notice of awards to the Committees at least seven days before grantees are announced.

The agreement also recognizes the ongoing collaborative efforts between the Department of Education and the National Science Foundation (NSF), including two NSF National Artificial Intelligence Research Institutes focused on education. The agreement encourages the Department and IES to pursue additional collaboration with the NSF, which may include support for Centers for Transformative Education Research and Translation.

Statistics.—The agreement includes \$121,500,000 in program funding for the National Center for Education Statistics (NCES). The agreement directs all planned uses of funds to be described in the required operating plan. Should NCES decide to use resources for the School Pulse Panel, the agreement directs NCES to describe

in such plan the policies and procedures in place for the School Pulse Panel to ensure that such information is collected and reported in a manner that is objective, secular, neutral, and nonideological; free of partisan political influence and racial, cultural, gender, or regional bias; and relevant and useful to practitioners, researchers, policymakers, and the public. Further, such operating plan should describe all topics planned for monthly collections in 2023.

Assessment.—The agreement includes \$185,000,000, including \$10,000,000 for research and development, for the Assessment program. Amounts and activities related to research and development investments are directed to be described separately in the required operating plan and future Congressional Justifications.

DEPARTMENTAL MANAGEMENT

Game-based Learning (GBL).—The agreement recognizes GBL in augmented reality and virtual reality as an instrument to foster engaged and immersive learning in elementary education and encourages the Department to consider incorporating evidence-based GBL as a priority in planned competitions in fiscal year 2023, as applicable.

Menstrual Hygiene Products.—The agreement continues to encourage the Department of Education, in consultation with the Department of Health and Human Services, to provide technical assistance and share best practices with institutions of higher education seeking to expand access to menstrual products for postsecondary students.

Nonrecurring Expenses Fund.—As part of the annual Congressional Justification, the Department is directed to include the anticipated balances available in and uses of the Nonrecurring Expenses Fund for the current and budget fiscal years. Additionally, the Department is directed to provide the Committees quarterly reports for all ongoing projects. The report shall include the following for each project: a description and timeline for each project; the date the project was notified to the Committees; total obligations to date; obligations for the prior fiscal year; anticipated obligations for current fiscal year; and any expected future obligations; and the total unobligated balance in the Fund.

Program Administration.—The agreement notes disappointment that despite a significant increase in funding in fiscal year 2022 for Program Administration after more than five years of level-fund-

ing, the Department transferred \$7,000,000 from the Pell Grant program for additional administrative expenses without any consultation with the Committees. Accordingly, for fiscal year 2023, the agreement expects the Department to meet the administrative needs of the agency through the Program Administration appropriation provided in the Act, which includes an increase of \$32,000,000, and not by transferring funds from another account. Further, the agreement expects additional resources provided under this account to support expanded allotments for core agency career staff responsible for the execution of agency programs, including staffing within grants offices and within Budget Service. In addition, the agreement expects the agency to use such resources to effectively administer Community Project Funding/Congressionally Directed Spending grants in a timely manner.

In meeting the agreement's expectation that adequate career staff are allotted to effectively implement core agency programs, in fiscal year 2023, the Department should begin to rebalance the agency's ratio of career staff to non-career staff. The agreement notes that the Department used additional resources provided in fiscal year 2022 to, among other investments, increase its non-career staff on-board by 40 percent from September 2021 through December 2022. The agreement is concerned by the Department's prioritization of staffing resources in fiscal year 2022; therefore, in fiscal year 2023, the agreement expects the Department not to expand non-career staff on-board above December 2022 levels.

Further, the agreement directs the Department to brief the Committees on how its required staffing report operating plan will fill critical positions; invest in information technology necessary for providing effective monitoring and oversight of grants and programs; invest in information technology security; and address other challenges identified by the Inspector General in the 2022 Management Challenges report. Further, the Department should be prepared to discuss its efforts to begin rebalancing the agency's ratio of career staff to non-career staff.

Spending Transparency.—The Department is directed to strengthen its support for the timely and effective expenditure of Elementary and Secondary School Emergency Relief (ESSER) funds, including amounts dedicated to addressing student learning through the implementation of evidence based interventions to meet students' academic and mental health needs. The Department must also enhance transparency on key categories of actual and planned expenditure of ESSER funds at the national, state and local levels.

Staffing Report.—Not later than 30 days after enactment, the Department shall provide the Committees an operating plan identifying the total FTE and non-personnel allocations supported by the program administration appropriation in total for the Department, and FTE and non-personnel allocations for each program office supported by the program administration appropriation provided in this Act. In addition, the Department shall provide on a monthly basis the number of on-board staff, attrition, approved hires not yet on-boarded and projected full-year FTE usage, including approved hires, and actual non-personnel expenses, for each program office supported by, and in total for, the program administration appro-

priation provided in this Act. In addition, the Department shall separately identify in such plans and reports total FTE allocations supported by other funding sources.

State and Local Report Cards.—The Department is directed to, not later than 6 months after enactment of this Act, submit to the Committees and to the Committees of Health, Education, Labor, and Pensions of the Senate and of Education and Labor of the House of Representatives a report outlining actions taken to bring States into compliance with all ESEA annual reporting requirements, particularly for those States that have yet to come into full compliance with such requirements; common implementation obstacles facing States in complying with such requirements; and efforts to improve the accessibility, quality, and utility of this information.

Supporting Principals and School Leaders.—Principals and school leaders are critical to both student outcomes and teacher retention. The Department is directed to issue guidance to SEAs and LEAs on the use of Federal funds across various programs, including Title I-A and Title II-A of the ESEA, for implementing evidence based-strategies to recruit, prepare, support, and retain strong principals and school leaders.

Teacher and School Leader Diversity Guidance.—Increasing educator diversity is critical to building a strong educator workforce that supports students and educators from all backgrounds. The Department is directed to release guidance on how formula funds across various programs, including Title I-A, Title II-A, Title III, Title V-B, and Title VI of the ESEA, Title III of the HEA, and Part B of the IDEA may be used by SEAs, LEAs and IHEs to increase teacher and school leader diversity, including through pre-service support, enhancing preparation, providing on the-job support, and strengthening retention and promotion policies.

Financial Management and Accounting.—The agreement is concerned about deficiencies in audits from fiscal years 2017 to 2022 and includes funding for AmeriCorps to support the contracting of a dedicated project team, comprised of personnel with expertise in financial management and accounting. The agreement directs AmeriCorps to submit a report no later than 90 days after the date of enactment of this Act, and quarterly thereafter, detailing the agency's progress in addressing audit findings. The agreement further directs AmeriCorps to provide quarterly briefings in fiscal year 2023 to the Committees on Appropriations, the House Committee on Education and Labor, and the Senate Committee on Health, Education, Labor, and Pensions.

Information Literacy Taskforce.—The agreement includes \$4,000,000 for the continuation and expansion of the Information Literacy Taskforce (Taskforce) in accordance with the priorities and guidelines described in the explanatory statement accompanying Public Law 117–103. Of these funds, \$2,000,000 shall be reserved for the development and implementation of two pilot grant programs. The first pilot program will have an associated evaluative component to test the implementation of the toolkits and community interventions disseminated by the Taskforce to aid in developing locally responsive tools and resources to bridge information gaps. The Taskforce will support research and regularly convene grantees to identify and apply promising strategies and practices. The second pilot program will encourage, support, and promote information literacy, including reliable methods and processes for informed civic engagement among seniors and other segments of the population. The agreement directs IMLS to submit a report or provide a briefing to the Committees on the Taskforce’s findings within one year of the date of enactment of this Act.

America250.—The agreement recognizes IMLS’s commitment to the 250th Anniversary of the founding of the United States in co-ordination with the Semiquincentennial Commission Act of 2016 and includes \$1,000,000 in preparation for the 250th Anniversary.

RAILROAD RETIREMENT BOARD

LIMITATION ON ADMINISTRATION

The agreement directs the Railroad Retirement Board (RRB) to provide annual updates on the project status of RRB’s fully funded information technology modernization system, including timelines to completion, total anticipated cost of development, funding obligations, and contracts. Such annual update is requested no later than 180 days after enactment of this Act and should provide information for each fiscal quarter. Updates that include changes to project

timelines to completion should explicitly state the nature of those changes.

SOCIAL SECURITY ADMINISTRATION (SSA)

LIMITATION ON ADMINISTRATIVE EXPENSES

The agreement includes an increase of \$785,033,000 for SSA's administrative expenses to support increases in fixed costs across SSA, including for State Disability Determination Services (DDSS), and to increase staffing and invest in targeted IT systems with the goal of improving and enhancing service delivery to the public.

Disability Backlogs.—The agreement recognizes the pandemic created significant challenges for SSA, which has contributed to a significant increase in processing times for initial disability claims. The agreement includes funding for SSA to increase staffing, including in State DDSSs, to help begin to address the growing backlog of initial disability claims. In addition, the agreement directs the Commissioner to continue to prioritize efforts to reduce wait time disparities across the country by directing resources and workload assistance, as necessary, to areas with greatest need. Finally, the agreement directs SSA to continue to provide monthly reports to the Committees on key agency performance metrics, including but not limited to initial disability claims, reconsiderations, and hearings, and to provide quarterly briefings to the Committees on its progress towards reducing the initial disability claims and hearings backlog, as well as addressing other service delivery challenges.

Expanding Outreach to People with Disabilities.—The agreement strongly encourages SSA to expand outreach to potential beneficiaries, prioritizing underserved communities and individuals most likely to need support, and directs SSA to include information in its fiscal year 2024 Congressional Justification on such efforts.

Continuing Disability Reviews (CDR).—The agreement directs SSA to include in its annual CDR Report to Congress an evaluation of its CDR prioritization models.

Field Office and Resident Station Closures.—The agreement recognizes the essential role that field offices and resident stations play in the public's ability to access SSA benefits and services and strongly encourages the Commissioner to take every action possible to maintain operations at existing field offices and resident stations. The agreement urges SSA to ensure its policies and procedures for closing field offices and resident stations include at least 120 days advance notice to the public, SSA employees, Congress, and other stakeholders. Such notice should include a rationale for the proposed closure and an evaluation of the effects on the public and SSA operations. In addition, the agreement is concerned that the recent closure of a resident station due to staffing difficulties has created an undue burden for those who need access to in-person social security services. The agreement directs SSA to continue to engage with community leaders about how to provide suitable alternatives for in-person services and to report to the Committees within 90 days of enactment of this Act on the alternatives established.

Improving Ticket to Work Administration and Reducing Overpayments.—The agreement supports agency efforts to improve administrative processes that reduce overpayments, including in the Ticket to Work program, which can create significant challenges as beneficiaries attempt to return to work. SSA is directed to include information in its fiscal year 2024 Congressional Justification on such efforts.

Occupational Information System (OIS) and Medical-Vocational Guidelines.—The agreement directs SSA to include information in its fiscal year 2024 Congressional Justification detailing efforts to fully implement OIS in coming years, including the status of implementation, the extent to which OIS is fully-operational, a timeline for moving from the Dictionary of Occupational Titles entirely to OIS, an action plan to accomplish said timeline, and other efforts to modernize medical-vocational guidelines.

Program Integrity.—The agreement includes a new proviso, which was requested in the fiscal year 2023 President's Budget proposal, to expressly prohibit funding made available under a cap adjustment to support program integrity activities from being reprogrammed or transferred for non†program integrity activities.

The agreement, however, clarifies that such proviso is not necessary because the Congress need not expressly prohibit actions that it has not authorized. Under the statutory terms of the appropriation, amounts provided for program integrity activities may not be reprogrammed to base activities (or to any other non-program integrity activity). That is because this appropriation account statutorily establishes a required appropriation amount for program integrity activities—in this bill, at \$1,784,000,000—which is provided by the sum of the amounts specified in the first proviso of the account's second paragraph.

Finally, the agreement notes the Congress has not been apprised of any applicable transfer authority available to SSA that the President's Budget proposal seeks to prevent.

Social Security Statements.—The agreement directs SSA to submit a report within 120 days of enactment of this Act with options for increasing the number of individuals receiving Social Security Statements annually by mail to ensure that individuals are informed of their Social Security contributions and benefits, and have an opportunity to review their earnings records and correct any errors in a timely manner.

Work Incentives Planning and Assistance (WIPA) and Protection and Advocacy for Beneficiaries of Social Security (PABSS).—The agreement includes \$23,000,000 for WIPA grants and \$10,000,000 for PABSS.

SOCIAL SECURITY ADMINISTRATION (SSA)

OFFICE OF INSPECTOR GENERAL (OIG)

Combatting Social Security Impersonation Scams.—The agreement commends SSA OIG efforts to combat Social Security impersonation scams and urges SSA to continue prioritizing this effort and pursuing the criminals perpetuating the fraud.

This division may be cited as the “Legislative Branch Appropriations Act, 2023”.

[CLERK'S NOTE.—Reproduced below is the material relating to division I contained in the Explanatory Statement regarding H.R. 2617, the Consolidated Appropriations Act, 2023.^{1]}]

DIVISION I—LEGISLATIVE BRANCH APPROPRIATIONS ACT, 2023

The following is an explanation of the effects of Division I, which makes appropriations for the legislative branch for fiscal year 2023. The joint explanatory statement accompanying this division is approved and indicates congressional intent. Unless otherwise noted, the language set forth in House Report 117–389 carries the same weight as language included in this joint explanatory statement and shall be complied with unless specifically addressed to the contrary in this joint explanatory statement. While some language is repeated for emphasis, this explanatory statement does not intend to negate the language referred to above unless expressly provided herein.

All legislative branch agencies are directed to follow prior year directives adopted in Public Law 117–103, on “Reprogramming Guidelines”, “Full-Time Equivalents”, “Science and Technology Assistance for Congress”, and “Zero-Based Budgeting”.

Congressional Requirements for Legislative Branch Cyber and Physical Data Security.—In lieu of the House language on “Congressional Requirements for Legislative Branch Cyber and Physical Data Security”, the Committees reiterate that legislative branch agencies should consider proactive steps to protect critical Information Technology (IT) infrastructure, including the prevention of cyberattacks, secure data storage, and ensuring continuity of government operations. The Committees recommend that, as part of their production, redundant and backup network architecture solutions, legislative branch agencies should utilize computing and cloud facilities designed for concurrent maintainability (equivalent to ANSI/TIA–942–A or Uptime Institute Tier III standards and industry best practices) and consider geographic diversity.

Cybersecurity for the Legislative Branch.—The agreement includes funding requested by legislative branch agencies in fiscal year 2023 to strengthen cyber defenses.

Motorized Micromobility Devices on Capitol Grounds.—Dockless commercial scooters, or e-scooters, and other motorized devices for rent have grown as a commuting option for congressional staffers, tourists, and other visitors to the District of Columbia and Capitol Grounds. However, pursuant to the Traffic Regulations for the United States Capitol Grounds, commercial dockless scooters remain prohibited on Capitol Grounds. The agreement notes that the

¹ This Explanatory Statement was submitted for printing in the Congressional Record on December 20, 2022 by Mr. Leahy of Vermont, Chairman of the Senate Committee on Appropriations. The statement appears on page S9199 of Book II.

2021 Terms and Conditions established by the District of Columbia Department of Transportation (DDOT) have been modified for commercial dockless scooter vendors and these Terms and Conditions now require commercial dockless scooter vendors to install geofencing on their vehicles to ensure that commercial dockless scooters do not enter onto Capitol Grounds consistent with Traffic Regulations for the United States Capitol Grounds prohibitions. The United States Capitol Police (USCP), Sergeants at Arms (SAA), and Architect of the Capitol (AOC) are expected to continue expanding outreach efforts to dockless scooter and bicycle companies and DDOT, and to work to better educate users, including congressional staff, District residents, and visitors on the appropriate operation of commercial dockless scooters and bicycles on Capitol Grounds. This may include exploring the feasibility of installing shared scooter docking points, including hubs for parking and charging, at designated locations adjacent to campus as determined by USCP, SAAs, and the AOC to ensure rider convenience while not creating a public safety risk on Capitol Grounds.

Offices of Inspectors General (OIG) Budgets.—Ensuring independence between legislative branch OIGs and their respective reporting agencies is important. Agencies are expected to include a separate section reflecting a detailed budget request for their OIGs within their fiscal year 2024 budget justifications. Each OIG is directed to keep the Committees fully apprised of its funding needs. In addition, each agency is directed to avoid interference with or require approval for such communications between the OIG and the Committees.

Good Accounting Obligation in Government Act.—The Good Accounting Obligation in Government Act, or GAO-IG Act (Public Law 115–414) requires that each Federal agency, including the agencies of the legislative branch, include an accounting of any public recommendations by the GAO or the agency's OIG that have not yet been implemented, and the timeframe for implementation. It is expected that each agency in this bill include such a report in its fiscal year 2024 congressional budget justification.

Internal Controls to Prevent Fraud, Waste or Abuse within the Legislative Branch.—All legislative branch agencies are directed to develop internal controls procedures designed to identify potential risk areas within the agency and to communicate the expected internal controls procedures to be implemented throughout the agency to prevent instances of fraud, waste, or abuse. These policies must be implemented consistent with the authorities of the inspector generals and established Federal laws, rules, and regulations.

Implementation of Recommendations Issued by Oversight Entities.—Each legislative branch agency is directed to address recommendations from oversight entities, such as the GAO and OIGs, in a timely manner and to request resources, as appropriate, to fully implement these recommendations. In addition, each legislative branch agency is directed to provide a summary of all open oversight recommendations within the agency's annual budget justifications, to include reasons for the recommendation remaining open and cost proposals for fully implementing each unresolved oversight recommendation.

Single-Use Plastics and Other Sustainability Efforts.—Reducing the use of single-use plastic products, as well as other recyclable waste, on the Capitol Grounds is critical. The AOC, SAAs, the Secretary of the Senate, Chief Administrative Officer of the House (CAO) and USCP are directed to identify the types of single-use plastic products currently used within their operations and for what purposes; develop recommendations on alternative products, including reuse and refill options; and report within 60 days of enactment of this Act to the Committees on Appropriations, the Senate Committee on Rules and Administration and the Committee on House Administration on these findings and the associated costs of implementing said recommendations.

Further, the AOC and USCP are taking commendable actions to implement outdoor recycling programs on Capitol Grounds while maintaining the security of the Capitol complex. The AOC is encouraged to work with the USCP to find additional locations where garbage and recycling cans can be co-located and clearly marked on the Capitol Grounds without impacting security operations. In addition, AOC is encouraged to continue to explore options from within existing resources for composting and food waste reduction with interested legislative branch entities.

Use of Government Vehicles.—Legislative branch agencies are reminded that Federal government vehicles are to be utilized for official government business only and are not to be used for general personal use. All legislative branch agencies are directed to implement policies regarding the acquisition and use of Federal government vehicles, including price limitations, equipment installation, and lifecycle replacement procedures.

Further, all legislative branch agencies are required to implement internal controls over home-to-work vehicle programs where vehicles are issued to employees for the purposes of responding to their assignment to fulfil an official duty in a timely manner. These controls shall include an annual recertification of home-to-work justifications for any vehicle assigned to agency personnel for this purpose. This process should also include the justification for the issuance of the home-to-work vehicle, the estimated roundtrip mileage for the vehicle to and from the employee's residence on a daily basis, and the estimated cost to the agency resulting from the assignment of the vehicle.

Further, the Department shall provide an update to the Committees every 30 days on the resources available to staff those posts and challenges that impact the proposed reopening plan. Lastly, the plan should include a proposed timeline for reopening, understanding that fluctuations in hiring occur, as well as additional security requirements, and can alter the schedule. As the plan will include law enforcement sensitive information, it should be made available within the respective House and Senate security offices to be viewed by authorized representatives of the Committees.

Information Literacy.—In recognition of the critical need for Americans of all ages to develop information literacy skills, the Committees direct the Library of Congress to collaborate with and provide consultative support to the Institute of Museum and Library Services (IMLS) as IMLS carries out the activities of the Information Literacy Taskforce for the priorities and guidelines described in the explanatory statement to accompany the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2022 (Public Law 117-103).

America 250.—The Library is encouraged to collaborate with the IMLS on outreach and activities to engage the diverse community

of museums and libraries across the Nation in celebrating and commemorating the semiquincentennial anniversary of the Nation's founding.

IT Modernization.—The Committees continue to invest in IT modernization at the Library and the Library is directed to brief the Committees regularly on these efforts.

National Film and Sound Recording Preservation Programs.—The Committees recognize the important work of the National Film Preservation Program and the National Sound Recording Preservation Program, including the Federally chartered National Film and National Recording Preservation Foundations. Given that these programs were reauthorized under the Library of Congress Sound Recording and Film Preservation Programs Reauthorization Act of 2016 (Public Law 114–217), the Library is expected to continue to support them.

LOC Office of Inspector General.—The agreement includes not less than \$4,500,000 for the Library's OIG, to support no fewer than 14 FTE.

The Committees recognize that public access to the Main Reading Room at the Library of Congress is limited and acknowledges the challenge of maintaining a balance between creating a quiet environment for researchers while also allowing visitors to enjoy the beauty of the Main Reading Room. The Library is encouraged to continue exploring opportunities to enhance public access to the Reading Room while preserving the research environment and collections, and directs the Library to keep the Committees apprised of any new efforts to expand public access.

Teaching with Primary Sources.—The agreement includes \$12,245,000 for the Library's successful Teaching with Primary Sources program (TPS), a teacher training initiative that encourages educators to incorporate the Library's online primary sources into school curricula.

The Committees believes that efforts to develop learning initiatives on history, civics, and democracy have merit, and encourages the Library to further its efforts in these areas, including through the creation of a Lewis-Houghton Civics and Democracy Initiative.

Lewis-Houghton Civics and Democracy Initiative.—The Committees believe that efforts to develop digitally-enabled learning initiatives for secondary education based on creative arts driven instruction, especially focused on music, in history, civics, and democracy have merit. As such, the Committees support the establishment of the Lewis-Houghton Civics and Democracy Initiative pilot within the Library of Congress' Teaching with Primary Sources program to be initiated in FY 2023. The Committees recognize the established Library programmatic processes and resources for successfully administering such an initiative, to include the vast collections within the Library, such as the American Folklife Center, the Songs of America collection and other important Library archives and collections. The Committees also recognize that grant products from this Initiative may be used to enrich onsite Library of Congress activities, such as but not limited to those planned by the Center for Learning, Literacy and Engagement for the New Visitor Experience.

For the purposes of establishing a pilot for the Initiative, the agreement includes \$2,300,000, of which \$300,000 is available for the administration of the Initiative. These funds are intended to develop and administer a pilot educational program as a part of the Initiative, which funds eligible organizations within the United States and its territories to develop digitally-enabled comprehensive, assessable, teaching project-based creative arts driven curricula programs focused on using the digitized primary sources of the Library of Congress related to history, civics and democracy.

Applicants selected for participation in the educational program should reflect a broad and diverse representation and be selected on competitive bases, similar to established criteria of programs administered by the Library. Applicants shall demonstrate the background, partnerships and experience to successfully implement the scope and intent of the pilot program. Applicants for participation within the Initiative do not need to have been a prior participant in a Library program in order to be eligible for participation, following existing Library announcement and selection processes.

To further the many educational programs within the Library, participants within the programs of the Initiative will be included within the Teaching with Primary Sources consortium partnership to leverage information, goals and experiences of similar or emerging programs.

Within 90 days of enactment of the Act, the Library shall provide a plan to the Committees detailing the pilot, to include eligibility for applying for funding from the Initiative, the criteria to be used to select eligible participants, the time-line for launching the pilot and an overview of program administration. In addition, the Library is directed to submit a report on the progress of the pilot at the end of fiscal year 2023, detailing the successes and challenges of administering the Initiative and providing recommendations for refining, enhancing and expanding it in future fiscal years.

Visitor Experience Initiative.—Along with budget submissions as part of the regular appropriations process, the Library, in coordination with the AOC, is directed to provide bi-weekly status reports to the Committees including designs, cost estimates, and anticipated timelines for construction and implementation of the Library's Visitor Experience Master Plan. These updates should also include progress on fundraising initiatives for private funding, including both donations in-hand and verbal commitments, to support the Visitor Experience.

COPYRIGHT OFFICE

SALARIES AND EXPENSES

The agreement includes \$53,762,000 in direct appropriations to the Copyright Office. An additional \$43,912,000 is made available from receipts for salaries and expenses and \$3,000,000 is available from prior year unobligated balances, for a total of \$100,674,000.

Information Technology Modernization.—The agreement continues funding for Copyright Office IT modernization. The Committees direct the Copyright Office and the Library's Office of Chief Information Officer (OCIO) to continue to work together to achieve efficiencies in shared services, while allowing for mission specific

modernization to be the responsibility of the Copyright Office. The Committees direct the Copyright Office to provide a detailed spend plan for the IT modernization efforts intended to be addressed with the funds provided in fiscal year 2023.

CONGRESSIONAL RESEARCH SERVICE

SALARIES AND EXPENSES

The agreement includes \$133,600,000 for salaries and expenses for the Congressional Research Service (CRS). The agreement includes \$1,000,000 for the Congressional Legal Education Forum as indicated in House Report 117–389.

Expanding Existing Data Analysis Capacity.—CRS is encouraged to explore ways to expand its ability to perform quantitative analysis of research data. Within 180 days of enactment of this Act, CRS shall brief the Committees on proposed options for such capacity expansion, including costs and resource requirements. The briefing should provide detailed information about CRS' consideration of additional research personnel, such as new analysts, data scientists, methodologists and research assistants to expand quantitative analysis on newer topics that assess the impact of legislative proposals more broadly. The briefing should include information regarding the evaluation of CRS' infrastructure investment in statistical data science visualization software to strengthen this research capacity. Included in the briefing should be specific information about the manner and means that CRS has determined will allow it to respond in a more timely manner to the Congress.

Congressional Research Service Modernization.—The Committees continue to support modernization of CRS mission-specific information systems to increase efficiency of the office while protecting confidentiality of congressional data. The Committees encourage CRS to explore its processes and utilization of resources to meet the needs of the Congress in a more timely manner based on the time-sensitive nature of the congressional schedule.

Exploratory Study on Big Data Analytics.—CRS is directed to engage with an external entity to produce a report detailing the feasibility of CRS engaging in the analysis and modeling of big data sets by highlighting the information technology infrastructure, staffing, and analytical support required to establish and maintain such a capability. The completed study would be made available to the Committees on Appropriations, the Senate Committee on Rules and Administration, the Committee on House Administration, and House and Senate leadership.

NATIONAL LIBRARY SERVICE FOR THE BLIND AND PRINT DISABLED

SALARIES AND EXPENSES

The agreement includes \$58,657,000 for salaries and expenses for the National Library Service for the Blind and Print Disabled (NLS).

The Library of Congress, in consultation and coordination with the IMLS, is encouraged to provide increased assistance to the State Library Administrative Agencies to expand access to mate-

rials from the NLS, with additional support provided to IMLS for these activities.

Braille eReader and Talking Book Machine Initiative.—The agreement modifies House language regarding funding for the purchase of no less than 2,000 new e-Reader devices for distribution through the NLS Machine Lending.

ADMINISTRATIVE PROVISIONS

The agreement includes provisions related to reimbursable and revolving funds and using appropriated funds for certain positions within the Little Scholars Child Development Center.

GOVERNMENT PUBLISHING OFFICE

BUSINESS OPERATIONS REVOLVING FUND

The agreement includes \$11,605,000 to remain available until expended.

The agreement does not include the requested increase of \$1,050,000 to migrate the OIG's human capital (HC) and information technology (IT) support services from GPO to a third-party Federal provider. The Committees note that the OIG is not funded through a separate appropriation, but the Director submits the OIG's request without interference, as directed by these Committees. The Committees invest considerable resources through the Business Operations Revolving Fund annually in GPO's HC and IT services and therefore expects the OIG to utilize them.

GOVERNMENT ACCOUNTABILITY OFFICE

SALARIES AND EXPENSES

The agreement includes \$790,319,000 in direct appropriations for salaries and expenses of the Government Accountability Office, of which \$5,000,000 shall remain available until expended. In addition, \$55,865,000 is available from offsetting collections, for a total of \$846,184,000.

Within the total, no less than \$2,451,000 is provided for the GAO Office of Inspector General to support no less than 11 FTE.

Appropriations and Budget Law.—The Committees acknowledge that GAO legal decisions, including those related to the Congressional Review Act, are often fact specific and time consuming. The Committees commend the improvements made by the GAO Appropriations Law Group to increase resources dedicated to supporting Congress' oversight role. GAO is encouraged to continue to find ways to speed up its adjudication process and to prioritize responding to congressional inquiries and publishing formal legal decisions stemming from congressional requests.

Community Project Funding.—In accordance with the direction in House language, the Committees direct GAO to undertake an audit of Community Project Funding contained in fiscal year 2023 appropriations legislation.

Unimplemented Government Accountability Office Recommendations.—Within 180 days of enactment of this Act, GAO shall publish on its website and provide to the Committees on Appropriations, the Senate Homeland Security and Governmental Affairs Committee, and the House Committee on Oversight and Reform a report estimating the cost savings that could be achieved if agencies acted on GAO's recommendations organized by agency.

GAO Methodology for Estimating Savings.—The Committee encourages GAO to explore a methodology for estimating potential cost savings through budget requests. Given the many assumptions and caveats required of such analysis, the Committees expect a briefing from GAO to discuss such methodology within 180 days of enactment of this Act.

Hiring Practices at CRS.—In lieu of House language regarding “Hiring Practices at CRS, LOC shall provide a report to the Committees on the Library’s current barrier analysis to hiring and promotion within 60 days of enactment of this Act.

The Comptroller General shall submit to the Committees a spend plan for such oversight, not later than 90 days after the date of enactment of this Act.

CONGRESSIONAL OFFICE FOR INTERNATIONAL LEADERSHIP

The agreement includes \$6,000,000 for the Congressional Office for International Leadership (COIL).

Ukraine.—The Committees are deeply troubled by the Russian invasion of Ukraine and support COIL’s efforts to reinstate programming in Ukraine as soon and safely as possible. The Committee further urges COIL’s engagement with Ukrainians outside of Ukraine to maintain democratic advancement throughout wartime.

Expansion of Program to Other Countries.—COIL is directed to keep the Committees apprised of any new developments on expanding programming to include other regions and countries that may be of strategic necessity to the United States.

TITLE I DEPARTMENT OF DEFENSE MILITARY CONSTRUCTION OVERVIEW

Reprogramming Guidelines.—The following reprogramming guidelines apply for all military construction and family housing projects. A project or account (including the sub-elements of an account) which has been specifically reduced by the Congress in acting on the budget request is considered to be a congressional interest item and as such, prior approval is required. Accordingly, no reprogrammings to an item specifically reduced below the threshold by the Congress are permitted.

Recognizing the increased cost and complexity of military construction projects since the threshold was previously adjusted, the Committees support incrementally increasing the reprogramming threshold to enable the Department to be more agile and reduce delays associated with cost overruns. The modified reprogramming criteria that apply to military construction projects, as well as new

¹This Explanatory Statement was submitted for printing in the Congressional Record on December 20, 2022 by Mr. Leahy of Vermont, Chairman of the Senate Committee on Appropriations. The statement appears on page S9233 of Book II.

housing construction projects and improvements, is \$6,000,000 or 25 percent of the funded amount, whichever is less. To provide the Services the flexibility to proceed with construction contracts without disruption or delay, the costs associated with environmental hazard remediation such as asbestos removal, radon abatement, lead-based paint removal or abatement, and any other legislated environmental hazard remediation may be excluded, provided that such remediation requirements could not be reasonably anticipated at the time of the budget submission. This exclusion applies to projects authorized in this budget year, as well as projects authorized in prior years for which construction has not been completed.

Furthermore, in instances where prior approval of a reprogramming request for a project or account has been received from the Committees, the adjusted amount approved becomes the new base for any future increase or decrease via below-threshold reprogrammings (provided that the project or account is not a congressional interest item as defined above).

In addition to these guidelines, the Services are directed to adhere to the guidance for military construction reprogramming actions and notifications, including the pertinent statutory authorities contained in Department of Defense (DOD) Financial Management Regulation 7000.14-R and relevant updates and policy memoranda.

Military Construction Funding.—The agreement includes \$19,000,000,000, which is \$6,846,035,000 above the budget request, in a continued effort to support current and future force readiness through critical infrastructure investments. This level funds most authorized unfunded requirements and addresses other priorities that have been historically neglected in budget requests, such as resiliency and quality of life projects. While Congress continues to provide funding above the budget request for military construction, the Committees encourage the Department to adequately resource these accounts.

Facilities Sustainment, Restoration and Modernization (FSRM).—The Department of Defense is directed to continue describing on form 1390 the backlog of FSRM requirements at installations with future construction projects. For troop housing requests, form 1391 should describe any FSRM conducted in the past two years. Likewise, future requirements for unaccompanied housing at the corresponding installation should be included. Additionally, the forms should include English equivalent measurements for projects presented in metric measurement. Rules for funding repairs of facilities under the Operation and Maintenance accounts are described below:

(1) components of the facility may be repaired by replacement. Such replacement can be up to current standards or codes;

(2) interior arrangements and restorations may be included as repair;

(3) additions and new facilities may be done concurrently with repair projects, as long as the final conjunctively funded project is a complete and usable facility; and

(4) the appropriate Service Secretary shall notify the appropriate committees 21 days prior to carrying out any repair project with an estimated cost in excess of \$7,500,000.

Military Installation Resilience (MIR).—Since fiscal year 2020, the Committees have provided dedicated planning and design and unspecified minor construction funding to support installation resilience. The primary intent of this funding has been to develop projects that mitigate climate change risks to military installations. The Committees believe that such investments are critical to installation readiness and the agreement provides \$90,000,000 for planning and design and unspecified minor construction in Section 129 to continue to develop projects, conduct studies and analyses, and update Unified Facility Criteria that will directly enhance military installation resilience. While prior year funding has been allocated towards these efforts to an extent, the Committees are concerned that the services have not adequately prepared for or prioritized the development of MIR projects and their integration into installation master planning, even at installations where climate impacts are already observed. Therefore, the Committees direct the Secretary of Defense and the Secretary of each Military Department to provide a report to the Committees no later than 90 days after enactment of this Act on efforts to address military installation resilience requirements. The report shall include the following: (1) an explanation of what DOD and the Military Departments are doing to develop the capacity and expertise to scope and design climate resilience projects for installations; (2) what direction DOD and the Military Departments have given to installations to incorporate military installation resilience projects into relevant master planning processes; (3) details on how DOD and the Military Departments are prioritizing MIR projects, including how projects support other installation resilience efforts, such as the DOD Readiness and Environmental Protection Integration program; (4) how DOD and the Military Departments are incorporating non-traditional engineering methods to mitigate climate risks to installations, such as engineering with natural or nature-based features; and (5) any other identified barriers to planning and designing MIR projects.

Child Development Centers (CDCs).—The agreement includes \$293,250,000 for construction of new child development center projects and planning and design for future projects. This investment of resources is necessary to address both insufficient access to childcare facilities, as well as the poor conditions of existing facilities. Such shortfalls in capacity are an unacceptable burden to military families. The Department is directed to assign greater priority to CDC construction projects in future budget requests.

United States Indo-Pacific Command (INDOPACOM).—The INDOPACOM area of responsibility is the largest combatant command and requires a modern, resilient military presence to ensure the continued strength of U.S. national security. However, the Committees are concerned that the Services have not properly prioritized projects within INDOPACOM in recent fiscal years, instead choosing to fund projects that are specifically beneficial to the Service and not necessarily the joint theater mission. The agreement provides an additional \$50,000,000 for INDOPACOM planning and design and unspecified minor construction to advance critical projects.

Unfunded Priority Lists (UPL) and Future Years Defense Program (FYDP).—The Committees direct the Department of Defense and all Services, active and reserve components, as well as combatant commanders, as required by law, to submit updated UPL and FYDP lists to the congressional defense committees for military construction projects no later than 10 days after the transmission of the annual President's Budget. Combatant commanders are expected to include all unfunded priorities in their respective UPL, to include planning and design, unspecified minor construction, and major construction projects—regardless of which Service is the project executive agent.

Project Cost Increases.—The agreement provides \$2,449,069,000 in fiscal year 2023 to supplement discrepancies between outdated cost estimates and current cost estimates. The Committees are concerned that the Department is not being proactive in determining future cost increases when developing and submitting project cost estimates to Congress in the yearly President's budget request, FYDP, and UPLs. Therefore, the agreement directs the Department to implement practices to better address future cost increases, and in lieu of the direction to provide monthly cost adjustments in House Report 117–391, the agreement directs the Secretary of Defense, in consultation with the Services, and the U.S. Army Corps of Engineers and Naval Facilities Engineering Command to provide a report within 90 days of enactment on specific and repeatable steps taken to improve cost-estimating.

Integration of Innovative Construction Materials.—The Committees are aware of new and innovative building materials that are becoming more prevalent within the construction industry. The Committees are concerned that DOD continues to rely on traditional building materials, using standardized designs across the Department based on those same traditional materials and that the Unified Facilities Criteria (UFC) and Unified Facilities Guide Specifications (UFGS) are not up to date with innovative and sustainable assets. Therefore, the agreement directs the Assistant Secretary of Defense for Energy, Installations, and Environment to provide a report to the Committees within 180 days of enactment of this Act on its efforts to incorporate sustainable products into the UFC and UFGS, integrate sustainable building materials into its designs, and any resources needed to accomplish these efforts.

Laboratory Infrastructure.—The Committees continue to recognize the importance of DOD laboratory infrastructure and that investment is needed to modernize outdated science and technology laboratories and test and evaluation facilities, particularly where needed to address safety and environmental concerns on installations. Therefore, the agreement provides \$120,000,000 for planning and design, unspecified minor construction and authorized major construction projects to address unfunded laboratory requirements, as appropriated in Section 128.

Open Air Burn Pans.—No later than 180 days after enactment of this Act, the Department is directed to submit a report to the Committees detailing a plan to eliminate burning of hazardous materials, including open air burn pans, at installations located in the United States. Such a plan should detail at what installations each Service is still utilizing open-air burning, including burn pans, and

how the Department will transition away from the use of open-air burn pans.

MILITARY CONSTRUCTION, ARMY

The agreement provides \$1,553,825,000 for "Military Construction, Army", which is \$708,260,000 above the budget request. Within this amount, the agreement includes \$275,651,000 for study, planning, design, architecture, and engineering services, and host nation support. Pacific Firefighting Support.—The Committees remain concerned about the conditions of firefighting facilities from which Federal firefighters, Army Forestry Technicians, Army Wildland Firefighters, and Emergency Service Technicians work to support military installations in the State of Hawaii, including Pohakuloa Training Area, and encourage the Army to adequately resource necessary upgrades to these facilities.

MILITARY CONSTRUCTION, NAVY AND MARINE CORPS

The agreement provides \$4,345,320,000 for “Military Construction, Navy and Marine Corps”, which is \$592,929,000 above the budget request. Within this amount, the agreement includes \$515,473,000 for study, planning, design, architecture, and engineering services. Within the total for Military Construction, Navy and Marine Corps, \$492,929,000 is for the following projects in the following amounts:

State	Location	Project	Amount
AZ	MCAS Yuma	Water Treatment Plant: Planning and Design.	\$5,000,000
CA	Camp Pendleton	Child Development Center	32,100,000

VA	Norfolk Naval Shipyard	Child Development Center: Planning and Design.	2,300,000
WA	NAS Whidbey Island	Aircraft Airfield Pavement Improvements	68,100,000

Shipyard Infrastructure Optimization Plan (SIOP).—The Committees support SIOP and believe the restoration of deferred maintenance availabilities, along with the public shipyard dry dock investments, recommended by the plan are critical. The Committees urge the Secretary of the Navy to prioritize the timely funding of public shipyard infrastructure, and in particular, the dry dock and shore infrastructure necessary to support critical maintenance of surface and submarine fleets by public shipyards. Of note, after several years of delays and cancellations associated with the Waterfront Production Facility at Pearl Harbor Naval Shipyard, the

Committees urge the Navy to synchronize the construction schedule for the new facility with that of the Dry Dock 3 replacement. Additionally, the Committees expect clear communication from the Navy to the Committees regarding additional flexibilities or authorizations necessary to successfully coordinate with tribal governments for expeditious completion of SIOP. The Committees remain concerned that without additional authorities from Congress, the Navy risks delaying critical dry dock construction projects and harming its valuable relationships with tribal governments. Recognizing the importance of SIOP and the need to adequately resource the development of future projects, in addition to fully funding the budget request of \$1,260,185,000, the agreement further provides \$50,000,000 above the request for planning and design.

Navy Water Purification and Fuel Distribution Infrastructure.—The agreement includes an additional \$25,000,000 for the Navy for planning and design in order to advance future water treatment and bulk fuel distribution infrastructure. The Department is directed to submit a spend plan for these additional funds to the Committees no later than 60 days after enactment of this Act.

MILITARY CONSTRUCTION, AIR FORCE

The agreement provides \$2,614,996,000 for “Military Construction, Air Force”, which is \$559,540,000 above the budget request. Within this amount, the agreement includes \$251,634,000 for study, planning, design, architecture, and engineering services. Within the total for Military Construction, Air Force, \$509,540,000 is for the following projects in the following amounts:

Joint Intelligence Analysis Complex.—Understanding the critical importance of the Joint Intelligence Analysis Complex (JIAC) to the regional intelligence architecture of the United States and its partners, the Committees provide \$421,000,000 above the budget request for the construction of the complex, despite the late-in-cycle identification of the significant funding requirement as part of the Air Force's unfunded priorities list. The Committees are disappointed in the lack of prioritization the Air Force and Office of the Secretary of Defense have shown towards this project, despite its significant importance to national security and our allies in Europe and Africa. The Committees direct the Air Force, in coordination with the Office of the Secretary of Defense, to provide quarterly updates on the status of the obligation of funds for the construction of the JIAC. Further, the Committees direct the Office of the Secretary of Defense to provide a report to the Committees within 90 days of enactment of this Act, and a briefing to the Committees, on why the Services consistently fail to prioritize joint combatant command projects, and how these problems can be remedied.

Global Strike Command Security Gates.—The Committees remain concerned about deficient security gates at Air Force Global Strike Command installations, particularly as the Air Force plans to make significant investments in strategic weapons systems and weapons generation facilities at these bases. The Committees urge the Air Force to plan and program sufficient funding to address se-

curity gate deficiencies at these installations in its future years defense program.

MILITARY CONSTRUCTION, DEFENSE-WIDE
(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$2,626,078,000 for "Military Construction, Defense-Wide", which is \$209,680,000 above the budget request. Within this amount, the agreement includes \$506,927,000 for study, planning, design, architecture, and engineering services. Within the total for Military Construction, Defense-Wide, \$109,680,000 is for the following projects in the following amounts:

State	Location	Project	Amount
DE	Dover AFB	Armed Services Whole Blood Processing Laboratory-East Replacement: Planning and Design.	\$350,000
FL	MacDill AFB	SOF Joint MISO Web-Operations Facility: Planning and Design.	8,730,000
FL	MacDill AFB	SOF Operations Integration Facility	50,000,000
MO	Fort Leonard Wood	Hospital Replacement Inc. 5	31,300,000
NC	Fort Bragg	Albritton Middle School Addition: Planning and Design.	7,000,000
NC	Camp Lejeune	Lejeune Schools Modernization: Planning and Design.	6,600,000
SC	MCRD Parris Island	Ambulatory Care Clinic Replacement (Dental): Planning and Design.	4,800,000
SC	MCAS Beaufort	Fuel Pier Replacement: Planning and Design.	900,000

Energy Resilience and Conservation Investment Program (ERCIP).—The agreement supports DOD's investments in energy efficiency, resilience, renewable energy systems, and energy security, and as such provides a total of \$653,250,000 for ERCIP, an increase of \$100,000,000 above the request. The additional funds in section 131 will allow ERCIP to address cost increases from projects funded in the fiscal year 2022 enacted Act and fiscal year 2023 Act.

United States Southern Command (SOUTHCOM).—The Committees recognize that some facilities in SOUTHCOM, particularly at Naval Air Station Key West, which houses Joint Interagency Task Force-South (JIATF-S), are no longer in adequate condition due to aging, corrosive local climate, natural disasters, and lack of prioritization by the Services. The Committees also recognize that the installation is critical to SOUTHCOM's mission but requires some improvements, including increasing resilience and ensuring modernization. Therefore, the agreement directs the Department to submit a report no later than 120 days after enactment of this Act detailing the condition of all facilities at Naval Air Station Key West, the status of the new Command and Control Facility, as well as the Department's plan to update or replace facilities in poor condition across SOUTHCOM.

Stormwater Management Projects.—The Committees recognize that resilient built and natural infrastructure on and around military bases are essential in maintaining military readiness. The Committees also recognize the increasing variability of the frequency and intensity of precipitation globally and the need to miti-

gate flooding and runoff. The agreement supports the implementation of stormwater best management practices, but recognizes there is currently no dedicated, authorized DOD entity that prioritizes stormwater management projects on and off military installations. Therefore, the agreement directs the Department to conduct a feasibility study and submit a report no later than 180 days after enactment of this Act assessing the potential creation of a program that prioritizes stormwater management projects in order to enhance resilience and improve water quality in stormwater-stressed ecosystems, where the Department has restoration partnership obligations, and where land subsidence and the expansion of non-permeable surfaces exacerbate flooding on and around military bases.

MILITARY CONSTRUCTION, ARMY NATIONAL GUARD

The agreement provides \$459,018,000 for "Military Construction, Army National Guard", which is \$161,740,000 above the budget request. Within this amount, the agreement includes \$83,435,000 for study, planning, design, architecture, and engineering services. Within the total for Military Construction, Army National Guard, \$151,540,000 is for the following projects in the following amounts:

State	Location	Project	Amount
AK	JB Elmendorf-Richardson	Aircraft Maintenance Hangar	\$63,000,000

The Committees encourage the Army National Guard to allocate sufficient funding to address such facilities in future budget requests.

DEPARTMENT OF VETERANS AFFAIRS

ITEMS OF INTEREST

Unobligated Balances of Expired Discretionary Funds.—The Department is directed to submit to the Committees on Appropriations quarterly reports detailing all unobligated balances of expired discretionary funds by fiscal year.

Asset and Infrastructure Review.—The agreement provides no funding for the Asset and Infrastructure Review account given the Asset and Infrastructure Review Commission was not seated. As the Department moves forward with the quadrennial market assessments and Strategic Capital Investment Planning Process, when recommending future infrastructure changes the Department is urged to focus on maintaining or improving veterans' access to medical care nationwide, including in dense urban or rural areas. In addition, the Department should consider how any changes could create additional barriers to care (e.g., increased travel time).

Foreign Medical Program.—The agreement urges the Department of Veterans Affairs (VA) to take steps to ensure that the Foreign Medical Program better meets the needs of veterans living overseas, particularly in remote and underserved areas like the Freely Associated States. The agreement further notes that information technology improvements, such as facilitating electronic payment of reimbursements, have great potential to improve the program for veterans, and urges the Department to prioritize these projects.

Expenditure Plan for Leases and Enhanced-Use Leases.—The agreement directs the Department to provide no later than 60 days of enactment of this Act, a detailed expenditure plan for the funds appropriated in sections 705 and 707 of Public Law 117–168, to enter into enhanced-use leases and major medical facility leases. The plan should be to the project level, reflect obligations and expenditures to date, and be updated on at least an annual basis until the funds are fully expended.

TOXIC EXPOSURES

The Committees remain concerned by the long history of servicemembers being exposed to toxic substances, including Agent Orange, radiation, per- and polyfluoroalkyl substances (PFAS), and open burn pits, and continue to urge the Department to make progress in how it addresses toxic exposures, particularly with regards to research, improving clinical efforts, and ensuring veterans are receiving the disability and compensation benefits that they

have earned. The Committees note the landmark step forward taken with the recently enacted Sergeant First Class Heath Robinson Honoring our Promise to Address Comprehensive Toxics (PACT) Act of 2022 (P.L. 117–168), and encourage VA to ensure it is considering and addressing all varieties of toxic exposures, including herbicides, that affect veterans of all eras of service, including Gulf War veterans.

Gender-Specific Impacts of Toxic Exposure.—The Committees recognize the gender-specific impacts of toxic exposure and direct the Department to ensure gender-specific research on women veterans is included in its research efforts and that sufficient numbers of women veterans are included in research studies, as well as considering options to incorporate gender-based differences into the Department's Center of Excellence work, as directed in House Report 117–391.

Airborne Hazards and Burn Pits Center of Excellence.—To assist in better understanding the effects of exposure to open burn pits and airborne hazards on the health of veterans, the agreement provides \$15,000,000 for the Airborne Hazards and Burn Pits Center of Excellence.

Medical Research on Burn Pit Exposure.—The Department is urged to partner with DOD to coordinate and share research on airborne hazards from open-air burn pits and its impact to servicemembers and veterans. The Departments are encouraged to enter into a memorandum of understanding for research on identifying and treating the health outcomes following exposure of servicemembers to airborne hazards from open-air burn pits, including utilizing information gathered through the VA's Airborne Hazards and Open Burn Pit Registry.

Adjusted Rulemaking Process.—The Department is directed to provide a report to the Committees on Appropriations no later than 1 year after enactment of this Act on the timeline under which the Department plans to use the new rulemaking process to undertake a review of evidence related to toxic exposures of veterans who served at Ft. McClellan, Alabama.

Million Veterans Program.—The agreement encourages the Million Veterans Program to support research utilizing emissions data that was collected and catalogued for the Department of Defense during Overseas Contingency Operations/Global War on Terror to help in identifying the potential long-term health consequences of exposure to burn pit emissions and environmental pollutants for servicemembers.

Additionally, the Department is directed to include in any report to Congress describing animal research approved under Sec. 247 of this Act detail on what specific alternatives to animals were considered, why those alternatives were not chosen, and therefore supporting why these animal subjects are the only viable option for this research.

Access to Clinical Oncology Trials.—The Committees continue to support the ongoing collaborative efforts between VA medical centers and National Cancer Institute (NCI)-designated comprehensive cancer centers, but note the lack of infrastructure for clinical trials in other areas of the country. The Committees note the budget request has highlighted expanding access to oncology clinical trials as a priority for fiscal year 2023 and direct that not less than

VETERANS ELECTRONIC HEALTH RECORD

The agreement provides \$1,759,000,000 for Veterans Electronic Health Record for activities related to the development and rollout

of VA's Electronic Health Record Modernization (EHRM) initiative, the associated contractual costs, and the salaries and expenses of employees hired under titles 5 and 38, United States Code. The agreement makes 25 percent of funds contingent upon the Secretary, within specified deadlines: (1) providing a report detailing the status of outstanding issues impacting the stability and usability of the new electronic health record (EHR) system, including those that contributed to deployment delays, along with a timeline and measurable metrics; (2) certifying and detailing any changes to the full deployment schedule; and (3) certifying the status of outstanding issues impacting the stability and usability of the system, and whether the system is ready and optimized for further deployment at VA sites.

While the Committees remain supportive of the need to modernize VA's electronic health record system, there continue to be wide-ranging and alarming implementation issues with the new system, including serious usability problems that have led to or contributed to instances of patient harm and reduced employee productivity. The Committees support the Department's decision to pause further deployments to address problems with the new system and improve the operation at existing sites. The Committees are hopeful that the Department will resolve outstanding issues expeditiously and in a manner that will allow the Department to resume rollout of the new system safely and efficiently in Summer 2023, as planned.

The agreement continues quarterly reporting of obligations, expenditures, and deployment schedule by facility. The Committees expect the Department to continue monthly briefings on program implementation, including updates on progress resolving outstanding issues, and to provide quarterly updates to review timelines, performance milestones, implementation, and change management progress. The agreement continues to direct the Government Accountability Office to conduct quarterly performance reviews of EHRM deployment and to report to the Committees each quarter.

Cost and Budget Estimates.—The agreement directs the Department to clearly identify all costs related to EHRM implementation, including those that would be incurred in other budget accounts, in meeting the reporting requirements above and in the justifications accompanying the President's budget request. The Department is expected to provide to the Committees an updated Life Cycle Cost Estimate for the program, taking into account the recent estimate provided by the Institute for Defense Analyses. At least annually, the Department is directed to provide a report to the Committees comparing current estimated costs to the revised Life Cycle Cost Estimate.

Patient Harm and Transparency.—The agreement reiterates the direction provided in House Report 117–391, acknowledges the initial report provided by the Department, and expects to receive the other report directed under this heading in House Report 117–391 within 90 days of enactment of this Act.

Additional EHRM Oversight.—In addition, the agreement directs the Department to provide a report to the Committees no later than June 1, 2023, detailing steps taken to: (1) revise and enhance

the EHR training program; (2) independently validate the efficacy of the super user program and the training for such program; (3) ensure proper medication management and accurate patient data through such record; (4) demonstrate that patient record flags that identify veterans who are at high risk for suicide are properly displayed in such record; and (5) implement a policy for regular updates to affected employees about progress on and estimated completion dates for issues arising from trouble tickets.

For each site using the new EHR, the agreement directs the Department to periodically report to the Committees on changes to staffing levels, productivity compared to pre-implementation levels, and wait times for access to VA care and care in the community. The Department is strongly discouraged from retaliation against employees who raise patient safety concerns related to EHRM activities.

OFFICE OF INSPECTOR GENERAL

The agreement does not provide the requested new authority for VHA land acquisition.

Construction Program.—The agreement encourages the Department to take into account whether States have a full-service VA medical facility when determining which projects to fund.

Cost Increases.—Recognizing the challenges of inflation and supply chain shortages, the agreement encourages the Department to adequately resource the completion of existing construction projects, including CHIP-IN for Vets Act projects.

Recurring Expenses Transformational Fund.—The agreement supports the Department's plan to allocate \$804,510,000 of the Recurring Expenses Transformational Fund balances to support construction projects in Portland, OR; Canandaigua, NY; Fort Harrison, MT; and for other purposes.

The agreement funds the following items requested in the budget submission:

The agreement provides \$626,110,000 for Construction, Minor Projects. The agreement makes this funding available for five years, except that \$62,611,000 is made available until expended. The agreement supports the allocation included in the budget request, providing \$344,245,000 for the Veterans Health Administration, \$157,265,000 for the National Cemetery Administration, \$30,000,000 for the Veterans Benefits Administration, and \$94,600,000 for staff offices (including the Office of Information Technology). The agreement directs the Department to provide an expenditure plan to the Committees no later than 30 days after enactment of this Act.

GRANTS FOR CONSTRUCTION OF VETERANS CEMETERIES

The agreement provides \$50,000,000 for Grants for Construction of Veterans Cemeteries, to remain available until expended.

COST OF WAR TOXIC EXPOSURES FUND

The agreement provides \$5,000,000,000 in direct spending for the Cost of War Toxic Exposures Fund (the Fund) established to support new costs related to providing veterans and their families the benefits and care associated with the eligibility expansion included in the Honoring our PACT Act of 2022 (P.L. 117-168). The combination of these funds and those made available through discretionary appropriations in this Act and through other sources, fully support the administration's request to implement the PACT Act in fiscal year 2023, including to address increased demand for health care and benefits, and reflect the expedited implementation schedule announced by the President on August 10, 2022. The agreement does not shift discretionary resources to the Fund.

The intent of the Fund is to address the costs associated with implementing the PACT Act, including additional future eligibilities that result from the process changes enacted. This Fund is intended to be used to cover the costs of care and delivery of benefits that are related to toxic exposure. The appropriations provided in this Fund supplement VA's ongoing efforts to provide toxic exposure-related healthcare or other benefits that VA had authority for prior to passage of the PACT Act.

The agreement requires an expenditure plan to be submitted to the Committees on Appropriations. This expenditure plan is critical to ensure proper usage of the Fund, and will inform future budget estimates, including those from the Congressional Budget Office, on exactly how the Fund will be applied.

TITLE III RELATED AGENCIES

AMERICAN BATTLE MONUMENTS COMMISSION

SALARIES AND EXPENSES

The agreement provides \$87,500,000 for Salaries and Expenses of the American Battle Monuments Commission (ABMC), an increase of \$700,000 above the budget request. The additional funds will allow ABMC to not only maintain the cemeteries and monuments honoring America’s war dead, but also to preserve and communicate these veterans’ stories of courage and sacrifice.

The agreement provides such sums as necessary for the Foreign Currency Fluctuations Account.

UNITED STATES COURT OF APPEALS FOR VETERANS CLAIMS SALARIES AND EXPENSES

The agreement provides \$46,900,000 for Salaries and Expenses for the United States Court of Appeals for Veterans Claims (CAVC). The funding supports a planned expansion of CAVC’s authorization for additional judges, which will help address growing caseloads.

Evaluating Recurring Appeals Issues.—The Committees are concerned certain issues involving veterans' claims continue to surface on appeals to the CAVC. Veterans who disagree with a VA decision may seek another review by the Administration of jurisdiction, e.g., the Veterans Benefits Administration, or they may appeal to the Board of Veterans' Appeals (BVA). After a BVA decision, veterans may further appeal to the first tribunal beyond the confines of VA—the CAVC. Despite multiple layers of review at the Administration or BVA, and despite years of remands, the CAVC reportedly sees recurring issues with how VA processes a veteran's claim. Therefore, the agreement directs the CAVC to provide a report to the Committees within 90 days of enactment of this Act on the recurring issues the Court addresses in VA decisions, and the impact it has on the quality or timeliness of a veteran's claim.

DEPARTMENT OF DEFENSE—CIVIL

CEMETERIAL EXPENSES, ARMY

DIVISION K—DEPARTMENT OF STATE, FOREIGN OPERATIONS, AND RELATED PROGRAMS APPROPRIATIONS ACT, 2023

The explanatory statement accompanying this division is approved and indicates congressional intent. In implementing this agreement, Federal departments, agencies, commissions, and other entities are directed to comply with the directives, reporting requirements, and instructions contained in the H. Rept. 117–401 (House report) accompanying H.R. 8282 (House bill) as though stated in this explanatory statement, unless specifically directed to the contrary.

This explanatory statement, while repeating some House report language for emphasis or clarification, does not negate language in such report unless expressly provided herein. Language expressing an opinion or making an observation in the House report represents the view of the House committee unless specifically endorsed in this explanatory statement.

Reports required to be submitted pursuant to the Act, including reports required by this explanatory statement and the House report, may not be consolidated to include responses to multiple requirements in a single report, except following consultation with the Committees on Appropriations.

For purposes of this explanatory statement, the term “the Act” means the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2023, and the term “prior Acts” means prior Acts making appropriations for the Department of State, foreign operations, and related programs. In addition, “division K of Public Law 117–103” means the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2022; “division K of Public Law 116–260” means the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2021; “division G of Public Law 116–94³” means the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2020; “division F of Public Law 116–6” means the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2019; “division J of Public Law 115–31” means the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2017; and “division K of Public Law 114–113” means the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2016.

¹This Explanatory Statement was submitted for printing in the Congressional Record on December 20, 2022 by Mr. Leahy of Vermont, Chairman of the Senate Committee on Appropriations. The statement appears on page S9285 of Book II.

For the purposes of the Act, the term “regular notification procedures of the Committees on Appropriations” shall mean such Committees must be notified not less than 15 days in advance of the initial obligation of funds, and the term “reporting procedures of the Committees on Appropriations” shall mean a report must be provided to such Committees not more than 90 days after the conclusion of fiscal year 2023.

Federal agencies funded by the Act shall notify the Committees on Appropriations of any reprogramming, as required by section 7015 of the Act, at the most detailed level of the Congressional Budget Justification (CBJ), the Act, or this explanatory statement.

Section 7015(c) of the Act requires that any notification submitted pursuant to subsection (f) of such section include information, if known on the date of transmittal of such notification, on the use of notwithstanding authority. The Secretary of State and Administrator of the United States Agency for International Development (USAID), as appropriate, shall include in such notifications detailed information on the provisions of law being notwithstanding and a justification for the use of such authority.

Congressional notifications submitted by the heads of the Federal agencies funded in the Act for funds that are being reallocated prior to initial obligation, reprogrammed, or reobligated after deobligation, shall, to the maximum extent practicable, contain detailed information about the sources of the funds and why such funds are no longer needed or intended to be used as previously justified.

The Secretary of State and USAID Administrator are directed to submit notifications for the obligation of funds made available by the Act and prior Acts not later than 60 days prior to the expiration of such funds.

Section 7019 of the Act requires that amounts designated in the respective tables included in this explanatory statement for funds appropriated in titles III through V, including tables in title VII, shall be made available in the amounts designated, unless otherwise provided for in the Act, and shall be the basis of the report required by section 653(a) of the Foreign Assistance Act of 1961 (FAA) (653(a) report), where applicable. In lieu of the funding tables and allocations of funding contained in the House report, the tables and allocations contained in this explanatory statement shall guide departments, agencies, commissions, and other entities when allocating funds. The Act provides that the amounts designated in the tables shall be made available notwithstanding the date of the transmission of the 653(a) report. The authority of section 7019(b) to deviate by more than 10 percent shall not be used to deviate to zero unless such funds cannot be legally obligated or conditions are such that such deviation is directly related to the national security interest of the United States.

Proposed deviations from tables in titles I and II in this explanatory statement are subject to the regular notification procedures of the Committees on Appropriations unless an exception or deviation authority is specifically provided in the Act or this explanatory statement.

The Secretary of State and the USAID Administrator shall continue to provide the Committees on Appropriations electronic cop-

ies of all reports, notifications, spend plans, and any other documents required by the Act, prior Acts, this and prior explanatory statements and statements of managers, the House report, and prior House and Senate reports.

For purposes of the Act and this explanatory statement, the term “prior consultation” means a pre-decisional engagement between a relevant Federal agency and the Committees on Appropriations during which such Committees are given a meaningful opportunity to provide facts and opinions, in advance of any public announcement, to inform: (1) the use of funds; (2) the development, content, or conduct of a program or activity; or (3) a decision to be taken. Additionally, section 7020 of the Act includes specific requirements regarding multi-year pledges.

Notwithstanding authority included in any provision of the Act shall not be construed to exclude the requirements of such provision.

Pursuant to section 7016(b), any Federal agency receiving funds made available by the Act shall post on its publicly available website any report required by the Act not later than 45 days following the receipt of such report by Congress. This requirement does not apply if: (1) the public posting of the report would compromise national security, including the conduct of diplomacy; (2) the report contains proprietary or other privileged information; or (3) the public posting of the report is specifically exempted in the House report or this explanatory statement.

For purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99–177), with respect to appropriations contained in the Act, the term “program, project, and activity” (PPA) means any item for which a dollar amount is specified in the Act or this explanatory statement. In addition, the definition of PPA in section 7023 of the Act shall apply to the accounts listed in that section. In carrying out any Presidential sequestration, Federal agencies funded by the Act shall conform to the definition of PPA described in this paragraph.

In submitting annual CBJs, each Federal agency funded by the Act shall include detailed information on all available resources, including estimated prior fiscal year unobligated balances and recoveries, reimbursable agreements, funds transferred pursuant to section 632(a) and (b) of the FAA and significant uses of the Economy Act (31 U.S.C. 1535). Agencies that use a Working Capital Fund (WCF) shall include in CBJs the total budgetary resources for each office that receives funds from a WCF, and include a table on WCF resources that will serve as a baseline for reprogramming and transfer purposes. CBJs shall also include estimated savings from any proposed office or mission closure or reorganization, elimination of special envoys and other senior level special representatives, and actual prior fiscal year representation and entertainment expenses for each department and agency where such expenses are authorized. Spend plans submitted pursuant to section 7062(b) of the Act shall: (1) include all intended sources of funds made available by the Act and any other resources, as applicable, for such program; and (2) conform to the definition of such plan under section 7034(s)(4) of the Act.

Consistent with prior fiscal years, none of the funds made available by the Act may be used to send or otherwise pay for the attendance of more than 50 employees of Federal agencies who are stationed in the United States at any single international conference occurring outside the United States, unless the Secretary of State reports to the appropriate congressional committees at least 5 days in advance that such attendance is important to the national interest.

For purposes of this restriction, the term “international conference” means a conference attended by representatives of the United States Government and of foreign governments, international organizations, or nongovernmental organizations (NGOs).

Federal agencies funded by the Act shall not provide bonuses to government contractors who fail to complete their contract in a satisfactory manner, including as a result of avoidable scheduling delays or cost overruns.

The agreement does not endorse directives under certain House report headings: *Non-discrimination policies* (under Operating Expenses); and Assistance Priorities under section 7045 regarding funding for violence prevention programs at Mexico’s northern border.

In addition to amounts in this division, the agreement includes \$16,565,000,000 in division M to respond to the situation in Ukraine and in countries impacted by the situation in Ukraine and for additional support and assistance for other operations, vulnerable populations, and communities.

(c)(1) Within 15 days of the issuance of the Real Estate Assessment Center ("REAC") inspection, the Secretary shall provide the owner with a Notice of Default with a specified timetable, determined by the Secretary, for correcting all deficiencies. The Secretary shall provide a copy of the Notice of Default to the tenants, the local government, any mortgagees, and any contract adminis-

(I) take any other regulatory or contractual remedies available as deemed necessary and appropriate by the Secretary.

(d) The Secretary shall take appropriate steps to ensure that project-based contracts remain in effect, subject to the exercise of contractual abatement remedies to assist relocation of tenants for major threats to health and safety after written notice to the affected tenants. To the extent the Secretary determines, in consultation with the tenants and the local government, that the property is not feasible for continued rental assistance payments under such section 8 or other programs, based on consideration of—

(1) the costs of rehabilitating and operating the property and all available Federal, State, and local resources, including rent adjustments under section 524 of the Multifamily Assisted Housing Reform and Affordability Act of 1997 (“MAHRAA”); and

(2) environmental conditions that cannot be remedied in a cost-effective fashion, the Secretary may contract for project-based rental assistance payments with an owner or owners of other existing housing properties, or provide other rental assistance.

DIVISION L—TRANSPORTATION, HOUSING AND URBAN DEVELOPMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2023

CONGRESSIONAL DIRECTIVES

The joint explanatory statement accompanying this division is approved and indicates congressional intent. Unless otherwise noted, the language set forth in House Report 117–402 carries the same weight as language included in this joint explanatory statement and should be complied with unless specifically addressed to the contrary in this joint explanatory statement. While some language is repeated for emphasis, it is not intended to negate the language referred to above unless expressly provided herein. In cases where the House has directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations. The Department of Transportation [DOT] and the Department of Housing and Urban Development [HUD] are directed to notify the House and Senate Committees on Appropriations seven days prior to the announcement of a new program, initiative, or authority. Any reprogramming requests must be submitted to the Committees on Appropriations no later than June 30, 2023.

For fiscal year 2023, the terms “program, project, and activity” [PPA] shall mean any item for which a dollar amount is contained in this act, House Report 117–402, or this joint explanatory statement. The table in the operating plan required by House Report 117–402 shall apply to all items for which a dollar amount is specified and to all programs for which new budget (obligational) authority is provided, as well as to discretionary grants and discretionary grant allocations.

CONGRESSIONAL BUDGET JUSTIFICATIONS

The agreement directs each agency to include within its budget justification a report on all efforts made to address the programmatic duplication identified by the annual Government Accountability Office [GAO] reports along with legal barriers preventing the agency's ability to further reduce duplication and legislative recommendations, if applicable.

¹ This Explanatory Statement was submitted for printing in the Congressional Record on December 20, 2022 by Mr. Leahy of Vermont, Chairman of the Senate Committee on Appropriations. The statement appears on page S9325 of Book III.

TRANSPARENCY REQUIREMENT

The agreement directs the Secretary of Transportation to follow recommendations suggested by the GAO in the GAO-19-541 report and issue a department-wide directive to promote transparency and fairness by establishing uniform procedures to be followed by the DOT in reviewing and selecting discretionary grants. The Secretary shall report to the House and Senate Committees on Appropriations within 90 days of the enactment of this act.

The agreement directs the agencies in this act to state within the text, audio, or video used for new advertising purposes, including advertising/posting on the Internet, that the advertisements are printed, published, or produced and disseminated at U.S. taxpayer expense, with exemptions for safety or conflicts with the agency's ability to carry out their statutory authority.

The agreement directs agencies to collect data on what information Federal grant recipients currently include in the public documents announcing the grant award to determine whether recipients of funding in this act could comply with the Stevens amendment (section 505 of title V, division H of Public Law 115-141) without unreasonable burden.

AUDIT STANDARDS

For all contract actions, including awards, renewals, and amendments, Departments and agencies provided funding in this act shall require any accounting firm providing financial auditing or audit remediation services to provide a statement setting forth the details of any disciplinary proceedings occurring within 1 year of the projected performance period related to noncompliance with rules or laws applying to audit services.

FEDERALLY FUNDED RESEARCH

The agreement urges the Departments funded under this division to affirmatively determine and make available on a publicly accessible website a justification that Federally funded research grants or agreements promote the progress of science in the United States or will advance a national security or economic interest.

HUMAN TRAFFICKING

The agreement encourages the DOT to continue efforts to combat human trafficking through the transportation leaders against human trafficking initiative and the blue lightning initiative. The agreement encourages prioritizing grants from the Federal Transit Administration's [FTA] 5307 program and the Federal Aviation Administration's [FAA] airport improvement program to transit pro-

OPERATIONS

(AIRPORT AND AIRWAY TRUST FUND)

The agreement provides \$11,915,000,000 for the operations of the Federal Aviation Administration [FAA], to remain available until September 30, 2024. Of the total amount provided, \$9,993,821,000

is to be derived from the airport and airway trust fund. The act distributes funds by budget activity. The agreement does not include the realignment included in the budget request. The FAA is directed to include in its fiscal year 2023 operating plan and fiscal year 2024 budget request any carryover and how it plans to use these unobligated balances.

The agreement continues to direct the FAA to report immediately to the House and Senate Committees on Appropriations in the event resources are insufficient to operate a safe and effective air traffic control system, and appreciates the FAA's efforts to inform the committees of additional funding needs in fiscal year 2023 for controller hiring and training. The FAA has had to reduce its hiring targets for air traffic controllers [ATCs] in fiscal years 2021 and 2022 due to COVID-19, and staffing levels in certain high demand facilities remain a challenge. Funding from previous fiscal years intended for hiring new ATCs was redirected to personal safety supplies and necessary COVID-19 cleanings, in order to protect the workforce, as well as for additional costs associated with COVID-19 related leave. As a result, the agreement allows the FAA to increase the number of new air traffic controllers by up to 480 above the levels included in the 2022–2031 ATC controller workforce plan [CWP]. The FAA may use air traffic organization [ATO] contract savings and reductions in discretionary adjustments from the President's budget request that are not referenced elsewhere in this joint explanatory statement to pay for this increased controller staffing level. Funding is also included in the facilities and equipment account for increased air traffic simulator training.

As a condition of this increase, the FAA is directed to brief the House and Senate Committees on Appropriations on a quarterly basis on: (1) the status of hiring for all new controllers funded in this bill; (2) actual staffing levels, including hiring and separation levels, at all ATC facilities; and (3) flight delays at each ATC facility by category. The FAA is also working through the collaborative resource workgroup [CRWG] to improve the process for determining controller staffing targets that may be included in the annual CWP. All relevant stakeholders, as determined by the Secretary, should be a part of the overall process.

The FAA is reminded that the annual CWP serves as the basis of the House and Senate Committees on Appropriations' funding recommendations every year, should reflect the Administration's budget request, and should be submitted solely by the Administrator of the FAA. For the 2023–2032 CWP, the FAA shall provide both total and facility specific data based on the current staffing standard and may include additional data from the CRWG process for comparative purposes. The 2023–2032 CWP should also include end of fiscal year 2022 counts of certified professional controllers [CPC], CPCs in training, and developmental controllers by facility. The agreement directs the FAA to brief the House and Senate Committees on Appropriations on the methods used to determine the controller staffing targets for the 2023–2032 CWP upon its submission. The FAA is also directed to update the House and Senate Committees on Appropriations within 30 days of enactment of this act on the open recommendations from the Office of Inspector General's reports AV2019013 and AV2021035.

Advanced air mobility [AAM].—The agreement recognizes the FAA's ongoing work on AAM and encourages the FAA to provide a transparent framework and requirements to stakeholders for the safe use of AAM in the future. The agreement further recognizes that the FAA has committed to completing the proposed special Federal aviation requirement which will enable commercial operations and pilot licensing in a manner by December 31, 2024.

Air traffic control privatization.—The agreement does not support any efforts to transfer the FAA's air traffic functions to a not-for-profit, independent, private corporation.

Aircraft Certification, Safety, and Accountability Act [ACSA].—The FAA is directed to provide all reports and briefings that are mandated by ACSAA to the House and Senate Committees on Appropriations. The agreement directs the FAA to notify the House and Senate Committees on Appropriations of any significant difference identified by the GAO report GAO-22-104480 between the U.S. and the European Union in approving new designs of commercial transport airplanes that warrant changes to the FAA's processes.

Aircraft certification.—The agreement provides not less than \$320,457,000 for aircraft certification service, and the FAA may use these funds to ensure the certification and safety of products and technologies that could reduce noise and emissions worldwide. The agreement expects the FAA to continue its efforts on training safety oversight personnel involved in the certification process through opportunities for knowledge-sharing, including demonstration projects, between the FAA and industry, and access to the FAA training for the FAA employees and other individuals performing oversight work on behalf of the agency.

Commercial space operations.—The agreement includes \$37,854,000, an increase of \$5,384,000 above the fiscal year 2022 enacted level, and includes up to 40 new positions for launch and reentry licensing activities and human spaceflight activities. The agreement directs the FAA to report within 90 days of enactment of this act to the House and Senate Committees on Appropriations on its efforts to integrate commercial space operations into the national airspace system [NAS], data on delays to commercial airline flights resulting from commercial space operations, and an evaluation of the impact of commercial space operations on the environment and communities.

Community engagement and noise.—The agreement includes the requested increase of \$1,308,000 and four new positions for community engagement to address aviation noise issues, including funding for technical and analytical support services to help address noise issues for communities that may not have such expertise themselves. The FAA should place retiring air traffic controllers in positions that can provide the necessary technical expertise to noise impacted communities.

Contract towers.—The agreement provides not less than \$187,800,000 for the contract tower program, and directs the FAA to continue to operate all contract towers currently in the program and to expeditiously add qualified eligible airports. The agreement also directs the FAA to provide flexibility to contract towers at small-hub airports with unique terrain and winter weather chal-

lenges so that each contract tower includes a minimum of two controllers during all regularly scheduled commercial flights, where permissible under current law.

Contracting.—The agreement urges the FAA to close all open recommendations from the Office of Inspector General report ZA2020020 and directs the FAA to brief the House and Senate Committees on Appropriations on any open recommendations from the Office of the Inspector General report ZA2017098.

Cybersecurity.—The agreement includes the requested increase of \$24,926,000 and 26 new positions for cybersecurity.

FAA public hearing.—The agreement notes that the recent proposal to modify the condor 1 and condor 2 military operating areas has been withdrawn. However, the agreement remains concerned with any potential proposals to modify these military operating areas and encourages the FAA to work with its partner agencies by holding a public hearing with representatives from the relevant Federal agencies in western Maine if any such proposal is issued. Should any similar proposal be issued, the agreement directs the FAA to report to the House and Senate Committees on Appropriations prior to the issuance of a record of decision regarding any modification of the condor 1 and condor 2 military operations areas that includes a summary of any public meetings and hearings and a list of the comments, questions, and responses presented at these meetings and hearings.

Helicopter safety.—The FAA is expected to respond to and address all National Transportation Safety Board [NTSB] recommendations from the final report on the December 26, 2019 air tour helicopter crash in Kekaha, Hawaii. The FAA is also strongly urged to develop a cue-based training program for commercial air tour pilots in Hawaii that specifically addresses hazardous aspects of local weather phenomena and inflight decision-making.

The agreement also continues to provide \$5,000,000 for efforts to improve helicopter safety and directs the FAA to brief the House and Senate Committees on Appropriations within 120 days of enactment of this act on an execution strategy, including program structure, phased plan, schedule with milestones, deliverables, and barriers to completion.

Infill radar.—The agreement directs the FAA to provide a briefing the House and Senate Committees on Appropriations on efforts to certify infill radar for use in the NAS to mitigate wind farm interference on the North American aerospace defense command's radars and the FAA ATC radars as soon as possible.

Mitigating radar gaps for high-traffic airports.—The FAA shall brief the House and Senate Committees on Appropriations on the feasibility and challenges of increasing staffing and/or providing terminal radar approach control facility services at airports in the mountain west where fire management air traffic contributes to airspace congestion and where inadequate radar coverage is limiting airport capacity for commercial, military, and fire management air traffic.

Radio altimeters and 5G.—The FAA is directed to immediately notify Congress of any anticipated disruptions to the aviation system due to further implementation of 5G and to continue its collaboration with other Federal agencies and industry stakeholders

to mitigate disruptions caused by the 5G rollout in order to maintain a safe and efficient national airspace as additional telecommunications companies deploy 5G. These efforts should be achieved in a mutually beneficial and reasonable timeline that accounts for unpredictable contingencies.

The agreement directs the FAA to continue altimeter research and support voluntary forums with industry partners in order to establish new performance standards that consider the future of 5G, 6G, 7G, and beyond. The agreement directs the FAA to brief the House and Senate Committees on Appropriations on its assessment of current radio altimeter technologies, including filters and other redesigns to reduce their susceptibility to potential 5G interference, and the extent to which such technologies can accommodate all future desired uses of C-band spectrum adjacent to the radar altimeter band. The FAA's assessment should be based on feedback from airlines, airports, the telecommunications industry, and radio altimeter manufacturers on the limits of current technologies, the need for future research, the extent to which industry is already investing in such research, and any research and development activities that the FAA can conduct and/or sponsor to prepare for 6G, 7G, and beyond.

Small unmanned aircraft systems [UAS] procurement.—For any acquisition of small UAS using funds provided by the FAA, including those to Federal grant recipients, the FAA should require certification of review of the Department of Homeland Security [DHS] industry alert, and any subsequent and relevant UAS guidance, and completion of a risk assessment that considers the proposed use of the foreign-made UAS. The agreement directs the FAA to regularly brief the House and Senate Committees on Appropriations, on an as needed basis, on any security risks or challenges identified by either agency from any small UAS or UAS components.

Spaceports.—Not more than 180 days after the submission of the report to Congress required by section 580 of the FAA Authorization Act of 2018 on national spaceports policy, the FAA shall submit an assessment to the House and Senate Committees on Appropriations of the effectiveness and suitability of existing infrastructure grant programs at the DOT and other Federal agencies that could be used for spaceports in a manner consistent with the section 580 report.

Special use airspace.—The agreement directs the FAA to continue its efforts to improve airspace sharing with the Department of Defense [DOD] for special use airspace.

Strengthen aviation safety oversight.—The agreement provides the requested increase of \$11,397,000 and 110 new positions to help the FAA keep pace with a growing number of safety issues, including oversight of air carrier aircraft maintenance, general aviation repair facilities, and contract towers, as well as the growing role of the FAA's medical officers.

Technical operations.—Within the air traffic organization, the agreement includes the requested level of funding for technical operations to ensure a sufficient number of personnel with the appropriate skill mix to keep facilities and equipment in working order.

UAS beyond visual line of sight [BVLOS].—Instead of the requirement in House Report 117–402 to provide a BVLOS rulemaking plan no later than October 1, 2022, the agreement directs the FAA to engage with UAS stakeholders to inform them of its proposed UAS BVLOS rulemaking schedule, the challenges associated with this rulemaking, and any differences between the proposed rulemaking and the BVLOS aviation rulemaking committee's [ARC's] recommendations. The agreement also directs the FAA to brief the House and Senate Committees on Appropriations within 60 days of enactment of this act on: (1) its plans to align policies that do not require rulemaking, including issuance of waivers, with the proposals recommended in the BVLOS ARC report; and (2) its plans to issue guidance providing accelerated pathways to enable low-altitude operations under existing rules, such as standard scenarios or pre-defined risk assessments.

UAS test sites.—The agreement includes \$6,000,000 for providing matching funds to commercial entities that contract with an FAA-designated UAS test site.

Unfinished rulemaking.—The agreement directs the FAA to brief the House and Senate Committees on Appropriations on the unfinished rulemaking related to the safety of foreign repair stations and the rulemaking required by section 102 of the ACSAA within 30 days of enactment of this act. The rulemaking required by section 102 of the ACSAA is expected to be scalable and flexible for operations of various sizes, and expected to include specifics on how it can be implemented.

Workforce diversity.—Of the amount provided for staff offices, the agreement includes not less than \$5,000,000 for the minority serving institutions internship program, which the FAA should continue to grow and manage in a cost-effective manner.

Terminal air traffic control facilities—replace.—The agreement directs the FAA to continue working to address aging and antiquated air traffic control facilities that it leases from airport authorities to ensure they are fully compliant with current building codes consistent with being occupied by air traffic controllers. The agreement directs the FAA to consider creative financing options and to include consideration of long-term cost recovery leases, when conditions warrant the construction of new air traffic control towers. Funding above the budget request is for the purposes and amounts specified in the table entitled “Community Project Funding/Congressionally Directed Spending” [CPF/CDS] included in this joint explanatory statement. CPF/CDS funding shall not diminish or prejudice the application of a specific airport or geographic region to receive other discretionary grants or multi-year letters of intent.

Standard terminal automation replacement system [STARS].—The FAA may consider including funding for STARS enhancements 2 and multi-platform ATC re-hosting solutions display platform advancements upon conducting an investment analysis to determine the most optimal solution.

Landing and lighting portfolio.—The agreement includes \$72,900,000 and supports the FAA’s work to modernize and enhance navigation aids [NavAids] monitoring and control capabilities in air traffic control towers. The agreement includes \$10,000,000 for instrument landing systems and \$10,000,000 for precision approach path indicators. The FAA shall train existing technical staff and hire additional staff if necessary to install these critical systems. The FAA may use established contractors to augment FAA resources if necessary. The FAA should also refresh the software and technology of NavAids control and monitoring systems, which provide real time, mission critical capabilities, and enhance situational awareness, safety, and efficiency in managing air traffic.

Military operations areas.—Radar and future NextGen systems capable of controlling airspace down to 500 feet above ground level enhances aviation safety in military operations areas that overlay public use airports. The agreement recommends that the FAA utilize existing resources to promptly provide radar or NextGen capability in areas with more than 5,000 operations per year.

Air/ground communications infrastructure.—The agreement provides \$1,600,000 above the budget request for infrastructure in

mountainous terrain that will enable continuous radio communication between the pilots of low-flying tour flights and ground support personnel, as well as infrastructure improvements needed to improve coverage in mountainous terrain.

Weather camera program.—The FAA is expected to expeditiously install all weather cameras previously funded for Hawaii, provide access to the real-time imagery from these weather cameras to the general public, and equip its flight service station specialists with the technical capabilities and training to provide verbal preflight and en route briefings.

Aerospace medicine safety information system [AMSIIS].—The agreement does not include any funding for the AMSIS. The agreement directs the FAA to reprogram up to \$9,300,000 for distance learning for the tower training simulators from the unobligated balances previously appropriated under this heading for AMSIS.

Distance learning.—The agreement provides \$17,200,000 for distance learning, of which \$15,400,000 is for tower simulation systems, \$1,000,000 is for distance learning, and \$800,000 is for the safety and technical education platform.

Of this amount: (1) \$12,000,000 is directed to support the expanded role of the UAS COE in areas of UAS research, including cybersecurity, agricultural applications, beyond visual line of sight technology, studies of advanced composites and other non-metallic engineering materials not common to manned aircraft but utilized in UAS, the STEM program, and to continue efforts with the UAS safety standards for UAS and to develop and validate certification standards for such systems; (2) \$2,000,000 for the Center's role in transportation disaster preparedness and response, partnering with institutions that have demonstrated experience in damage assessment, collaboration with state transportation agencies, and applied UAS field testing; and (3) \$8,000,000 is to support UAS research activities at the FAA technical center and other FAA facilities.

Alternative fuels for general aviation.—The agreement directs the FAA to prioritize funding to the testing and identification of unleaded fuels that can be safely used in piston-engine aircraft fleet. The agreement directs the FAA to prioritize the identification and testing of unleaded replacement fuels that are viable candidates for fleet authorization and to brief the House and Senate Committees on Appropriations within 120 days of enactment of this act on the progress it has made on these pending applications. The FAA is expected to move forward expeditiously on a rulemaking triggered by the Environmental Protection Agency's [EPA's] endangerment finding for lead emissions from aircraft engines that operate on leaded fuel.

Safety systems management/terminal area safety.—The agreement encourages the FAA to conduct research on the development, collection, and maintenance of safety critical data for vertical flight operations, infrastructure, and technology concepts using subject matter experts and laboratory facilities at the FAA's William J.

Hughes technical center. This research should include a revised heliport/vertiport facility obstruction policy, development of geospatial data standards, which define a data model for accuracy, standards, and maintenance updates, as well as instrument flight procedure development, automation, simulation and flight test data collection and evaluation, and technologies to support safer low-altitude operations.

Office of Inspector General reports.—The agreement expects the funds provided to aggressively address the recent Amtrak Office of Inspector General report that identified specific challenges that Amtrak may face in executing the funding provided through the IIJA to ensure the vision of an efficient national passenger rail network operating in a state of good repair is fully realized. The agreement directs Amtrak to provide a plan within 180 days of enactment of this act that explains how it intends to address each of the challenges identified by the Amtrak Office of Inspector General.

**NORTHEAST CORRIDOR GRANTS TO THE NATIONAL RAILROAD
PASSENGER CORPORATION**

The bill provides \$1,260,000,000, to remain available until expended, for the Secretary to make grants to Amtrak for activities associated with the NEC. The bill provides up to \$5,000,000 for the northeast corridor commission [NECC], which is in addition to the up to \$5,000,000 in advance appropriations made available for the NECC in fiscal year 2023 in the IIJA.

**NATIONAL NETWORK GRANTS TO THE NATIONAL RAILROAD PASSENGER
CORPORATION**

The bill provides \$1,193,000,000, to remain available until expended, for the Secretary to make grants to Amtrak for activities associated with the national network. The agreement provides a sufficient level of funding to meet all of the capital and operational needs to support the national network. Of this amount, at least \$50,000,000 is for the development, installation, and operation of railroad safety improvements, including the implementation of a positive train control system, and up to \$66,000,000 is to support the planning, capital costs, and operating assistance of corridors selected under the corridor identification and development program that are operated by Amtrak. The bill also provides up to \$3,000,000 for the state-supported route committee, which is in addition to the up to \$3,000,000 in advance appropriations made available for the state-supported route committee in fiscal year 2023 in the IIJA. The agreement does not provide additional funding for the interstate rail compacts grant program, as the up to \$3,000,000 in advance appropriations in fiscal year 2023 in the IIJA fully funds such grants as authorized in section 22101(f) of the IIJA.

National network services.—The agreement does not support proposals that will inevitably lead to long-term or permanent service cuts or segmentation of Amtrak's long-distance routes, which will lead to less service for rural communities.

Corridor identification and development program [CIDP].—Once corridors are selected, the Secretary shall partner with eligible entities that submitted each proposal, relevant states, and Amtrak, as appropriate, to prepare a service development plan to help advance the implementation of the intercity passenger rail service. The Department is directed to provide the report required by 49 U.S.C. 25101(g) once corridors are selected to the House and Senate Committees on Appropriations each February 1 of each year thereafter.

The bill includes a liquidation of contract authorization and a limitation on obligations from the mass transit account for transit formula grants of \$13,634,000,000, as authorized by the IIJA.

Innovation in affordable transit demonstration program.—The agreement encourages the FTA to support a demonstration program to determine the impacts of need-based transit subsidy programs in areas with the worst air quality and traffic congestion in the country through the public transportation innovation program authorized under 49 U.S.C. 5312.

Agricultural worker transportation.—The agreement encourages the FTA, through the national rural transportation assistance program, in coordination with the U.S. Department of Agriculture [USDA] rural housing service, to develop materials and best practices that can be disseminated to local governments, nonprofit organizations, and operators of public transportation with the goal of identifying options to establish or expand affordable and reliable transit services for farmworkers, especially those residing in housing financed by the USDA.

Health and safety of public transit workers.—The agreement notes that the transit cooperative research program [TCRP] completed research report 217 entitled “Improving the Health and Safety of Transit Workers with Corresponding Impacts on the Bottom Line” in December 2020. In place of the direction in House Report 117–402, the agreement directs the FTA to work with the TCRP to conduct follow-on research to research report 217 in order to increase transit agencies’ understanding of ways to improve the health and safety of transit workers, including operators and non-operators such as mechanics and engineers. The agreement directs the FTA to complete such research and report its findings to the House and Senate Committees on Appropriations no later than 18 months after enactment of this act.

COVID–19 pandemic impacts on transit accessibility.—Instead of the direction in House Report 117–402, the agreement directs the FTA to provide a report no later than 1 year after enactment of this act to the House and Senate Committees on Appropriations on the ways the COVID–19 pandemic impacted transit agencies and transit riders throughout the nation, including historically disadvantaged communities who rely upon public transportation.

The bill provides an additional \$541,959,324 in transit infrastructure grants, to remain available until expended. Of the funds provided, \$90,000,000 is available for buses and bus facilities competitive grants as authorized under 49 U.S.C. 5339(b); \$50,000,000 is available for low or no emission grants as authorized under 49 U.S.C. 5339(c); \$15,000,000 is available for ferry boats grants as authorized under 49 U.S.C. 5307(h), of which no less than \$5,000,000 is available only for low or zero emission ferries or ferries using electric battery or fuel cell components and the infrastructure to support such ferries; \$2,000,000 is available for bus testing facilities as authorized under 49 U.S.C. 5318; \$360,459,324 is available for the purposes and in amounts specified in the table entitled “Community Project Funding/Congressionally Directed Spending” included in this joint explanatory statement; \$17,500,000 is available for ferry service for rural communities as authorized under section 71103 of division G of Public Law 117–58; \$1,000,000 is available for an innovative mobility demonstration pilot program; \$1,000,000 is available for the accelerating innovative mobility program; and \$5,000,000 is available for technical assistance, research, demonstration, or deployment activities or projects to accelerate the adoption of zero emission buses in public transit as authorized under 49 U.S.C. 5312. The specific funding allocated in the table entitled “Community Project Funding/Con-

gressional Directed Spending” included in this joint explanatory statement shall not diminish or prejudice the application of a specific project or geographic region to receive other discretionary grants or loans.

Transit vehicle innovation deployment centers [TVIDC].—The agreement directs the FTA to utilize the TVIDC program to identify and suggest priorities for zero emission bus component focused research and innovation development, using the TVIDC industry wide coordination structure and understanding of zero emission bus components and vehicles. In addition, the agreement directs the FTA to collaborate with TVIDC in order to accelerate the production and deployment of zero emission transit technologies and infrastructure that reduce the impacts of the transportation sector on greenhouse gas emissions through research and technical assistance.

TECHNICAL ASSISTANCE AND TRAINING

The bill provides \$7,500,000 for technical assistance and training activities under 49 U.S.C. 5314, to remain available until September 30, 2024. The funding provided under this heading is supplemental to the funding provided under the heading “Transit Formula Grants”, as authorized by the IIJA.

Small-urban, rural, and Tribal transit providers.—The agreement directs that not less than \$1,500,000 shall be for a cooperative agreement for a technical assistance center to assist small-urban, rural, and Tribal public transit recipients and planning organizations with applied innovation and capacity building consistent with the direction in House Report 117–402.

CAPITAL INVESTMENT GRANTS

The bill provides \$2,210,000,000 for fixed-guideway projects, to remain available until expended. Of the funds provided, \$1,772,900,000 is available for new starts projects, \$100,000,000 is available for core capacity projects, \$215,000,000 is available for small starts projects, \$100,000,000 is available for the expedited project delivery pilot program, and \$22,100,000 is available for oversight activities consistent with 49 U.S.C. 5338(c). The bill directs the Secretary to administer the capital investment grants [CIG] program and move projects through the program to construction in accordance with the requirements of 49 U.S.C. 5309 and section 3005(b) of the FAST Act. The bill also clarifies that project sponsors may be concurrently eligible for both the new starts and expedited project delivery pilot programs.

Amounts provided in this act, combined with the funding provided in the Consolidated Appropriations Act, 2022 which remain unallocated, are sufficient to support projects that currently have executed grant agreements, projects that meet the requirements of 49 U.S.C. 5309 and are anticipating grant agreements in fiscal year 2023, and activities authorized under 49 U.S.C. 5309(b)(1).

Project management oversight [PMO] activities.—The agreement directs the FTA to continue to submit to the House and Senate Committees on Appropriations the quarterly PMO reports for each project with a full funding grant agreement.

New transportation projects in low-growth areas.—The agreement encourages the FTA to prioritize projects that connect communities unserved or underserved by transit to employment centers and projects that support economic growth in disadvantaged areas.

GRANTS TO THE WASHINGTON METROPOLITAN AREA TRANSIT AUTHORITY

The bill provides \$150,000,000 to carry out section 601 of division B of Public Law 110–432, to remain available until expended.

ADMINISTRATIVE PROVISIONS—FEDERAL TRANSIT ADMINISTRATION (INCLUDING RESCISSIONS)

Section 160 exempts previously made transit obligations from limitations on obligations.

Section 161 allows funds provided in this act that remain unobligated by September 30, 2026, for fixed guideway capital investment projects to be available for projects to use the funds for the purposes for which they were originally provided.

Section 162 allows for the transfer of appropriations made prior to October 1, 2022, from older accounts to be merged into new accounts with similar current activities.

Section 163 prohibits the use of funds to adjust apportionments pursuant to 26 U.S.C. 9503(e)(4).

Section 164 prohibits the use of funds to impede or hinder project advancement or approval for any project seeking a Federal contribution from the CIG program of greater than 40 percent of project costs.

Section 165 provides an additional amount for the CIG program.

Section 166 extends the period of availability for amounts made available for CIG in Public Law 117–103 and Public Law 116–94.

Section 167 permits the use of unexpended balances appropriated for low or no emission component assessment under 49 U.S.C. 5312(h) to be used for specified capital activities.

GREAT LAKES ST. LAWRENCE SEAWAY DEVELOPMENT CORPORATION OPERATIONS AND MAINTENANCE (HARBOR MAINTENANCE TRUST FUND)

The bill provides \$38,500,000 for the operations, maintenance, and capital infrastructure activities of the Great Lakes St. Lawrence Seaway Development Corporation [GLS]. Of that amount, not less than \$14,800,000 is provided for the seaway infrastructure program. The agreement provides \$1,000,000 for trade and economic development activities at the GLS, to be carried out in conjunction with system stakeholders.

Seaway infrastructure program.—The agreement directs the GLS to continue to submit an annual report to the House and Senate Committees on Appropriations, not later than 90 days after enact-

ment of this act, summarizing the activities of the seaway infrastructure program during the immediate preceding fiscal year.

**MARITIME ADMINISTRATION
MARITIME SECURITY PROGRAM
(INCLUDING RESCISSION OF FUNDS)**

The bill provides \$318,000,000 for the maritime security program, to remain available until expended, and rescinds \$55,000,000 in unobligated amounts made available in prior fiscal years.

CABLE SECURITY FLEET

The bill provides \$10,000,000 for the cable security fleet program, to remain available until expended.

TANKER SECURITY PROGRAM

The bill provides \$60,000,000 for the tanker security fleet program, to remain available until expended.

OPERATIONS AND TRAINING

The bill provides \$213,181,000 for the Maritime Administration's [MARAD] operations and training account. The agreement provides the following funding levels for specific activities within this account:

USMMA operations	\$87,848,000
USMMA facilities maintenance and repair, and equipment	11,900,000
USMMA capital improvement program	31,921,000
Maritime environmental and technical assistance program	6,000,000
America's marine highway program	10,000,000
MARAD headquarters operations	65,512,000

MARAD headquarters operations.—The agreement includes funding for two new full-time equivalents for a new compliance business unit at the MARAD headquarters as proposed in the budget request.

Sexual assault and sexual harassment [SASH] at USMMA.—The agreement directs the MARAD to follow the direction included in House Report 117–402 relating to SASH at the U.S. Merchant Marine Academy [USMMA]. In addition, the agreement directs the MARAD to continue to engage with U.S. commercial vessel operators on the every mariner builds a respectful culture [EMBARC] SASH prevention standards in order to enroll additional vessel operators in the sea year program and address impediments to participation. Further, the MARAD is directed to report to the House and Senate Committees on Appropriations quarterly in writing on the ways in which it is conducting such outreach and engagement in order to improve EMBARC program carrier enrollment. The agreement notes that the DOT established concurrent criminal jurisdiction over the USMMA campus, as required by Public Law 115–232 and Public Law 116–94, in October 2022 and therefore the agreement does not include the reporting requirement on this matter in House Report 117–402.

The agreement reiterates the importance of the USMMA conducting surveys on SASH every other year, as required by law, as

these surveys and accompanying analysis are important tools in determining the effectiveness of the policies, training, and procedures the USMMA and the MARAD have put in place to address SASH. The agreement directs the USMMA to expeditiously complete the 2021–2022 academic year survey on SASH, and transmit the report to Congress.

The Department shall also conduct routine assessments of the satellite phone functionality to ensure cadets serving in sea year have the means for direct 24/7 communication with the USMMA.

USMMA facility maintenance.—The agreement notes that the USMMA and the MARAD recently executed a comprehensive facilities and systems maintenance contract for the USMMA. The agreement expects such contract to result in efficient and timely routine maintenance of the USMMA campus. Instead of the briefing required in House Report 117–402, the MARAD is directed to brief the House and Senate Committees on Appropriations on such contract and the subsequent transition to such contract within 30 days of enactment of this act. In addition, the MARAD shall maintain a written list of the status of all essential and recurring maintenance and repair needs and activities, annual estimates of capital resources needed to replace and rehabilitate major operating systems that are not anticipated to be recapitalized under projects within the capital improvement program, the date by which such activities should be completed, and the date by which they were completed. The MARAD shall transmit such list in writing and provide a briefing to the House and Senate Committees on Appropriations each quarter.

USMMA capital improvements.—The agreement includes \$31,921,000 for the USMMA's capital improvement program [CIP], which combined with the \$51,111,573 in available unobligated prior year funding will result in a total of \$83,032,573 for CIP projects in fiscal year 2023. Of the CIP funds previously allocated to specific facilities, such terms and conditions no longer apply and any such funds are available for projects identified in the CIP. The agreement continues to direct the MARAD to expand and improve the capacity of the USMMA staff in order to facilitate the proper management and oversight of CIP projects, and directs the Department to consider using design build contracts in order to expedite the renovation of academic facilities and related pier infrastructure this fiscal year. The agreement reiterates the expectation that the MARAD complete CIP projects on an annual basis.

The agreement notes with concern the state of the USMMA's facilities and the lack of progress by the USMMA, the MARAD, and the Department on renovating or rehabilitating facilities, which has a direct impact on the quality of the education provided to students and the ability to attract new entrants to serve as future leaders in the United States Merchant Marine. The fiscal year 2019 CIP, completed on December 18, 2019, is the most recent annual report, and the agreement notes with disappointment that despite direction in Senate Report 116–109, the Consolidated Appropriations Act, 2021, and the Consolidated Appropriations Act, 2022, to provide such annual reports on the status of the CIP, an updated CIP has not been completed. The agreement acknowledges that the Department and the MARAD are in the process of final-

izing the fiscal year 2022 CIP, and directs the Department to issue the overdue fiscal year 2022 CIP within 30 days of enactment of this act. A current and up-to-date CIP annual report is critical to providing safe learning and living environments for students, and for utilizing the resources provided for the USMMA CIP under this heading in this and prior fiscal years.

Further, the USMMA, the MARAD, and the Department shall continue to provide quarterly briefings to the House and Senate Committees on Appropriations on the status of all short- and long-term CIP projects and provide an annual report on all CIP projects in the same manner and context as in previous fiscal years. In addition to planning for the renovation or replacement of academic facilities, the CIP for fiscal year 2023 should identify the long-term goals and sequencing of dormitory building renovations or replacements.

Domestic fuel transportation capabilities.—The agreement reiterates the importance of the Jones Act. Several reports on the Jones Act have been conducted by the GAO, and the DOD, in consultation with DOT, recently completed an analysis on the current U.S.-flagged fuel tanker vessel capacity; therefore, the agreement does not include the review required in House Report 117–402.

Secure composite shipping containers.—The agreement directs the MARAD to collaborate with the Federal Maritime Commission, DOD, and DHS to support the transition of secure composite shipping containers into wider use to provide increased security, shipment visibility, and cargo facilitation. The agreement directs the MARAD to use the existing America's marine highway program and the port infrastructure development program to promote and provide funding for secure composite shipping containers, if available and if eligible.

STATE MARITIME ACADEMY OPERATIONS

The bill provides \$120,700,000 for state maritime academy [SMA] operations. The bill provides the following funding levels for specific activities within this account:

Training ships	\$30,500,000
[Training vessel sharing]	<i>\$not more than \$8,000,000/</i>
National security multi-mission vessel program	75,000,000
Student incentive program	2,400,000
Fuel assistance payments	6,800,000
Direct payments for SMAs	6,000,000

National security multi-mission vessel [NSMV].—The agreement includes resources to assist SMAs in making shore-side infrastructure improvements to support the delivery and operation of the NSMVs. Shore-side infrastructure shall only include NSMV-specific improvements required by the MARAD to safely moor the vessels and other improvements that are necessary for SMAs to receive the NSMVs. Specifically, shore-side infrastructure shall include pier construction and upgrades directly related to the mooring of the vessel, but not for general maintenance that would otherwise be necessary absent receiving an NSMV, and is inclusive of associated utility upgrades directly related to mooring and operating the vessel, including but not limited to electricity and steam. The agree-

ment directs the MARAD to implement a Federal-state cost-share of not less than 80/20 for shore-side infrastructure improvements. In the event that there are extenuating circumstances that an SMA is unable to meet an 80/20 Federal-state cost-share requirement, the MARAD may determine whether a different Federal-state cost-share requirement is appropriate, necessary, and executable. In addition, the agreement directs the MARAD to sequence the funding distributed to SMAs for shore-side infrastructure improvements based on the vessel delivery schedule. The agreement applies the aforementioned direction on shore-side infrastructure improvements to funding provided for shore-side infrastructure improvements under this heading in fiscal year 2022. Further, the MARAD shall notify the House and Senate Committees on Appropriations prior to obligating any funds for shore-side infrastructure improvements, and such notification shall include the amount of funding provided by non-Federal sources for such infrastructure.

The agreement directs the MARAD to conduct vigorous oversight of the vessel construction manager, as well as the shipyard, to ensure the NSMVs are delivered on budget and on time. The MARAD is directed to continue to provide briefings to the House and Senate Committees on Appropriations on the status of the NSMV program on a quarterly basis, including detailed reporting on the SMAs shore-side infrastructure improvements needed to ensure successful delivery and operation of the NSMVs, and to provide immediate notification of any risks to the construction schedule or cost.

Home port designation.—The agreement notes that the MARAD has committed to continuing the longstanding practice of designating the home port of NSMVs as the location of the SMA which they serve. The agreement directs the MARAD to continue to work with the House and Senate Committees on Appropriations and the SMAs to ensure successful delivery and full implementation of the NSMVs.

ASSISTANCE TO SMALL SHIPYARDS

The bill provides \$20,000,000 for the small shipyard grant program, to remain available until expended.

SHIP DISPOSAL

(INCLUDING RESCISSION OF FUNDS)

The bill provides \$6,000,000 for the ship disposal program, to remain available until expended, and rescinds \$12,000,000 in unobligated amounts made available in prior fiscal years.

National maritime heritage grants program.—With the increasing cost of scrap steel, the MARAD is expected to ensure it is able to secure the highest price possible from vessels recycled through the ship disposal program. The funds received from these sales are deposited into the vessel operations revolving fund [VORF], and the MARAD distributes funding from the VORF according to the authorized purposes and allocations under 54 U.S.C. 308704, including to the national maritime heritage grants program. The agreement supports the use of funding from the VORF for the national maritime heritage grants program and directs the MARAD to continue to work with the National Park Service to ensure that the

portion of the VORF allocated for the national maritime heritage grants program under 54 U.S.C. 308704(b)(1)(A) is distributed in a timely fashion.

**MARITIME GUARANTEED LOAN (TITLE XI) PROGRAM ACCOUNT
(INCLUDING TRANSFER OF FUNDS)**

The bill provides \$3,000,000 for the administrative expenses of the Title XI program and directs that these funds be transferred to the MARAD's operations and training account.

PORt INFRASTRUCTURE DEVELOPMENT PROGRAM

The bill provides \$212,203,512 for the port infrastructure development program, to remain available until expended.

Set asides and prioritization.—The agreement directs the MARAD to set aside 25 percent of the funds for small inland river and coastal ports and terminals, as required by 46 U.S.C. 54301. The agreement directs the MARAD to allow Federal cost shares above 80 percent for projects in rural areas, as permitted by 46 U.S.C. 54301.

ADMINISTRATIVE PROVISION—MARITIME ADMINISTRATION

Section 170 authorizes the MARAD to furnish utilities and services and to make necessary repairs in connection with any lease, contract, or occupancy involving government property under control of the MARAD and allows payments received to be credited to the Treasury and to remain available until expended.

PIPELINE AND HAZARDOUS MATERIALS SAFETY ADMINISTRATION

OPERATIONAL EXPENSES

The bill provides \$29,936,000 for the necessary operational expenses of the PHMSA, of which \$4,500,000 shall remain available until September 30, 2025. The agreement specifies that \$2,000,000 shall be for pipeline safety information grants to communities as authorized by 49 U.S.C. 60130 and \$2,500,000 shall be for emergency response grants as authorized by 49 U.S.C. 60125(b).

HAZARDOUS MATERIALS SAFETY

The bill provides \$70,743,000 for the PHMSA's hazardous materials safety functions, of which \$12,070,000 shall remain available until September 30, 2025. Funds made available until September 30, 2025, are for long-term research and development contracts, grants, and, in a more limited scope, contract safety programs.

The agreement specifies that \$1,000,000 shall be for community safety grants as authorized by 49 U.S.C. 5107(i), up to \$2,500,000 shall be for the state hazardous materials safety inspection program, and \$1,000,000 shall be for the Assistance for Local Emergency Response Training [ALERT] grants. The agreement directs the PHMSA to prioritize ALERT grants for training in rural areas.

Staffing and outreach activities.—The agreement provides funding for a total of 213 full-time positions [FTP] to support the Office of Hazardous Materials Safety, which includes five new FTPs to expand the hazardous materials safety assistance team, enhance

the accident investigation program, and improve the safe transportation of emerging energy sources. The PHMSA may determine how to prioritize the new FTPs among these three activities.

PIPELINE SAFETY

(PIPELINE SAFETY FUND)

(OIL SPILL LIABILITY TRUST FUND)

The bill provides \$190,385,000 for the PHMSA's pipeline safety program, to remain available until September 30, 2025. Of that amount, \$29,000,000 is derived from the oil spill liability trust fund, \$153,985,000 is derived from the pipeline safety fund, \$400,000 is derived from fees collected under 49 U.S.C. 60303 and deposited in the liquefied natural gas siting account, and \$7,000,000 is derived from fees collected under 49 U.S.C. 60302 and deposited in the underground natural gas storage facility safety account.

The agreement provides the following levels for specific activities within this account:

Operations	\$85,864,000
Contract safety programs	23,963,000
Research and development	12,500,000
State pipeline safety grants	60,500,000
Underground natural gas storage facility safety grants	5,000,000
One-call state grants	1,058,000
State damage prevention grants	1,500,000

Staffing and hiring plans.—The agreement provides up to \$2,000,000 for hiring and retention incentives to recruit and retain highly qualified inspectors and engineers.

Enhanced positive response [EPR].—The agreement encourages the PHMSA to advance broader adoption of EPR.

Liquefied natural gas [LNG] COE.—The agreement notes that the PHMSA submitted the report required under section 111(c) of the Protecting Our Infrastructure of Pipelines and Enhancing Safety Act of 2020 (PIPES Act, division R of Public Law 116–260) to Congress, and provides up to \$8,400,000 for PHMSA to establish the national center of excellence for LNG safety [Center] as authorized in section 111(b) of the PIPES Act. The agreement directs that the use of such funds shall include authorized activities that would improve the safety of LNG facilities, including operations and management, and shall not take resources away from other safety critical activities within this account. Further, in establishing the Center, the PHMSA is directed to follow the requirements in section 111(e)(2), which the agreement notes aligns with “Model 3” in the report submitted to Congress. The PHMSA is also directed to ensure that resources from the existing training and qualifications center will not be relocated or duplicated at the new Center.

EMERGENCY PREPAREDNESS GRANTS**(LIMITATION ON OBLIGATIONS)****(EMERGENCY PREPAREDNESS FUND)**

The bill provides an obligation limitation of \$28,318,000 for emergency preparedness grants, to remain available until September 30, 2025.

While the House and Senate Committees on Appropriations support increased funding for emergency preparedness grants as authorized by section 26001 of the IIJA, the agreement does not include this increase because it is not supported by the level of fees permitted under 49 U.S.C. 5108(g). The agreement directs the PHMSA to work with the authorizing committees and relevant stakeholders to develop a proposal for increased fee levels that would support the authorized level of spending under section 26001 of the IIJA.

The agreement encourages the PHMSA to train public sector emergency response personnel in communities on or near rail lines, which transport a significant volume of high-risk energy commodities or toxic inhalation hazards.

OFFICE OF INSPECTOR GENERAL**SALARIES AND EXPENSES**

The agreement provides \$108,073,000 for the salaries and expenses of the Office of Inspector General.

GENERAL PROVISIONS—DEPARTMENT OF TRANSPORTATION

Section 180 provides authorization for the DOT to maintain and operate aircraft, hire passenger motor vehicles and aircraft, purchase liability insurance, pay for uniforms, and purchase and operate unmanned aircraft systems.

Section 181 limits appropriations for services authorized by 5 U.S.C. 3109 up to the rate permitted for an executive level IV.

Section 182 prohibits recipients of funds in this act from disseminating personal information obtained by state departments of motor vehicles in connection to motor vehicle records with an exception.

Section 183 prohibits funds in this act for salaries and expenses of more than 125 political and presidential appointees in the Department of Transportation.

Section 184 stipulates that revenue collected by the FHWA and the FRA from states, counties, municipalities, other public authorities, and private sources for training may be credited to specific accounts within the agencies, with an exception for state rail safety inspectors participating in training.

Section 185 prohibits the DOT from using funds to make a loan, loan guarantee, line of credit, letter of intent, Federally funded cooperative agreement, full funding grant agreement, or discretionary grant unless the DOT gives a 3-day advance notice to the House and Senate Committees on Appropriations. The provision requires the DOT to provide a comprehensive list of all such loans, loan guarantees, lines of credit, letters of intent, Federally funded coop-

erative agreements, full funding grant agreements, and discretionary grants that will be announced with a 3-day advance notice to the House and Senate Committees on Appropriations. The provision also requires concurrent notice of any “quick release” of funds from the FHWA’s emergency relief program, and prohibits notifications from involving funds not available for obligation.

Section 186 allows funds received from rebates, refunds, and similar sources to be credited to appropriations of the DOT.

Section 187 requires reprogramming actions to be approved or denied by the House and Senate Committees on Appropriations, and reprogramming notifications shall be transmitted solely to the Appropriations Committees.

Section 188 allows funds appropriated to operating administrations to be obligated for the Office of the Secretary for costs related to assessments only when such funds provide a direct benefit to the operating administrations.

Section 189 authorizes the Secretary to carry out a program that establishes uniform standards for developing and supporting agency transit pass and transit benefits, including distribution of transit benefits.

Section 190 allows the use of funds to assist a contract utilizing geographic, economic, or other hiring preference not otherwise authorized by law, only if certain requirements are met related to availability of local labor, displacement of existing employees, and delays in transportation plans.

Section 191 directs the Secretary of Transportation to work with the Secretary of Homeland Security to ensure that best practices for industrial control systems procurement are up to date and that systems procured with funds provided under this title were procured using such practices.

Energy codes.—The agreement urges the Department to work in partnership with USDA to expeditiously update the standards as required by law, which will reduce operating expenses for HUD-owned and subsidized properties.

Eviction data collection.—The agreement directs the GAO to examine the barriers that exist to collecting, digitizing, and standardizing data from the beginning to the end of the eviction process, such as pre-eviction information; the renter’s race or ethnicity, age and gender, as well as the composition of the household and landlord data; and the extent to which such information could inform future funding and policy decisions. The agreement directs the

GAO to brief the House and Senate Committees on Appropriations on its preliminary findings within 180 days of enactment of this act and to provide a full report upon completion.

Connections to other Federal, state, and local services.—The agreement urges HUD to use its technical assistance resources to increase the knowledge and capacity of HUD grantees to connect program participants to local opportunities and other government services, where appropriate.

Buying preference.—The agreement urges the Department to comply with the Buy America requirements of the IIJA.

Rural areas.—The agreement urges the Department to enhance its efforts to provide decent, affordable housing and to promote economic development for Americans living in rural areas. When designing programs and making funding decisions, the Department shall take into consideration the unique conditions, challenges, and scale of rural areas.

Regional approaches to affordable housing.—The agreement encourages the Department to make explicit in competitions for Federal funding that regional councils, councils of government, metropolitan planning organizations, and multi-jurisdictional consortiums may apply whenever these entities are eligible applicants. Furthermore, the agreement encourages the Department to actively seek opportunities for these entities to serve as lead applicants and grantees in order to promote and expand local, state, and regional collaboration.

Encouraging more affordable housing.—The agreement encourages HUD to continue research to identify opportunities to increase efficiency in housing manufacturing. The agreement recognizes that off-site construction, including modular and panelized, can be a promising means of increasing the supply of affordable housing

and encourages HUD to support consensus-based off-site construction standards.

The agreement includes \$18,500,000 for the salaries and expenses for executive offices, available until September 30, 2024. The agreement directs the Department to provide updates to the House and Senate Committees on Appropriations at key milestones on its progress to collect information on the extent to which public housing agencies [PHAs] and owners have adopted emergency transfer policies since the publication of the Department's model emergency transfer plan, and the effectiveness of those emergency transfer policies in ensuring survivors have access to safe housing.

HUD staffing assessment.—The agreement amends direction in House Report 117–402 regarding a GAO evaluation of staff capacity and instead encourages HUD to continue to assess staffing and training needs in the field, regional, and headquarters offices and brief the House and Senate Committees on Appropriations on changing needs.

The agreement does approve the creation of the Deputy Assistant Secretary for Operations.

Expired balances report.—The agreement directs HUD to submit a report on expired balances within 90 days of the end of each fiscal year.

Office of the Chief Financial Officer [OCFO].—The agreement does not provide dedicated funding for the financial transformation initiative as the appropriation for the OCFO is sufficient for the continuation of these activities in fiscal year 2023. However, the agreement directs HUD to detail any contract expenses for the financial transformation in its operating plans and congressional justifications and expects transparent communication with the House and Senate Committees on Appropriations on this effort. The agreement does not approve the proposed reorganizations to create a Customer Experience Division within the Assistant Chief Financial Officer [ACFO] for Budget, the creation of an Office of Chief Risk Officer, or moving the Grants Management and Oversight Division from the ACFO for Systems to the ACFO for Budget.

The agreement approves the Department’s proposed reorganizations to move the Technical Assistance Division into the Office of Policy Development and Research [PD&R], elevate the Field Operations Division under its own Deputy Assistant Secretary, and realign the offices within the Deputy Assistant Secretary for Operations. While the agreement does not approve moving the oversight of the section 4 or rural capacity building programs to the Deputy Assistant Secretary for Economic Development, or moving the formula allocation process to PD&R, it does approve the remaining organizational changes identified on page 45–12 of the fiscal year 2023 congressional budget justification.

Office of Housing.—The agreement directs the Department to provide updates to the House and Senate Committees on Appropriations within 90 days of enactment of this act on any current backlog in multifamily underwriting.

Office of Policy Development and Research.—The agreement supports the proposed realignment of the Technical Assistance Division from CPD to PD&R and approves the other alignments requested within PD&R.

WORKING CAPITAL FUND

(INCLUDING TRANSFER OF FUNDS)

For the working capital fund [WCF], the agreement permits only centralized activities and funds from this account to include Federal shared services for financial management, procurement, travel, relocation, human resources (including the treasury executive institute contract), printing, records management, space renovation, furniture, and supply services. The agreement does not expand the authority, as proposed in the budget request, to include information technology customer devices, financial management services full cost recovery, human resources platform licensing or any other activity not expressly permitted in this act. The agreement expects

that, prior to exercising discretion to centrally fund an activity, the Secretary shall have established transparent and reliable unit cost accounting for the offices and agencies of the Department that use the activity, and shall have adequately trained staff within each affected office and agency on resource planning and accounting processes associated with the centralization of funds to this account. The agreement also requires HUD to include in its annual operating plan a detailed outline of its plans for transferring budgetary resources to the WCF in fiscal year 2023.

PUBLIC AND INDIAN HOUSING
TENANT-BASED RENTAL ASSISTANCE

The agreement provides a combined total of \$30,253,112,000, to be available until expended, for all tenant-based section 8 activities: \$27,599,532,000 under the tenant-based rental assistance account in this title and an additional \$2,653,580,000, designated as an emergency requirement, in division N of this act.

Including the amounts provided in division N, the agreement includes a total of \$26,402,000,000 for the renewal of tenant-based vouchers. This amount includes funding to renew veteran affairs supportive housing [VASH] vouchers funded in prior years and also includes up to \$7,500,000 for Tribal HUD–VASH renewals.

The agreement provides \$50,000,000 in new incremental vouchers to expand affordable housing opportunities to low-income people (including families and individuals experiencing homelessness and survivors of domestic violence), \$50,000,000 for new incremental HUD–VASH vouchers, \$30,000,000 for new incremental family unification vouchers, and \$337,000,000 for tenant protection vouchers [TPVs].

The agreement does not require the report on tenant organizing in House Report 117–402.

Administrative fees.—The agreement directs HUD to consult with PHAs, advocates, and researchers on ways to make the administrative fee formula more relevant to what it costs to administer a high-performing and efficient voucher program today, and report on the findings and recommendations to the House and Senate Committees on Appropriations within 180 days of enactment of this act.

HUD–VASH.—The agreement directs HUD to continue to coordinate with the Department of Veterans Affairs [VA] to establish pathways that would allow for temporary transitional case management in areas that PHAs have vouchers available and accompanied with VA case management resources but are underutilized due to a lack of referrals from the VA, to ensure no veteran goes unserved where housing and services remain available. The agreement reminds HUD of direction to consult with the VA to enable PHAs to be designated entities to screen for veteran eligibility and make referrals for HUD–VASH and directs HUD to issue guidance related to approving a PHA to be a designated service provider no later than March 31, 2023. The agreement encourages the Department to reallocate HUD–VASH voucher assistance to PHAs with an identified need and directs HUD to expeditiously provide the report directed by the fiscal years 2021 and 2022 joint explanatory statements on methods to reallocate unused HUD–VASH vouchers,

which shall include a determination of the feasibility of issuing a new solicitation of participation for unallocated HUD–VASH vouchers.

Incremental vouchers.—The agreement provides \$50,000,000 for new incremental vouchers. In awarding these funds, the agreement directs HUD to support an initial term of 12 months. The agreement directs HUD to incorporate key lessons learned to date from research, as well as its execution of the emergency housing vouchers provided by the American Rescue Plan Act of 2021 (Public Law 117–2).

Special purpose vouchers.—The agreement directs the Department to work with the authorizing committees to address the underlying statutory obstacles that populations served by special purpose vouchers encounter in finding units available to lease within normal timeframes of larger voucher programs.

VAWA report.—In order to further improve upon the utilization of emergency transfers for survivors of domestic violence, dating violence, sexual assault, or stalking, the agreement directs the GAO to identify and study PHAs with effective transfer plans and report on their process for creating and implementing their plans, weaknesses and strengths of the emergency transfer plans, and any best practices that could be adopted by other PHAs. The agreement also directs the GAO to brief the House and Senate Committees on Appropriations on the proposed scope and methodology of this report within 90 days of enactment of this act and submit the final report to the Committees upon completion.

Project-based vouchers.—The agreement directs the Department to review options for addressing challenges with operating existing and future affordable housing projects that serve special populations, including people experiencing homelessness and individuals discharged from hospitals and other facilities, due to a lack of project-based rental assistance. This review shall include, but not be limited to, the feasibility of relaxing the percentage cap on project-based vouchers, in order to continue providing affordable housing to special needs populations who would otherwise face barriers in finding suitable housing in the private rental market. The agreement also directs the Department to improve its collection of data on project-based vouchers, including their utilization, and to provide a briefing to the House and Senate Committees on Appropriations on what data gaps exist and the steps HUD is taking to remedy those gaps within 120 days of enactment of this act.

Housing choice voucher data dashboard.—To better inform the identification of housing choice voucher program challenges and where additional policy and research considerations may be beneficial, the agreement urges HUD to add PHA and special purpose voucher-level data points on voucher success rates and to identify the amount of reserves that HUD determines are in excess of prudent program management.

HOUSING CERTIFICATE FUND

(INCLUDING RESCISSIONS)

The bill includes language allowing unobligated balances in the housing certificate fund to be used for the renewal of or amend-

ments to section 8 project-based contracts and for performance-based contract administrators.

PUBLIC HOUSING FUND

The agreement provides \$8,514,000,000 for the public housing fund to remain available until September 30, 2026.

Within the total, the agreement provides \$5,109,000,000 for the public housing operating formula for 2023 payments; \$25,000,000 for need-based allocations to PHAs that experience or are at risk of financial shortfalls; \$3,200,000,000 for allocations to PHAs through the capital fund formula; \$50,000,000 for emergency capital needs, of which \$20,000,000 shall be for PHAs under receivership or under the control of a Federal monitor, and of which not less than \$10,000,000 is for safety and security measures; \$65,000,000 for competitive grants to public housing agencies to evaluate and reduce residential health hazards, including lead-based paint, carbon monoxide, mold, radon, and fire safety, of which not less than \$25,000,000 is specifically for lead hazards; \$15,000,000 for administrative and judicial receiverships; and \$50,000,000 for public housing financial and physical assessment activities.

Operating formula grants.—The funding provided for operating formula grants includes funding for resident participation activities, including tenant organizing activities, capacity building and technical assistance, and access to community services.

Quality assurance of physical inspections.—The agreement directs the Department to identify how funds provided for the Real Estate Assessment Center [REAC], including any carryover balances, will be utilized during fiscal year 2023 as part of the operating plan required by section 405 of this act. The agreement also directs HUD to brief the House and Senate Committees on Appropriations during fiscal year 2023 at key milestones in implementation and rulemaking related to the national standards for the physical inspection of real estate [NSPIRE] inspection model, and include in such briefings details on how the open GAO recommendations are being addressed and HUD's progress in addressing its inspection backlog.

Shortfall funding.—The agreement directs that the allocation of financial shortfall funds shall first be prioritized to PHAs with 249 or fewer public housing units that are determined to be experiencing shortfalls and have less than one month of reserves before allocating funds to larger PHAs.

Administrative and judicial receiverships.—The agreement directs HUD to report quarterly to the House and Senate Committees on Appropriations on the status of PHAs under receivership, including factors that informed the receivership such as physical and financial scores, deficiencies with internal controls, and other information demonstrating each PHA's inability to effectively oversee their business operations. This report shall also include an identification of funding resources and technical assistance provided to each PHA for the purpose of transitioning out of receivership and how HUD will address deficiencies in an effort to return the respective PHAs to local control.

Recycling and zero waste.—The agreement does not include funding for the recycling and zero waste pilot program included in House Report 117–402. The agreement recognizes that HUD has submitted the overdue report on HUD’s evaluation of methods of supporting and expanding recycling and zero waste programs in public housing, and therefore does not include the related direction in House Report 117–402.

Emergency and safety and security grants.—Within the amounts provided for emergency capital needs, the agreement directs the Department to fund eligible safety and security projects as quickly as possible, and directs HUD to award the funds for PHAs under receivership or under the control of a Federal monitor based on need and not be subject to a cap on individual grant award amounts.

Residential health hazards.—The agreement prohibits the Department from deeming any PHA, including those that are troubled, substandard, or are under the direction of a monitor or a court-appointed receiver, to be ineligible to apply for or receive funding, provided that the PHA is in compliance with any current memorandum of agreement or recovery agreements. The agreement also prohibits HUD from deeming any PHA as ineligible to apply for or receive funding that has a violation or violations of the lead safe housing or lead disclosure rules and that present documentation establishing it is working in good faith to resolve such findings by meeting any deadlines it was required to reach under the terms of a settlement agreement, consent decree, voluntary agreement, or similar document as of the date of application. The Department is also prohibited from precluding funds from being used to carry out work to settle an outstanding violation. The agreement continues to expect the Department to work with PHAs to ensure that the initiative reflects the unique needs of the industry and strongly encourages HUD to work with PHAs, their maintenance staff, and tenants to help ensure potential lead-based paint risks are identified and addressed expeditiously.

The agreement directs the Office of Public and Indian Housing to continue to work with the Office of Lead Hazard Control and Healthy Homes to improve its monitoring processes and develop procedures to ensure that HUD staff take consistent and timely steps to address health hazards, as recommended by the GAO.

Public housing data dashboard.—To better inform the identification of program challenges and where additional policy and research considerations may be beneficial, the agreement urges HUD to add PHA-level data points on both program reserves and the amount of reserves that HUD determines are in excess of prudent program management.

Annual contributions contract [ACC] amendments.—The agreement directs HUD to comply with all appropriate process requirements and work and consult with PHAs in any future rulemaking process that amends the ACC.

CHOICE NEIGHBORHOODS INITIATIVE

The bill provides \$350,000,000 for the choice neighborhoods initiative, to remain available until September 30, 2027. Of this amount, not less than \$175,000,000 shall be made available to

PHAs and not more than \$10,000,000 is available for planning grants. The agreement directs HUD to give recipients of prior year planning grants priority consideration for implementation grant awards.

Supplemental grants.—The agreement directs HUD to use up to \$75,000,000 of the funding provided under this heading for competitive supplemental grants to current implementation grantees in the fiscal year 2023 NOFO for implementation grants to support the construction of replacement housing units. To be eligible for such funding, qualifying applicants shall be current grantees that received implementation grants as part of the fiscal year 2017, 2018, 2019, or 2020 NOFOs; received a choice neighborhoods planning grant; and are still actively developing housing. The agreement notes that HUD has included similar competitive supplemental grants in the fiscal year 2022 NOFO for implementation grants, however, selections have not been made. Therefore, the agreement directs HUD to allow otherwise qualifying current implementation grantees that have received supplemental funding from amounts provided under this heading in fiscal year 2022 to compete for these supplemental grants, and directs HUD to require such grantees to demonstrate additional significant needs. Further, the agreement directs HUD to use its existing waiver authority regarding total development cost limitations to enable otherwise qualifying current implementation grantees to compete for these supplemental grants. The agreement prohibits HUD from including the size of the housing site or project as a rating factor for these supplemental grants in the fiscal year 2023 NOFO for implementation grants. The agreement further directs that if HUD is considering leverage as a rating factor for such supplemental grants that such consideration prioritize grantees with the lowest public housing funds to non-public housing funds leverage ratio in all proposed development phases.

Supporting residents.—The bill increases the maximum amount of implementation grant funding that may be used for supportive services activities to not more than 20 percent. In implementing this authority, the agreement directs HUD to ensure grantees utilize an appropriate mix of allowed funding mechanisms and do not solely rely upon a supportive services endowment trust.

SELF-SUFFICIENCY PROGRAMS

The bill provides \$175,000,000 for self-sufficiency programs, to remain available until September 30, 2026. Of the total, \$125,000,000 is for the family self-sufficiency [FSS] program, \$35,000,000 is for the resident opportunity and self-sufficiency program, and \$15,000,000 is for the jobs-plus initiative.

FSS performance measurement system.—The agreement supports efforts to update FSS's performance measurement system and notes that HUD is in the process of improving the quality of the data and analysis of FSS programs. The agreement directs HUD to brief the House and Senate Committees on Appropriations on its FSS performance measurement methodology which will be published in the Federal Register.

Family self-sufficiency program.—Before awarding funds to new grantees, HUD shall first prioritize the renewal of all existing coor-

dinators and second consider funding additional coordinators for current grantees whose program sizes qualify for additional coordinators.

NATIVE AMERICAN PROGRAMS

(INCLUDING RESCISSION)

INDIAN HOUSING LOAN GUARANTEE FUND PROGRAM ACCOUNT

(INCLUDING RESCISSION)

The bill provides \$5,521,000 for the cost of guaranteed loans, to remain available until expended. The bill allows HUD to use funds in this and prior acts for the cost of guaranteed loans that are unobligated to subsidize a total loan level of not more than \$1,400,000,000, to remain available until September 30, 2024.

NATIVE HAWAIIAN HOUSING BLOCK GRANT

The bill provides \$22,300,000 for the Native Hawaiian housing block grant program, to remain available until September 30, 2027.

The agreement directs HUD to ensure that the funds provided are administered to maximize the provision of affordable housing through the construction of high density, multifamily affordable housing and rental units, as well as housing counseling services and the rehabilitation of housing on Native Hawaiian homelands that do not meet safe and sanitary housing building standards.

NATIVE HAWAIIAN HOUSING LOAN GUARANTEE FUND PROGRAM ACCOUNT

The bill provides not more than \$28,000,000 in loan guarantee commitment authority, including the authority to guarantee refinance loans, to remain available until September 30, 2024.

HOUSING OPPORTUNITIES FOR PERSONS WITH AIDS

The agreement provides \$499,000,000 for the housing opportunities for persons with AIDS [HOPWA] program, to remain available until September 30, 2024, except that amounts allocated pursuant to 854(c)(5) shall remain available until September 30, 2025.

Annual reporting system.—The agreement encourages HUD to continue efforts to make it easier for grantees to report their annual HOPWA data and to increase data quality in order to alleviate burdens for stakeholders, reduce vulnerabilities of paper- or desktop-based processes and data collection, and bring HOPWA grantee reporting capabilities in line with other CPD programs.

COMMUNITY DEVELOPMENT FUND

The agreement provides \$6,397,285,641 for the community development fund, to remain available until September 30, 2026. Of the total, the agreement provides \$3,300,000,000 in community development block grant [CDBG] formula funding, \$30,000,000 for activities authorized under section 8071 of the SUPPORT for Patients and Communities Act, \$85,000,000 for grants to reduce barriers to affordable housing development, and \$2,982,285,641 for economic development initiatives.

Yes in my backyard incentive grant program.—The agreement provides \$85,000,000 for a new competitive grant program that will reward state, local, and regional jurisdictions that have made progress in improving inclusionary zoning practices, land use policies, and housing infrastructure that will ultimately increase the supply of affordable housing. Improved land use policies may include increasing density, reducing minimum lot sizes, creating transit-oriented development zones, streamlining or shortening permitting processes and timeline, expanding by-right multifamily zoned areas, allowing mixed use and multifamily development in retail, office, and light manufacturing areas, allowing accessory dwelling units on lots with single family homes, eliminating or relaxing residential property height limitations, eliminating or reducing off-street parking requirements, and donating vacant land for affordable housing development. The agreement notes with encouragement HUD's existing research on barriers to affordable housing production and directs HUD to issue best practices for local, state, and regional agencies to improve such opportunities.

Fairness in CDBG formula.—In addition to the direction in House Report 117–402, the agreement directs HUD to submit a report to the House and Senate Committees on Appropriations within 180 days of enactment of this act on work undertaken by the Department in 2021 and 2022, and planned to be undertaken in 2023, to update the CDBG formula and reauthorize the CDBG program.

Colonias communities.—The agreement modifies the report directed in House Report 117–402 on colonias communities and instead directs the GAO to conduct a study on the economic, public health, and environmental conditions of colonias, the types of Federal assistance available to colonias, and the various definitions Federal agencies use in defining colonias. In its study, the GAO should also describe existing Federal efforts to assist colonias and

Federal coordination with the states, and identify challenges and barriers that may impede Federal efforts. The agreement directs the GAO to brief the House and Senate Committees on Appropriations on its preliminary findings within 280 days of enactment of this act and to provide a full report upon completion.

Data in rural communities.—The agreement encourages HUD to extend flexibilities for the use of alternative data for rural communities with less than 1,000 residents when a CDBG applicant considers American community survey data to be unreliable.

Coordinating Federal resources.—The agreement directs HUD to address the open recommendations in report GAO-21-579 and encourages HUD to look for additional ways to collaborate with various Federal agencies to help grantees and local communities maximize and more effectively align HUD's community development programs with other Federal economic development resources.

CDBG disaster recovery.—The agreement urges HUD to prioritize the acceleration of disaster recovery funds for eligible individuals and families, and to explore the utilization of mechanisms, like the recovery acceleration funds deployed by SBP in New Orleans, Louisiana and Enterprise Community Partners, to speed recovery through the use of private capital for upfront repair costs that are later reimbursed.

Economic development initiatives [EDIs].—The agreement directs HUD to provide funding for the projects listed in the table entitled “Community Project Funding/Congressionally Directed Spending” at the end of this joint explanatory statement in the corresponding amounts. The agreement further directs HUD to provide semi-annual briefings to the House and Senate Committees on Appropriations on the implementation of EDIs and the Department's oversight of projects.

COMMUNITY DEVELOPMENT LOAN GUARANTEES PROGRAM ACCOUNT

The agreement provides the authority to collect fees from borrowers adequate to result in a subsidy cost of zero and an aggregate limitation on commitments of no more than \$300,000,000 for loan guarantees under section 108.

Section 108(q).—Previously, Congress provided HUD with funding through section 108(q) to assist state and local governments with environmental remediation and economic development projects by providing competitive grant awards from the brownfields economic development initiative [BEDI] and the EDI programs, greatly enhancing the utilization of the section 108 loan program and development of larger scale projects that leveraged public and private investment. The agreement directs HUD to encourage borrowers of loans guaranteed under section 108 to undertake large scale community and economic development projects, including the redevelopment of shopping malls, and to provide a report to the House and Senate Committees on Appropriations on the extent to which the section 108 program has supported these activities. The agreement modifies House Report 117-402 and does not require quarterly reporting on progress to issue new loan guarantees.

HOME INVESTMENT PARTNERSHIPS PROGRAM

The bill provides \$1,500,000,000, to remain available until September 30, 2026, for the HOME investment partnerships program.

PRESERVATION AND REINVESTMENT INITIATIVE FOR COMMUNITY ENHANCEMENT

The agreement provides \$225,000,000 for the preservation and reinvestment initiative for community enhancement program, of which \$25,000,000 is for a pilot program to provide grants to assist in the redevelopment of manufactured housing communities as replacement housing that is affordable, to remain available until September 30, 2027. The agreement directs the Department, to the extent practicable, to fund grants in a variety of geographic areas, including urban and rural communities, Tribal communities, and areas prone to natural disasters.

SELF-HELP AND ASSISTED HOMEOWNERSHIP OPPORTUNITY PROGRAM

The bill provides \$62,500,000, to remain available until September 30, 2025. The bill provides the following funding levels for specific activities within this account:

Self-help homeownership opportunity program [SHOP]	\$13,500,000
Section 4 program	42,000,000
<i>[Rural capacity building activities]</i>	<i>(not less than \$5,000,000)</i>
National rural capacity building	6,000,000
Veterans housing rehabilitation and modification pilot program	1,000,000

SHOP per unit average investment cap.—The agreement notes that HUD increased the average SHOP expenditure for the combined cost of land acquisition and infrastructure improvements for the first time since 2004 in the fiscal year 2022 NOFO. The agreement directs HUD to use its existing authorities to include an average per SHOP unit cost in the fiscal year 2023 NOFO that is greater than the historical cap of \$15,000 per SHOP unit.

Following initial engagement with the GAO regarding its evaluation on cost trends in the SHOP program, as required by the Consolidated Appropriations Act, 2022, the House and Senate Committees on Appropriations are concerned with gaps in HUD's data collection from grantees, the quality and availability of data, and capacity to effectively analyze the needs relating to the average per SHOP unit cost. Therefore, instead of the study required in House Report 117–402, the agreement directs HUD to improve and increase its data collection requirements for grantees; strengthen its internal data analysis relating to cost trends, needs, changes, and impacts for the average per SHOP unit cost; and initiate a SHOP program evaluation. The agreement directs HUD to brief the House and Senate Committees on Appropriations no later than 120 days after enactment of this act on its progress on such actions to improve data collection and analysis.

Section 4 program.—The agreement directs that funds available for the section 4 program be used solely for capacity building activities.

Capacity building to address the needs of Tribal communities.—The agreement directs HUD to ensure that section 4 program

grantees collectively invest not less than \$1,000,000 in targeted capacity building activities to benefit Native Hawaiian, American Indian, and Alaska Native communities and populations in areas including, but not limited to, rural areas. This minimum investment is separate from the required investment for rural capacity building activities of not less than \$5,000,000.

Rural capacity building program.—For the purposes of the national rural capacity building NOFO, the agreement directs HUD to define an eligible national organization as “a nonprofit entity, which has ongoing experience in rural housing, including experience working with rural housing organizations, local governments, and Indian Tribes, as evidenced by past and continuing work in one or more states in eight or more of HUD’s Federal regions.”

Assistance for low-income and disabled veterans.—The agreement directs HUD to combine the \$1,000,000 provided in this act for the veterans housing rehabilitation and modification pilot program with available carryover balances in the fiscal year 2023 NOFO. The agreement encourages HUD to increase awareness about this program and the funding opportunities among veterans, veterans’ service organizations, and eligible entities, and to maximize the number of awards in the next NOFO.

HOMELESS ASSISTANCE GRANTS

The agreement provides \$3,633,000,000, to remain available until September 30, 2025, for homeless assistance grants. Funding is provided in the amounts shown in the following table:

Emergency solutions grants	\$290,000,000
Continuum of care (CoC) and rural housing stability assistance	3,154,000,000
[<i>Projects to assist survivors of domestic violence, dating violence, sexual assault or stalking</i>]	[not less than \$52,000,000]
National homeless data analysis project	7,000,000
Comprehensive approach to serving homeless youth	107,000,000
[<i>Youth homelessness system improvement grants</i>]	[not less than \$25,000,000]

[<i>Awards for states with populations less than 2,500,000</i>]	[not less than \$30,000,000]
Total	3,633,000,000

The agreement modifies the House Report 117–402 directive under this heading to not prioritize investigations or outreach to specific homeless subpopulations.

Additional planning resources.—The agreement directs HUD to continue its practice of administratively capping planning funds for the largest continuum of care [CoCs] grantees.

Permanent supportive housing.—The agreement encourages HUD and CoCs to leverage the funds provided for the construction, acquisition, or rehabilitation for new permanent supportive housing with other funding sources, such as tax credits and project-based rental assistance, to maximize the amount of housing that can be directed to meeting the needs of homeless individuals and families.

Comprehensive interventions to prevent and end youth homelessness.—The agreement directs HUD to ensure that sufficient technical assistance resources and equal consideration for youth homelessness system improvement grants are provided to rural areas.

When determining grant awards, the agreement encourages HUD to incorporate the following components as objectives for grantees: youth collaboration in project design and implementation, including establishment of local youth advisory boards; quality data collection, management, utilization, and evaluation; direct coordination and communication with service providers; cross-system partnerships including juvenile justice, child welfare, and education systems; and prevention and diversion strategies. The agreement prohibits the use of these funds for direct services or housing.

The agreement directs HUD to provide the new evaluation of the youth homelessness demonstration program [YHDP] to the House and Senate Committees on Appropriations no later than November 1, 2023.

The agreement reminds the Department and CoCs that renewal funding provided for YHDP projects may only be used for eligible youth-specific activities upon reaching renewal status. HUD is encouraged to provide public-facing information to grantees regarding the YHDP renewal process.

Clarifying eligibility and documentation requirements for homeless youth.—The agreement encourages the Department to continue to clarify program requirements regarding the waived requirement for youth ages 24 and under to provide third party documentation to receive housing and services through guidance, notice, and webcasts, as appropriate.

Tribal inclusion in YHDP.—The agreement encourages HUD to include Tribes and tribally designated housing entities as eligible recipients in the fiscal year 2023 YHDP NOFO.

Access to healthcare.—The agreement directs HUD to coordinate with the Centers for Medicare and Medicaid Services to provide additional guidance and technical assistance to HUD-funded housing and supportive service providers to increase access to Medicaid-funded services to address chronic homelessness.

Point-in-time count.—The agreement directs the Department to report to the House and Senate Committees on Appropriations within 180 days of enactment of this act about the viability of creating a digital point-in-time count data collection and analysis platform for communities to use.

Annual homeless assessment report [AHAR].—The agreement directs HUD to incorporate additional Federal data on homelessness, particularly as it relates to youth homelessness, into the AHAR and to submit the report to the House and Senate Committees on Appropriations by August 31, 2023.

HOUSING PROGRAMS

PROJECT-BASED RENTAL ASSISTANCE

The bill provides a combined total of \$14,907,000,000, to remain available until expended, for project-based rental assistance [PBRA] activities: \$13,937,580,000 under the project-based rental assistance account in this title and an additional \$969,420,000, designated as an emergency, in division N of this act. Of the total, not more than \$343,000,000 is for performance-based contract administrators [PBCAs], which in addition to unobligated balances available in the housing certificate fund will be sufficient to support

PBCAs. Consistent with the budget request, the agreement does not provide funding for tenant education and outreach, as prior year funding is available to support tenant organizing activities, capacity building and technical assistance, access to community services, and civic engagement activities.

Managing troubled properties.—The agreement directs HUD to include in the report required by section 219 of this act data on PBRA properties and units that have exited the program as a result of contract abatement from poor physical conditions or for other reasons.

Mark-to-market [M2M].—The bill includes the budget request to extend the M2M program under section 579 of the Multifamily Assisted Housing Reform and Affordability Act of 1997 to October 1, 2027. The bill also provides HUD the authority to make budget-based rent adjustments for PBRA contracts that have been renewed through the M2M program and are distressed or at risk of becoming distressed. The agreement directs HUD to use existing data sources, including PBCA/HUD management and occupancy reviews, as well as REAC inspections, to assess the physical property and operational needs amongst post-M2M properties and other PBRA properties with health and safety deficiencies to better understand the scope of the budget-based rent adjustment needs for PBRA properties. HUD is directed to provide the results of this assessment to the House and Senate Committees on Appropriations within 180 days of enactment of this act.

Section 8 moderate rehabilitation [mod rehab] and McKinney-Vento single room occupancy [SRO] sunset.—The agreement directs HUD to continue outreach to the owners of mod rehab and SRO properties on available conversion options and gather additional data on the potential conversion costs and benefits to these owners, and such data should be included with any proposal from HUD to sunset the programs.

Performance-based contract administrators.—The bill prohibits HUD from issuing a solicitation or accepting bids on any solicitation that is substantially equivalent to the draft solicitation entitled “Housing Assistance Payments (HAP) Contract Support Services (HAPSS)” issued by HUD on July 27, 2022. The agreement notes that this is the second draft solicitation in five years on the matter of providing PBRA support services, with HUD withdrawing a similar draft solicitation in March 2018. The agreement directs HUD to ensure that any future competition for PBCAs does not impede housing finance agencies or public housing agencies from competing on a state-basis. Should HUD determine that a subsequent draft solicitation that is not substantially equivalent to the July 27, 2022 draft solicitation is not feasible, the agreement directs HUD to include a legislative proposal as part of the fiscal year 2024 budget request. If HUD determines that a legislative proposal is necessary, HUD is directed to work with relevant stakeholders to ensure any potential legislative proposal results in effective and efficient oversight and monitoring of the PBRA program and maintains safe, stable, and affordable housing for the over 1,200,000 households living in PBRA properties across the country. In addition, the agreement urges HUD to assess the effectiveness of using

resident surveys as a tool to help PBCAs conduct effective oversight.

HOUSING FOR THE ELDERLY

The agreement provides \$1,075,000,000 for the section 202 program, to remain available until September 30, 2026, of which up to \$120,000,000 shall be for service coordinators and the continuation of existing congregate service grants. Service coordinators.—The agreement directs the Department to implement all recommendations from the GAO report entitled “Elderly Housing: HUD Should Do More to Oversee Efforts to Link Residents to Services” [GAO–16–758] and continue to keep the House and Senate Committees on Appropriations updated on the status of the action plan to implement these outstanding GAO recommendations.

HOUSING FOR PERSONS WITH DISABILITIES

The agreement provides \$360,000,000 for the section 811 program, to remain available until September 30, 2026. This includes up to \$148,300,000 for new project rental assistance [PRA] and capital advance awards.

Individuals with intellectual and developmental disabilities.—The agreement directs HUD to continue to prioritize projects targeting and serving individuals with intellectual and developmental disabilities who have been receiving care through family members when awarding the new PRA funds provided in this act. The agreement directs HUD to coordinate with Federal partners, including HHS, and other public, private, and non-profit stakeholders to review existing programs and regulations to identify gaps in services and existing barriers to stable housing and to provide a briefing to the House and Senate Committees on Appropriations with its findings and recommendations within 280 days of enactment of this act. Outreach to diverse and historically underserved communities.—The agreement encourages HUD to expand outreach to diverse and historically underserved communities, including Asian-Pacific, Latino(s), Black, Native Alaskan, Native Hawaiian, Tribal, and rural communities. Such outreach efforts should include culturally sensitive and linguistically appropriate service delivery, materials, and educational initiatives.

PAYMENT TO MANUFACTURED HOUSING FEES TRUST FUND

Institutional investment in single-family housing.—The agreement directs HUD to maintain its efforts to prioritize governmental entities and nonprofits in FHA note sales to counter recent trends

of increasing concentration of institutional financial investment in single-family housing. The agreement also directs the GAO to study and issue a report on the prevalence and location of institutional investors in single-family housing, the types of institutional investors involved, and the impacts of such investments on both the housing market and on the tenants residing in the homes. The agreement directs the GAO to brief the House and Senate Committees on Appropriations on proposed scope and timeline of this report no later than 180 days after enactment of this act and to submit the final report to the Committees upon completion.

Barriers to small-dollar mortgages.—The agreement directs HUD to brief the House and Senate Committees on Appropriations within 120 days of enactment of this act on the feedback it receives on the recently published “Request for Information Regarding Small Mortgage Lending” and on any further analysis it conducts on alternative price points, including but not limited to \$200,000.

The agreement encourages HUD to provide some awards to those who did not receive previous awards in fiscal year 2021 and fiscal year 2022 and promote geographic diversity in these awards.

Office of Innovation.—The agreement does not include direction relating to the Office of Innovation included in House Report 117–402. Instead, the agreement encourages the Office of Innovation to challenge the affordable housing industry to substantially drive down the cost of affordable housing design and production, including consideration of modular housing development.

Aging-in-place.—To the extent funds are available, the agreement directs HUD to research housing technologies that enable aging-in-place strategies.

Fair market rents [FMRs].—The agreement expects the Department to continue to evaluate alternative data sources, including those used by PHAs for rent comparability studies, for use in calculating FMRs and in appealing FMRs in order to identify data sources that are timely, reflective of the market, and cost effective. The agreement directs HUD to identify methods to decrease the cost burden of locally funded surveys on PHAs, including by clarifying when the lifecycle of an accepted private rent surveys can be up to 5 years, by identifying acceptable online data sources for use in rent comparability studies, and by clarifying the 100 recent movers sample size for surveys in rural areas. The agreement strongly encourages HUD, to the extent permissible under current regulations, to set FMRs at no lower than the previous year's level for an FMR area, unless the Department has sufficient local data to justify such a change. The agreement directs HUD to report to the House and Senate Committees on Appropriations within 90 days of the enactment of this act on strategies to improve data, to better forecast rents in communities that are habitually miscalculated, and decrease the cost of private rental surveys. Additionally, the Department shall report on the potential impact of expanding PHAs' ability to set payment standards from 110 percent of FMR to 120 percent of FMR if PHAs provide rent comparability studies that illustrate HUD-calculated FMRs are lower than actual market rates, or of increasing the FMR above the 40th percentile of gross rents.

VAWA study.—The agreement directs HUD to complete the study and report on housing and service needs of survivors of trafficking and individuals at risk for trafficking, as required by section 606 of the VAWA Reauthorization Act of 2022. The agreement further directs HUD to submit this study and report to the House and Senate Committees on Appropriations not later than September 15, 2023.

Area median incomes [AMI].—The agreement directs HUD to report to the House and Senate Committees on Appropriations within 180 days of enactment of this act on how using a national AMI for nonmetropolitan areas as a floor would impact rent calculations in and the administration of any programs using income limits to set rents.

FAIR HOUSING AND EQUAL OPPORTUNITY

FAIR HOUSING ACTIVITIES

The agreement provides \$86,355,000 for fair housing activities, to remain available until September 30, 2024. Of the funds available for FHIP, not less than \$10,400,000 is for education and outreach programs, and not less than \$3,700,000 is for fair housing organization initiatives. The directive in House Report 117–402 related to outreach to certain protected classes is modified to instead direct HUD to raise awareness of the rights and protections under the Fair Housing Act for all protected classes and report to the House and Senate Committees on Appropriations on its progress.

Appraisals.—The agreement supports HUD’s efforts to reduce bias in the home appraisal system through the education and outreach initiative and the national fair housing training academy.

OFFICE OF LEAD HAZARD CONTROL AND HEALTHY HOMES

LEAD HAZARD REDUCTION

(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$410,000,000 for lead hazard control and healthy homes programs, to remain available until September 30, 2025. Of the amount provided, not less than \$95,000,000 is available for lead-based paint hazard reduction in jurisdictions with the highest lead-based paint abatement needs and \$85,000,000 is available for the healthy homes initiative [HHI].

Aging-in-place home modification grants.—The agreement includes \$30,000,000 within the HHI for aging-in-place home modification grants in order to enable low-income seniors (persons who are 62 years of age or older) to remain in their homes through low-cost, high-impact home modifications. The intended beneficiaries of these grants are low-income seniors living in homes that are not receiving project-based rental assistance, and HUD shall ensure the use of funds appropriated reflects that intent. In designing the NOFO for this program, HUD is directed to continue to take into account successful models of low-barrier, participant-led, holistic approaches to aging-in-place. The agreement continues to direct HUD to track the outcomes of seniors whose homes have been modified in order to better understand the effectiveness of this funding in reducing at-home falls, hospitalizations, and emergency response calls, as well as improving independence and tenure in home over time.

Radon testing and mitigation resident safety demonstration.—The agreement includes \$5,000,000 for radon testing and mitigation activities in public housing units as proposed in the fiscal year 2023 budget request. The Office of Lead Hazard Control and Healthy Homes [OLHCHH] shall coordinate with the Office of Public and Indian Housing [PIH] throughout the length of the demonstration to ensure proper engagement and communication with the impacted PHAs. The agreement directs HUD to address the open recommendations in the 2021 HUD Office of Inspector General's evaluation of HUD Program Offices' Policies and Approaches for Radon [Report Number: 2020—OE—0003]. Additionally, the agreement continues to direct HUD to complete the objectives regarding healthy homes activities in the EPA's final Federal radon action plan scorecard issued in 2016, which has been subsumed into the broader public-private national radon action plan led by the American Lung Association.

Improving the lead grant application process.—The agreement appreciates the efforts undertaken by HUD to simplify the application process and encourage applicants and grantees to develop and utilize public-private partnerships as a means to leverage capital, as well as assist with grant and project management. The agreement directs HUD to continue to improve the NOFOs to encourage more grantees to apply, especially those that may not have access to professional grant writers. Additionally, HUD shall continue to clearly state in the NOFO that an application may include non-profit co-applicants, provided that an eligible city, county/parish, other unit of local government, or eligible state or Native American Tribe are identified as the lead or co-applicant.

Weatherization assistance program.—Homes are often eligible for assistance under the Department of Energy's [DOE's] weatherization assistance program [WAP] and HUD's lead-based paint hazard control grant program. The agreement supports OLHCHH's participation in the interagency working group on healthy homes and energy. OLHCHH is encouraged to continue to leverage partnerships between DOE, WAP grantees, and sub-grantees to perform window removal and installation work in older low-income housing. HUD is directed to collect information on how many units benefit from this coordination and quantify how this coordination has reduced costs for hardware and labor. HUD is directed to provide this information to the House and Senate Committees on Appropriations no later than 180 days after the end of each grant cycle on an annual basis.

Lead hazard reduction demonstration and lead hazard control grant per-unit consultation threshold.—To ensure lead hazard remediation funds are spent appropriately, efficiently, and effectively, HUD has established a threshold of \$20,000 per unit for its grantees to consult with HUD and review proposed high-cost remediations. The agreement is supportive of HUD's work to ensure effective use of the grant funding provided and also recognizes that the current consultation threshold was set in 2014. Therefore, the agreement encourages HUD to undertake a review of the threshold and related policy guidance to grantees to determine if any updates are warranted.

INFORMATION TECHNOLOGY FUND

The agreement provides \$374,750,000 for the information technology fund, to remain available until September 30, 2025, of which up to \$23,950,000 is available for development, modernization, and enhancement [DME] projects.

Major modernization project priorities.—The agreement includes \$20,800,000 in DME funding for the following projects, which it designates as major modernization projects: FHA IT modernization, PIH IT modernization, network enterprise zero trust solution, electronic special needs assistance programs [esnaps], and financial management modernization [LOCCS]. The agreement does not fully fund the request for the network enterprise zero trust solution, but supports HUD's efforts to initiate this work and develop a comprehensive roadmap for moving toward a zero trust architecture. Not more than \$2,080,000 of this amount may be obligated until the plan required by the bill is approved. Considering the current balances and state of progress in FHA's single-family IT systems, the funds for FHA IT modernization are provided to complete the automated underwriting system. The House and Senate Committees on Appropriations expect the Department to continue to prioritize progress on FHA's single-family IT systems in fiscal year 2023, and expects HUD to provide sustained executive-level attention to advancing and completing FHA catalyst for single-family mortgages.

Non-major modernization project priorities.—The agreement includes \$3,150,000 in DME funding for the following projects, which it designates as non-major modernization projects: enterprise geographic information system [eGIS] and acquisition tool. Not more than \$315,000 of this amount may be obligated until the plan required by the bill is approved. The agreement directs the Office of Community Planning and Development to update the House and Senate Committees on Appropriations immediately if additional resources, beyond those provided in fiscal year 2022, are needed for IT modifications to adequately support economic development initiatives.

IT reporting and oversight.—The House and Senate Committees on Appropriations acknowledge the significant improvement in the level of detail provided by HUD in its congressional justifications in fiscal year 2023, and directs HUD to continue to: (1) delineate between funding for operations and maintenance and DME, including planning; (2) consistent with OMB guidance, summarize spending by major, non-major, and standard IT investments; and (3) include plain language summaries of proposed DME projects, total costs and savings potential, and target functionality and mission benefits. HUD is reminded that the act requires updated reports on a quarterly basis to the House and Senate Committees on Appropriations on all DME projects, with additional detail on major modernization projects. However, this did not occur in fiscal year 2022, and HUD was inconsistent in notifying the Committees of major scope changes and cost increases in a timely and transparent manner. The agreement directs the Department to brief the House and Senate Committees on Appropriations within 30 days of enactment of this act on its plans to improve the timeliness, format, and clar-

ity of its reports and updates in a manner that meets the Committees' needs. The agreement also directs HUD to continue clarifying its reasoning for requests funded through the IT fund, the WCF, and individual salaries and expenses accounts.

Unplanned IT needs.—The agreement allows individual offices to transfer salaries and expenses amounts, up to \$500,000 from each office and no more than \$5,000,000 in total, to the IT fund to address unplanned costs or priority modifications of IT systems. Transferred funds must primarily benefit the office from which the funds are transferred. Any project or activity funded will not have known out-year DME costs in excess of \$500,000 and should have minimal impact on annual operations and maintenance costs.
